Annual Report 2011

JPMorgan Global Emerging Markets Income Trust plc

Annual Report & Accounts for the period ended 31st July 2011

J.P.Morgan
Asset Management

Features

Contents

Objective

The Company's investment objective is to provide investors with a dividend income combined with the potential for long term capital growth from investing in a diversified portfolio of emerging markets investments.

Investment Policies

- The Company predominantly invests in listed equities but has the flexibility also to invest in other types of securities, including, but not limited to, unlisted equities, convertible securities, preference shares, participation notes, debt securities, cash and cash equivalents. Investments in participation notes are limited to a maximum of 5% of the Company's assets.
- The Company can invest in any particular market, sector or country in the global emerging markets universe. It may also invest in securities issued by companies based in or operating in emerging markets but listed or traded on the stock exchanges of developed markets and in the securities of issuers based in developed markets that have substantial exposure to emerging markets.
- There are no fixed limits on portfolio construction with regard to region, country, sector or market capitalisation. The Company typically invests at least 80% of its gross assets in listed equities, but other security types may be used in the event of adverse equity market conditions or where they represent a more efficient means of obtaining investment income for the purposes of making dividend payments. In the event of adverse equity market conditions, the Company may hold fixed income securities of any kind to a maximum of 50% of its gross assets.
- Despite the absence of specific region, country, sector or market capitalisation limits, the Company manages its assets in a manner that is consistent with spreading investment risk.
- No more than 15% of gross assets may be invested in the securities of any one company or group at the time the investment is made.
- No more than 10% of the gross assets may be invested in unlisted securities or in other listed closed-end investment funds at the time the investment is made.
- The Company may undertake option writing in respect of up to 10% of the Company's net assets. The Company may invest in derivative instruments for the purposes of efficient portfolio management.

Benchmark

The Company's benchmark is the MSCI Emerging Markets Free Index, with net dividends reinvested, in sterling terms.

Capital Structure

At 31st July 2011, the Company's issued share capital comprised 142,655,853 ordinary shares of 1p each.

Management Company

The Company employs JPMorgan Asset Management (UK) Limited ('JPMAM' or the 'Manager') to manage its assets.

Chairman's Statement

This is the first Annual Report to shareholders since the Company began investing on 29th July 2010. The Company's investment objective is to provide investors with a dividend income combined with the potential for long term capital growth from investing in a diversified portfolio of emerging markets investments. The Company's launch raised £104.0 million. To the date of this report a further £47.3 million has been raised through the issue of new shares.

Performance

It is a pleasure to report on a solid performance in the Company's first full reporting period. For the period from 29th July 2010 to 31st July 2011, the Company recorded a total return on net assets of +15.7%, outperforming the total return of the benchmark index, the MSCI Emerging Markets Free Index, with net dividends reinvested, (in sterling terms), which returned +11.4%. The Investment Manager's Report reviews the Company's performance and gives details on the investment strategy and portfolio construction.

The total return to shareholders was +11.6%, as the Company's share price increased from 103.50p to 112.25p over the period. This is calculated using the opening mid market price on the first day of trading (103.5p); shareholders who subscribed for shares in the Company at £1 on launch have enjoyed a total return of +15.5%.

Revenue and Dividends

Gross revenue for the year amounted to £8.5 million and net total revenue after interest, administrative expenses and taxation amounted to £6.9 million. Revenue return per Ordinary share for the year, calculated on the average number of shares in issue, was 5.76p. The Company targeted an initial gross dividend yield of at least 4% based on the initial issue price of 100p per share. During the period, the Company paid two interim dividends totalling 3.25p per share. Notwithstanding recent market declines which have brought the Company's net asset value back to 98.4p at the time of writing, the Board is pleased to recommend a final dividend of 1.45p per Ordinary share. Subject to shareholders' approval at the Annual General Meeting on 10th November 2011, the dividend will be paid on 9th December 2011 to shareholders on the register as at the close of business on 18th November 2011. This will bring the total dividend for the period to 4.7p. The Board has stated that it intends to move to paying dividends on a quarterly basis when revenue reserves are sufficient for this to be appropriate and will do so in the current financial year, with the first such dividend to be declared in December 2011 .

Gearing

One of the advantages that an investment trust has over open ended investment vehicles is the ability to use borrowings to gear returns. The Company has a three year US$20 million loan facility, which was drawn down in full on 17th November 2010. An interest rate swap agreement was put in place on 12th November 2010 in order to fix the interest rate payable at 3.34%.

Share Capital

At launch on 29th July 2010, the Company issued 104,000,000 Ordinary shares of 1p each at a price of 100p per share, thus raising gross proceeds of £104.0 million. To date a further 42.9 million Ordinary shares have been issued at a premium to net asset value. During the period, the Company announced a Placing and Offer for Subscription of up to 200 million 'C' Shares. The gross proceeds of the issue were £26.4 million. Applications under both the Placing and Offer were satisfied in full for 26,402,325 'C' Shares and admitted on 19th April 2011 to the London Stock Exchange. The 'C' shares were converted into Ordinary Shares at a conversion ratio of 0.872304 and accordingly, 23,030,853 Ordinary Shares were admitted to trading on the London Stock Exchange on 18th May 2011.

The current authority to issue new shares will expire on 18th November 2011. At the forthcoming Annual General Meeting, the Board will seek renewal of the authority to issue new shares up to the equivalent of 20% of the current issued share capital. However, this will be reset to 10% of the issued share capital on 18th November 2011 in order to comply with the UKLA Listing Rules. More details are given in the Directors' Report.

The Board

On 1st August 2011 Pablo Forero resigned as a Director from the Company due to a change in personal circumstances. On 1st June 2011, Sarah Fromson was appointed a Director of the Company. She is currently Head of Investment Risk at Wellcome Trust and has many years of investment experience. In accordance with the Company's Articles of Association and with corporate governance best practice, all Directors will retire at this year's Annual General Meeting and, being eligible, will seek reappointment. Details of their background and experience can be found on page 13.

Annual General Meeting

The Annual General Meeting will be held at The Armourers' Hall, 81 Coleman Street, London EC2R 5BJ on Thursday, 10th November 2011 at 10.00 a.m. The meeting will include a presentation from the Investment Manager on investment policy and performance. There will also be an opportunity for shareholders to meet the Board and representatives of JPMorgan after the meeting.

It would be helpful if shareholders seeking answers to detailed questions put them in writing beforehand, addressed to the Company Secretary at Finsbury Dials, 20 Finsbury Street, London EC2Y 9AQ. Alternatively, questions may be submitted via the Company's website (www.jpmglobalemergingmarketsincome.co.uk). Shareholders who are unable to attend the AGM in person are encouraged to use their proxy votes. Proxy votes may be lodged electronically, whether shares are held through CREST or in certificate form and full details are set out on the form of proxy.

Chairman's Statement continued

Outlook

While the financial markets of the developed world are labouring under the burdens of accumulated debt, brittle confidence, low growth and risk, the outlook for emerging markets is structurally sunnier. The developing world is certainly not insulated from the storms blowing across Europe and the US, but these also serve to highlight the long term attractiveness of the growth markets. Many developing economies are well managed, having learned much from several decades of their own crises; and they are not heavily indebted. Inflation is of cyclical concern, but long term productivity remains competitive. A number of currencies are likely gradually to appreciate in value relative to the US Dollar, Euro and Sterling. Companies in these economies have scope to grow their profits and dividends through both internal and external sources of demand. Finally, as the Investment Manager's report makes clear, valuations of these emerging markets are undemanding. In the near term, the prospects for the Company cannot be detached from turbulence in developed markets. But I am confident that the Company will generate positive returns for shareholders over the coming years.

Andrew Hutton
Chairman

11th October 2011

Investment Manager's Report

Given the turmoil and turbulence in the world over the last 12 months it is perhaps surprising that since launch the Company has achieved its initial income target, produced a solid rise in NAV of nearly 14% and outperformed its benchmark. Overall during the first year of its life the Company has produced a steady income stream from a diversified portfolio of high quality companies whose earnings and dividends have risen largely as we expected, despite the sometimes alarming global backdrop.

Excess returns have come largely from stock selection, with the Taiwanese smart phone manufacturer HTC being the biggest success over the first year of the Company's life as well as positive contributions from iron ore producer Kumba and the Thai mobile phone company Advanced Info Service more than offsetting disappointments in China such as China Dongxiang and Zhejiang Expressway.

As expected at launch, currency has also boosted performance from a sterling investor's perspective with most emerging markets countries witnessing a rise in currency over the year, the notable exception being Turkey; the Lira fell almost 15% against sterling over the year. By contrast the Brazilian Real rose over 8% against sterling. We expect that although emerging markets currencies will remain volatile, the overall trend against sterling will remain positive and current concern about inflation within emerging markets will prove to be cyclical and transient and not structural as pessimists currently contend.

Portfolio changes over the year have been modest with overall turnover below 30%, which is consistent with our desire to be a long term investor and benefit from the compound growth of dividends, which is expected to average over 10% per annum in coming years.

The emphasis of the portfolio favouring stable growth in sectors such as consumer, telecommunications and utilities over the cyclicality of natural resources has remained constant over the first year of the Company's life and is not expected to change over the near term. Diversification by stock, country and sector is an important part of the portfolio and the Company is expected to continue to hold 60 to 70 individual holdings over the coming year.

There have been few stock specific disappointments over the last 12 months although medium sized companies in China, whilst offering considerable opportunity due to the growth of the domestic economy, have been difficult, with earnings proving to be volatile and value being more apparent than real on more than one occasion. As a general principle, understanding the difference between a value trap, whose profitability is deteriorating for structural reasons, and a value opportunity whose long term prospects are obscured by cyclical issues will continue to be the key to adding value through stock selection.

If the outlook for emerging markets could be detached from the broader global economy, current valuations at 1.6x price to book and 10x forward price earnings multiple would be very attractive. We think that indeed in 12 months' time these will be seen to have been attractive buy levels for the asset class, however, near term

global uncertainty sparked by the European debt crisis and general malaise in the G7 economies casts a pall over the prospects for emerging market equities. Global financial markets remain highly correlated and, consequently, demand for emerging markets is directly linked to the risk appetite of G7 investors which is currently low, depressing all equity valuations.

Earnings estimates are being selectively reduced for 2012 but, at the time of writing, we believe that earnings and dividends for the Company's holdings will grow more than 10% in 2012, setting the stage for further positive returns in the year ahead.

Richard Titherington

Board of Directors

Andrew Hutton (Chairman of Board)

A Director since June 2010. Appointed Chairman in July 2010.

Annual remuneration: £25,000.

Director of Schroders UK Growth Fund PLC, Asia Altitude Fund and Asia Altitude Master Fund. He is a member of the Governing Body of the Lister Institute of Preventive Medicine, a Trustee of the National Trust Retirement & Death Benefits Scheme and a Trustee of Kusuma Trust UK. Formerly with J.P. Morgan Investment Management and Coutts Group, where he was Global Head of Investment Management and, from 2004 to 2007, Managing Director and co-head of RBS Asset Management, a multi-manager and fund of hedge funds manager. He formed his own investment advisory practice, A.J. Hutton Ltd., in 2007.

Connections with Manager: None.

Shared directorships with other Directors: None.

Shareholding in Company: 90,000.

Paul Wallace

(Chairman of the Audit Committee and Nomination Committee)

A Director since June 2010.

Annual remuneration: £23,000.

Director of Blue Ocean Wireless Limited and Forum Energy plc. He previously acted as a consultant providing corporate financial advice to a wide variety of sizeable UK and international corporations. He also held senior finance and management roles for a number of UK and Hong Kong based companies including Group Finance Director of Sanctuary Group plc and Chief Financial Officer of First Pacific Co Ltd, a Hong Kong listed conglomerate. He was formerly a partner in Price Waterhouse, Hong Kong, and is a member of the Canadian Institute of Chartered Accountants.

Connections with Manager: None.

Shared directorships with other Directors: None.

Shareholding in Company: –

Sarah Fromson

A Director since 1st June 2011.

Annual remuneration: £20,000.

Head of Investment Risk at Wellcome Trust. She was previously at RBS Asset Management (formerly Coutts) where she held a number of senior positions, including Chief Investment Risk Officer, Co-Head of Investments and Head of the Long-Only Investment team.

Connections with Manager: None.

Shared directorships with other Directors: None.

Shareholding in Company: –

All Directors are members of the Audit and Nomination Committee and are considered independent of the Manager.

Directors' Report

The Directors present their report and the audited financial statements for the period ended 31st July 2011.

Business Review

The Company was incorporated on 4th June 2010 and launched as an investment trust on 29th July 2010.

Business of the Company
The Company carries on business as an investment trust and will seek approval by HM Revenue & Customs as an investment trust in accordance with Section 1158 of the Corporation Tax Act 2010 ('Section 1158') for the period ended 31st July 2011. The Company will seek approval under Section 1158 each year.

The Company is an investment company within the meaning of Section 833 of the Companies Act 2006. The Company is not a close company for taxation purposes.

A review of the Company's activities and prospects is given in the Chairman's Statement on pages 2 to 4, and in the Investment Managers' Report on pages 5 to 6.

Investment Objective and Policies
The Company's investment objective is to provide investors with a dividend income combined with the potential for long term capital growth from investing in a diversified portfolio of emerging market investments.

The Board seeks to manage the Company's risk by imposing various investment limits and restrictions.

- The Company predominantly invests in listed equities, but has the flexibility also to invest in other types of securities, including, but not limited to, unlisted equities, convertible securities, preference shares, participation notes, debt securities, cash and cash equivalents. Investments in participation notes are limited to a maximum of 5% of the Company's assets.
- The Company can invest in any particular market, sector or country in the global emerging markets universe. It may also invest in securities issued by companies based in or operating in emerging markets but listed or traded on the stock exchanges of developed markets and in the securities of issuers based in developed markets that have substantial exposure to emerging markets.
- There are no fixed limits on portfolio construction with regard to region, country, sector or market capitalisation. The Company typically invests at least 80% of its gross assets in listed equities, but other security types may be used in the event of adverse equity market conditions or where they represent a more efficient means of obtaining investment income for the purposes of making dividend payments. In the event of adverse equity market conditions, the Company may hold fixed income securities of any kind to a maximum of 50% of its gross assets.
- Despite the absence of specific region, country, sector or market capitalisation limits, the Company manages its assets in a manner that is consistent with spreading investment risk.
- No more than 15% of gross assets may be invested in the securities of any one company or group at the time the investment is made.
- No more than 10% of the gross assets may be invested in unlisted securities or in other listed closed-end investment funds at the time the investment is made.
- The Company may undertake option writing in respect of up to 10% of the Company's net assets. The Company may invest in derivative instruments for the purposes of efficient portfolio management.

Compliance with the Board's investment restrictions and guidelines is monitored continuously by the Manager and is reported to the Board on a monthly basis.

Performance
In the period ended 31st July 2011, the Company produced a total return to shareholders of +11.6% and a total return on net assets of +15.7%. This compares with the return on the Company's benchmark index of +11.4%. As at 31st July 2011, the gross value of the Company's investment portfolio was £169.8 million. The Investment Manager's Report on pages 5 to 6 includes a review of developments during the period as well as information on investment activity within the Company's portfolio.

Total Return, Revenue and Dividends
Gross total return amounted to £22.5 million and net total return after deducting administrative expenses, finance costs and taxation, amounted to £18.9 million. Distributable income for the period amounted to £6.9 million.

Two interim dividends of 1.00p and 2.25p per share have been paid during the period, amounting to £3,798,000.

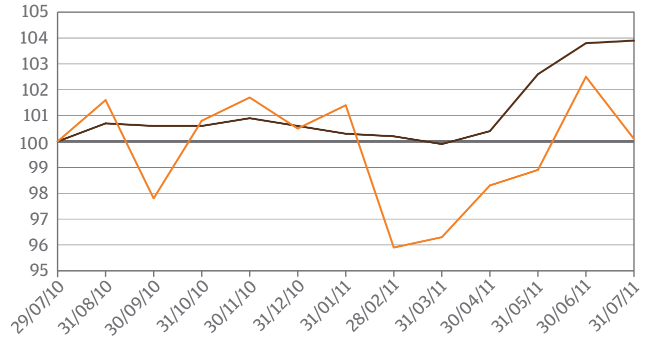
The Directors recommend a final dividend of 1.45p per share be paid on 9th December 2011 to shareholders on the register at the close of business on 18th November 2011. This distribution will absorb £2,069,000. Following payment of the final dividend, the revenue reserve will amount to £996,000.

Key Performance Indicators ('KPIs')
The Board uses a number of financial KPIs to monitor and assess the performance of the Company. The principal KPIs are:

- **Performance against the benchmark**
  This is the most important KPI by which performance is judged.

Performance Relative to Benchmark

Figures have been rebased to 100 at 29th July 2010



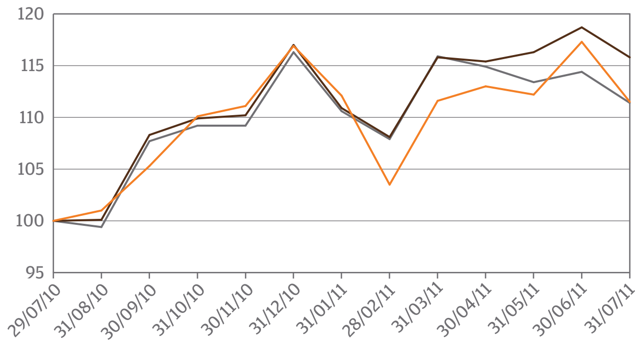
Source: Morningstar.

- JPMorgan Global Emerging Markets – share price total return.
- JPMorgan Global Emerging Markets – net asset value total return.
- Benchmark.

The Company's benchmark is the MSCI Emerging Markets Free Index, with net dividends reinvested, in sterling terms.

Performance since Inception

Figures have been rebased to 100 at 29th July 2010



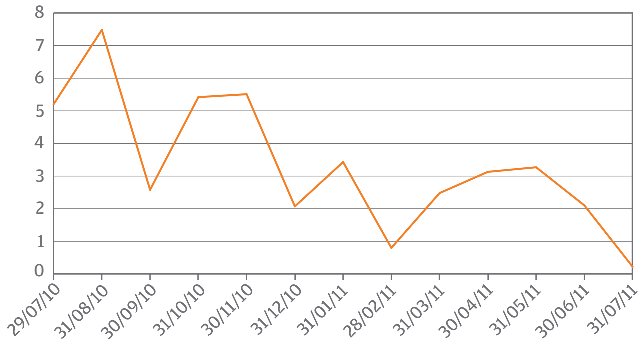
Source: Morningstar.

- JPMorgan Global Emerging Markets – share price total return.
- JPMorgan Global Emerging Markets – net asset value total return.
- Benchmark.

- **Performance**
  The principal objective is to provide investors with a dividend income combined with the potential for long term capital growth. However, the Board also monitors performance compared with a benchmark index and a broad range of competitor funds.

- **Share price premium/discount to net asset value per share**
  The Board recognises that the possibility of a narrowing premium or a widening discount can be a key disadvantage of investment trusts that can discourage investors. The Board therefore has a share issuance and repurchase programme that seeks to address imbalances in supply of and demand for the Company's shares within the market and thereby reduce the volatility and absolute level of the discount or premium to NAV at which the Company's shares trade. No shares have been repurchased for cancellation during the period because they have traded at a premium or close to the NAV per share throughout.

Premium



Source: Datastream.

- JPMorgan Global Emerging Markets – share price premium to net asset value per share.

- **Total expense ratio ('TER')**
  The TER represents the Company's management fee and all other operating expenses excluding performance fee payable, expressed as a percentage of the average of the month end net assets during the period. The TER for the period ended 31st July 2011 was 1.32%. The Board will review each year an analysis which shows a comparison of the Company's TER and its main expenses with those of its peers.

Share Capital
On 29th July 2010, 103,999,800 Ordinary shares were issued fully paid pursuant to a placing and offer for subscription, for gross proceeds of £104.0 million. During the period a further 15,625,000 Ordinary shares were issued to satisfy demand, for gross proceeds of £17.3 million, and in May 2011 a total of 23,030,853 shares were issued on the conversion of 26,402,325 'C' shares. Further details are given in note 16 on page 39.

Directors' Report continued

Since the period end, the Company has issued a further 4.25 million new Ordinary shares for total consideration of £4.29 million. All new Ordinary shares have been issued at a premium to NAV.

The Company has the authority to repurchase shares in the market for cancellation. However, no shares were repurchased during the period.

Resolutions to renew the authority to repurchase shares and to issue new shares will be put to shareholders at the forthcoming Annual General Meeting. More details are given on pages 18 to 19 and the full text of the resolutions is set out in the Notice of Meeting on pages 50 and 51.

Principal Risks
With the assistance of the Manager, JPMorgan Asset Management (UK) Limited ('JPMAM') the Board has drawn up a risk matrix, which identifies the key risks to the Company. These key risks fall broadly into the following categories:

- Investment and Strategy: An inappropriate investment strategy, for example asset allocation or the level of gearing, may lead to underperformance against the Company's benchmark index and peer companies, resulting in the Company's shares trading on a wider discount. The Board manages these risks by diversification of investments through its investment restrictions and guidelines, which are monitored and reported on. JPMAM provides the Directors with timely and accurate management information, including performance data and attribution analysis, revenue estimates, liquidity reports and shareholder analyses. The Board monitors the implementation and results of the investment process with the Investment Manager who attends all Board meetings, and reviews data which show statistical measures of the Company's risk profile. The Investment Manager is free to employ the Company's gearing tactically, within a strategic range set by the Board.
- Foreign Currency: Certain of the Company's assets, liabilities and income are denominated in currencies other than sterling (the Company's functional currency and the currency in which it reports). As a result, movements in exchange rates may affect the sterling value of these items.
- Financial: The financial risks faced by the Company include market price risk, interest rate risk, liquidity risk and credit risk. Further details are disclosed in note 23 on page 43.
- Accounting, Legal and Regulatory: In order to qualify as an investment trust, the Company must comply with Section 1158. Details of the Company's intention to seek approval are given under 'Business of the Company' above. Were the Company to breach Section 1158, it might lose investment trust status and, as a consequence, gains within the Company's portfolio could be subject to Capital Gains Tax. The Section 1158 qualification criteria are continually monitored by JPMAM and the results reported to the Board each month. The Company must also comply with the provisions of the Companies Act 2006 and, since its shares are listed on the London Stock Exchange, the UKLA Listing Rules and Disclosure and Transparency Rules ('DTRs'). A breach of the Companies Act could result in the Company and/or the Directors being fined or the subject of criminal proceedings. Breach of the UKLA Listing Rules or DTRs could result in the Company's shares being suspended from listing which in turn would breach Section 1158. The Board relies on the services of its Company Secretary, JPMAM to ensure compliance with the Companies Act 2006 and the UKLA Listing Rules and DTRs.
- Corporate Governance and Shareholder Relations: Details of the Company's compliance with Corporate Governance best practice, including information on relations with shareholders, are set out on pages 19 to 23.
- Operations: Disruption to, or failure of, JPMAM's accounting, dealing or payments systems or the custodian's records could prevent accurate reporting and monitoring of the Company's financial position. Details of how the Board monitors the services provided by JPMAM and its associates and the key elements designed to provide effective internal control are included on pages 21 and 22.

Future Developments
The future development of the Company depends on the success of the Company's investment strategy. The Investment Manager discusses the outlook in his report on pages 5 and 6.

Management of the Company

The Manager and Secretary is JPMAM. JPMAM is a wholly owned subsidiary of JPMorgan Chase Bank which, through other subsidiaries, also provides banking, dealing and custodial services to the Company.

The Board has evaluated the performance of the Manager and confirms that it is satisfied that the continuing appointment of the Manager is in the best interests of shareholders as a whole. In arriving at this view, the Board considered the investment strategy and process of the Manager, noting the support that the Company receives from JPMAM. Such a review will be carried out on an annual basis.

Management Fee

JPMAM is employed under a contract which is subject to six months' notice of termination. If the Company wishes to terminate the contract on less than six months' notice, the balance of the six months' remuneration is payable by way of compensation.

Under the terms of the Management Agreement, the management fee is charged at the rate of 1.0% per annum of the Company's total assets less current liabilities. The fee is calculated and paid monthly in arrears. Investments made by the Company in investment funds on which the Manager or a member of its group earns a fee are excluded from the calculation and therefore attract no management fee.

In addition, the Manager is entitled to receive a performance fee equivalent to 10% of any outperformance of the Company's net asset value per Ordinary share (on a total return basis) over the Company's benchmark index, the MSCI Emerging Markets Free Index, with net dividends reinvested (in sterling terms) over a performance fee period. A performance fee measurement period ends, and restarts, at a financial year end when outperformance of the Company's benchmark has been achieved and a performance fee earned. If there is underperformance, the measurement period continues. Therefore, the period may be more than one year. The maximum performance fee that can be paid to the Manager in any one year is capped at 0.75% of the Company's average monthly total assets less current liabilities and in a year when the Company produces a negative net asset value total return per share, this amount will be accrued but not paid. Any amount earned in excess of this cap will be carried forward and will be offset by any underperformance in future years. During the period ended 31st July 2011, the Company outperformed its benchmark index. As a result, a performance fee amounting to £897,000 has been earned and the whole of this amount is immediately payable.

Going Concern

The Directors believe that having considered the Company's investment objective (see page 14), risk management policies (see pages 43 to 48), capital management policies and procedures (see page 49), the nature of the portfolio and expenditure projections, that the Company has adequate resources, an appropriate financial structure and suitable management arrangements in place to continue in operational existence for the foreseeable future. For these reasons, they consider that there is reasonable evidence to continue to adopt the going concern basis in preparing the accounts.

Payment Policy

It is the Company's policy to obtain the best terms for all business and therefore there are no standard payment terms. In general, the Company agrees with its suppliers the terms on which business will take place and it is the Company's policy to abide by these terms. As at 31st July 2011, the Company had no outstanding trade creditors.

Directors

Pablo Forero, Andrew Hutton and Paul Wallace were appointed Directors on 17th June 2010. Sarah Fromson was appointed a Director on 1st June 2011. Pablo Forero resigned as a Director on 1st August 2011. The Directors of the Company who held office at the end of the year, together with their beneficial interests in the Company's ordinary share capital, are given below:

Ordinary Shares

Directors	31st July 2011	4th June 2010 or as at date of appointment
Andrew Hutton	80,200	–
Sarah Fromson	–	–
Paul Wallace	–	–
	80,200	–

On 10th August 2011, Andrew Hutton acquired a further 9,800 shares.

In accordance with corporate governance best practice all Directors will stand for reappointment at the forthcoming Annual General Meeting. The Audit and Nomination Committee, having considered their qualifications, performance and confirmation to the Board and to the Committee, confirms that each Director continues to be effective and demonstrates commitment to the role and the Board recommends to shareholders that they be reappointed.

Director Indemnification and Insurance

As permitted by the Company's Articles of Association, the Directors have the benefit of an indemnity which is a qualifying third party indemnity, as defined by Section 234 of the Companies Act 2006. The indemnity was in place during the period and as at the date of this report.

Directors' Report continued

An insurance policy is maintained by the Company which indemnifies the Directors of the Company against certain liabilities arising in the conduct of their duties. There is no cover against fraudulent or dishonest actions.

Disclosure of information to Auditors

In the case of each of the persons who are Directors of the Company at the time when this report was approved:

(a) so far as each of the Directors is aware, there is no relevant audit information (as defined in the Companies Act 2006) of which the Company's auditor is unaware, and

(b) each of the Directors has taken all the steps that he ought to have taken as a Director in order to make himself aware of any relevant audit information (as defined) and to establish that the Company's auditor is aware of that information.

The above confirmation is given and should be interpreted in accordance with the provision of Section 418 of the Companies Act 2006.

Section 992 Companies Act 2006

The following disclosures are made in accordance with Section 992 of the Companies Act 2006.

Capital Structure
The Company's capital structure is summarised on the 'Features' page.

Voting Rights in the Company's shares
Details of the voting rights in the Company's shares as at the date of this report are given in note 16 to the Notice of Meeting on page 52.

Notifiable Share Interests
At the date of this report the Company was aware of the following holdings of 3% or more of the Company's voting rights:

Shareholders	Number of voting rights	%
Brewin Dolphin Limited	23,557,796	16.8
Cazenove Capital Management Limited	9,795,950	9.4
Rensburg Sheppards Investment Management Limited	9,727,350	8.6
Investec Wealth & Investment	11,411,610	8.0
J O Hambro Investment Management Limited	7,350,250	7.1
CCLA Investment Management Ltd	5,000,000	4.8
UBS AG	5,831,960	4.0
Legal & General Group Plc	4,375,878	3.0

The rules concerning the appointment and replacement of Directors, amendment of the Articles of Association and powers to issue or buy back the Company's shares are contained in the Articles of Association of the Company and the Companies Act 2006.

There are no restrictions concerning the transfer of securities in the Company; no special rights with regard to control attached to securities; no agreements between holders of securities regarding their transfer known to the Company; no agreements which the Company is party to that affect its control following a takeover bid; and no agreements between the Company and its directors concerning compensation for loss of office.

Environmental Matters, Social and Community Issues

Information on environmental matters, social and community issues is set out on pages 22 and 23. The Company has no employees.

Independent Auditor

Ernst & Young LLP have expressed their willingness to continue in office as auditor to the Company and a resolution proposing their re-appointment and to authorise the Directors to agree their remuneration for the ensuing year will be put to shareholders at the forthcoming Annual General Meeting.

Annual General Meeting

NOTE: THIS SECTION IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION. If you are in any doubt as to the action you should take, you should seek your own personal financial advice from your stockbroker, bank manager, solicitor or other financial adviser authorised under the Financial Services and Markets Act 2000.

Resolutions relating to the following items of special business will be proposed at the forthcoming Annual General Meeting:

(i) Authority to repurchase the Company's shares (resolution 8)
A resolution will be proposed at the Annual General Meeting that the Company be authorised to repurchase in the market up to 14.99% of the Company's issued share capital as at the date of the passing of the resolution.

Any repurchases will be at the discretion of the Board and will be made in the market only at prices below the prevailing net asset value per share, thereby enhancing the NAV of the remaining shares. The authority limits the number of shares that could be repurchased to a maximum of 22,021,187 Ordinary shares, representing approximately 14.99% of the Company's issued share capital as at 10th October 2011 (being the latest practicable date prior to the publication of this report).

The authority to repurchase shares will expire on 9th May 2013 but it is the Board's intention to seek renewal of the authority at the 2012 AGM.

(ii) Authority to allot new shares and disapplication of pre-emption rights (resolutions 9 and 10)

The Company published a prospectus on 19th November 2010 in connection with a placing of up to 100 million ordinary shares, of which as at the date of this report 90.5 million remain unissued. The prospectus remains valid in respect of any further issue of ordinary shares pursuant to the placing up to and including 18th November 2011, after which the prospectus will lapse.

Resolution 9, if passed, will authorise the Directors to allot up to 29,381,170 ordinary shares or, if different, such number of ordinary shares as shall represent 20% of the Company's issued share capital as at close of business on the day immediately preceding the Annual General Meeting.

If Resolution 10 is passed, the Directors will also have the power to allot the shares over which they are granted authority pursuant to Resolution 9 for cash on a non pre-emptive basis. Any ordinary shares allotted on a non pre-emptive basis will not be issued at a price less than the prevailing net asset value per ordinary share.

Although the Board would be authorised to allot up to 29,381,170 ordinary shares (or, if different, such number of ordinary shares as shall represent 20% of the Company's issued share capital as at close of business on the day immediately preceding the Annual General Meeting) for cash on a non pre-emptive basis, the Board would only utilise this power up to the maximum amount permitted in respect of ordinary shares issued pursuant to the placing on the basis of the existing prospectus during the period from the conclusion of the Annual General Meeting up to and including 18th November 2011. After 18th November 2011 and the lapse of the existing prospectus, the Directors will limit the number of ordinary shares which may be issued for cash on a non pre-emptive basis to such maximum number of shares as shall be equal to 10% of the Company's issued ordinary share capital as at midnight on 18th November 2011 (this being the maximum amount of ordinary shares that the Company may issue during the next twelve months without having to publish a new prospectus).

The Directors intend to use this authority when they consider that it is in the best interests of shareholders to do so and to satisfy continuing demand for the Company's ordinary shares. As such issues are only made at prices greater than the NAV, they increase the assets underlying each share and spread the Company's administrative expenses, other than the management fee which is charged on the value of the Company's assets, over a greater number of shares.

Recommendation

The Board considers that resolutions 8 to 10 are likely to promote the success of the Company and are in the best interests of the Company and its shareholders as a whole. The Directors unanimously recommended that you vote in favour of the resolutions, as they intend to do in respect of their own beneficial holdings which amount in aggregate to 90,000 ordinary shares, representing 0.06% of the voting rights of the Company.

Corporate Governance

Compliance

The Company is committed to high standards of corporate governance. This statement, together with the Statement of Directors' Responsibilities on page 25, indicates how the Company has applied the principles of good governance of the Financial Reporting Council's UK Corporate Governance Code (the 'Code') and the AIC's Code of Corporate Governance (the 'AIC Code'), which complements the Code and provides a framework of best practice for investment trusts.

The Board is responsible for corporate governance and considers that the Company has complied with the best practice provisions of the Code, insofar as they are relevant to the Company's business, and the AIC Code throughout the period under review.

Role of the Board

A management agreement between the Company and JPMAM sets out the matters which have been delegated to the Manager. This includes management of the Company's assets and the provision of accounting, company secretarial, administration, and some marketing services. All other matters are reserved for the approval of the Board. A formal schedule of matters reserved to the Board for decision has been approved. This includes determination and monitoring of the Company's investment objectives and policy and its future strategic direction, gearing policy, management of the capital structure, appointment and removal of third party service providers, review of key investment and financial data and the Company's corporate governance and risk control arrangements.

Directors' Report continued

The Board has procedures in place to deal with potential conflicts of interest and confirms that the procedures have operated effectively during the period under review.

The Board meets on at least four occasions during the year and additional meetings are arranged as necessary. Full and timely information is provided to the Board to enable it to function effectively and to allow Directors to discharge their responsibilities.

There is an agreed procedure for Directors to take independent professional advice if necessary and at the Company's expense. This is in addition to the access that every Director has to the advice and services of the Company Secretary, JPMAM, which is responsible to the Board for ensuring that Board procedures are followed and for compliance with applicable rules and regulations.

Board Composition

The Board, chaired by Andrew Hutton, consists of three non-executive Directors, all of whom are regarded by the Board as independent of the Company's Manager, including the Chairman. The Directors have a breadth of investment, business and financial skills and experience relevant to the Company's business. Brief biographical details of each Director are set out on page 13.

A review of Board composition and balance is included as part of the annual performance evaluation of the Board, details of which may be found below. The Board has considered whether a senior independent director should be appointed and has concluded that, as the Board is composed entirely of non-executive directors, this is unnecessary at present. However, the Chairman of the Audit and Nomination Committee leads the evaluation of the performance of the Chairman and is available to shareholders if they have concerns that cannot be resolved through discussion with the Chairman.

Tenure

Directors are initially appointed until the following Annual General Meeting when, under the Company's Articles of Association, it is required that they be reappointed by shareholders. Thereafter, a Director's appointment runs for a term of three years. In the light of the performance evaluation carried out each year, the Board will decide whether it is appropriate for the Director to seek an additional term. The Board does not believe that length of service in itself necessarily disqualifies a Director from seeking reappointment but, when making a recommendation, the Board will take into account the ongoing requirements of the Code, including the need to refresh the Board and its Committees.

The Company's Articles of Association require that Directors stand for reappointment at least every three years. However, the Board has agreed that, in accordance with corporate governance best practice, all Directors will seek annual reappointment

The terms and conditions of Directors' appointments are set out in formal letters of appointment, copies of which are available for inspection on request at the Company's registered office and at the Annual General Meeting.

Meetings and Committees

The Board delegates certain responsibilities and functions to Committees. Details of membership of Committees are shown with the Directors' profiles on page 13.

The table below details the number of Board and Audit and Nomination Committee meetings attended by each Director. During the period under review there were four quarterly Board meetings and one Audit and Nomination Committee meeting. In addition, there were eight other ad hoc Board meetings to deal with various corporate initiatives.

Director	Board Meetings Attended	Audit and Nomination Committee Meeting Attended
Andrew Hutton	12	1
Pablo Forero[1]	11	1
Sarah Fromson[2]	1	–
Paul Wallace	12	1

[1]Resigned as a Director on 1st August 2011.

[3]Appointed as a Director on 1st June 2011.

Training and Appraisal

On appointment, the Manager and Company Secretary provide all Directors with induction training. Thereafter regular briefings are provided on changes in regulatory requirements that affect the Company and Directors. Directors are encouraged to attend industry and other seminars covering issues and developments relevant to investment trusts.

The Board has agreed procedures for the formal evaluation of the Manager, its own performance and that of the Audit and Nomination Committee and individual Directors. Questionnaires, drawn up by the Board, are completed by each Director. The responses are collated and then discussed at a meeting of the Audit and Nomination Committee. The evaluation of individual Directors is led by the Chairman, on the basis of the questionnaires, and the Audit and Nomination Committee Chairman leads the evaluation of the Chairman's performance.

Board Committee

Audit and Nomination Committee

The Audit and Nomination Committee, chaired by Paul Wallace, and comprising all of the independent Directors, will meet at least twice each year. The members of the Audit and Nomination Committee consider that they have the requisite skills and experience to fulfil the responsibilities of the Committee.

The Committee reviews the actions and judgements of the Manager in relation to the half year and annual accounts and the Company's compliance with the Code. It reviews the terms of the management agreement and examines the effectiveness of the Company's internal control systems, receives information from the Manager's Compliance department and reviews the scope and results of the external audit, its cost effectiveness, the balance of audit and non-audit services, and the independence and objectivity of the external Auditor. In order to safeguard the Auditor's objectivity and independence, any significant non-audit services are carried out through a partner other than the audit engagement partner. Representatives of the Company's Auditor attend the Committee meeting at which the draft annual report and accounts are considered. The Directors' statement on the Company's system of internal control is set out below.

The Committee fulfils the role of a Nomination Committee in ensuring that the Board has an appropriate balance of skills to carry out its fiduciary duties and to select and propose suitable candidates when necessary for appointment. A variety of sources, including external search consultants, may be used to ensure that a wide range of candidates is considered. External search consultants were not used for the recruitment of Sarah Fromson.

The Committee undertakes an annual performance evaluation to ensure that all members of the Board have devoted sufficient time and contributed adequately to the work of the Board. The Committee also reviews Directors' fees and makes recommendations to the Board as and when required.

On an annual basis each Director submits a list of potential conflicts of interest for approval. These are considered carefully, taking into account the circumstances surrounding them and, if considered appropriate, are approved. Following the introduction of The Bribery Act 2010, the Board has adopted appropriate procedures designed to prevent bribery.

Terms of Reference

The Audit and Nomination Committee has written terms of reference which define clearly its responsibilities. Copies are available for inspection on request at the Company's registered office and at the Annual General Meeting.

Relations with Shareholders

The Board regularly monitors the shareholder profile of the Company. It aims to provide shareholders with a full understanding of the Company's activities and performance and reports formally to shareholders quarterly each year by way of the annual report and accounts, the half year report and two interim management statements. This is supplemented by daily publication, through the London Stock Exchange, of the net asset value of the Company's shares. Shareholders may also visit the Company's website at www.jpmglobalemergingmarketsincome.co.uk where the share price is updated every 15 minutes during trading hours.

All shareholders have the opportunity, and are encouraged, to attend the Company's Annual General Meeting, at which the Directors and representatives of the Manager are available in person to meet shareholders and answer their questions, and a presentation is given by the Investment Manager who reviews the Company's performance. During the year the Company's brokers, the Investment Manager and JPMAM hold regular discussions with larger shareholders and make the Board fully aware of their views. The Chairman and Directors make themselves available as and when required to support these meetings and to address shareholder queries. The Directors may be contacted through the Company Secretary whose details are shown on page 57.

The Company's Annual Report and Accounts is published in time to give shareholders at least 21 days' notice of the Annual General Meeting. Shareholders who cannot attend the meeting but wish to raise questions in advance of the meeting are encouraged to write to the Company Secretary at the address shown on page 57.

Details of the proxy voting position on each resolution will be published on the Company's website shortly after the Annual General Meeting.

Internal Control

The Code requires the Directors, at least annually, to review the effectiveness of the Company's system of internal control and to report to shareholders that they have done so. This encompasses a review of all controls, which the Board has identified as including business, financial, operational, compliance and risk management controls.

The Directors are responsible for the Company's system of internal control, which is designed to safeguard the Company's assets, maintain proper accounting records and ensure that financial information used within the business, or published, is reliable. However, such a system can only be designed to

Directors' Report continued

manage rather than eliminate the risk of failure to achieve business objectives and therefore can only provide reasonable, but not absolute, assurance against fraud, material mis-statement or loss.

Since investment management, custody of assets and all administrative services are provided to the Company by JPMAM and its associates, the Company's system of internal control mainly comprises monitoring the services provided by JPMAM and its associates, including the operating controls established by them, to ensure they meet the Company's business objectives. The Company does not have an internal audit function of its own, but relies on the internal audit department of JPMAM, and the Board reviews this arrangement annually. The key elements designed to provide effective internal control are as follows:

Financial Reporting – Regular and comprehensive review by the Board of key investment and financial data, including management accounts, revenue projections, analysis of transactions and performance comparisons.

Management Agreement – Appointment of a manager and custodian regulated by the Financial Services Authority (FSA), whose responsibilities are clearly defined in a written agreement.

Management Systems – The Manager's system of internal control includes organisational agreements which clearly define the lines of responsibility, delegated authority, control procedures and systems. These are monitored by JPMAM's Compliance Department which regularly monitors compliance with FSA rules.

Investment Strategy – Authorisation and monitoring of the Company's investment strategy and exposure limits by the Board.

The Board, either directly or through the Audit and Nomination Committee, keeps under review the effectiveness of the Company's system of internal control by monitoring the operation of the key operating controls of the Manager and its associates as follows:

- the Board, through the Audit and Nomination Committee, reviews the terms of the management agreement and regular reports from JPMAM's Compliance department;
- the Board reviews the report on the internal controls and operations of its custodian, JPMorgan Chase Bank, which is itself independently reviewed; and
- the Directors review every six months an independent report on the internal controls and the operations of JPMAM.

By means of the procedures set out above, the Board confirms that it has reviewed the effectiveness of the Company's system of internal control for the period ended 31st July 2011, and to the date of approval of this Annual Report and Accounts.

During the course of its review of the system of internal control, the Board had not identified nor been advised of any failings or weaknesses which it has determined to be significant.

Corporate Governance and Voting Policy

The Company delegates responsibility for voting to JPMAM. The following is a summary of JPMAM's policy statements on corporate governance, voting policy and social and environmental issues, which has been reviewed and noted by the Board.

Corporate Governance
JPMAM believes that corporate governance is integral to our investment process. As part of our commitment to delivering superior investment performance to our clients, we expect and encourage the companies in which we invest to demonstrate the highest standards of corporate governance and best business practice. We examine the share structure and voting structure of the companies in which we invest, as well as the board balance, oversight functions and remuneration policy. These analyses then form the basis of our proxy voting and engagement activity.

Proxy Voting
JPMAM manages the voting rights of the shares entrusted to it as it would manage any other asset. It is the policy of JPMAM to vote in a prudent and diligent manner, based exclusively on our reasonable judgement of what will best serve the financial interests of our clients. So far as is practicable, we will vote at all of the meetings called by companies in which we are invested.

Stewardship/Engagement
JPMAM recognises its wider stewardship responsibilities to its clients as a major asset owner. To this end, we support the introduction of the FRC Stewardship Code, which sets out the responsibilities of institutional shareholders in respect of investee companies. Under the Code, managers should:

- *publicly disclose their policy on how they will discharge their stewardship responsibilities to their clients;*
- *disclose their policy on managing conflicts of interest;*
- *monitor their investee companies;*
- *establish clear guidelines on how they escalate engagement;*
- *be willing to act collectively with other investors where appropriate;*
- *have a clear policy on proxy voting and disclose their voting record; and*
- *report to clients.*

JPMAM endorses the Stewardship Code for its UK investments and supports the principles as best practice elsewhere. We believe that regular contact with the companies in which we invest is central to our investment process and we also recognise the importance of being an 'active' owner on behalf of our clients.

Social & Environmental

JPMAM believes that companies should act in a socially responsible manner. Although our priority at all times is the best economic interests of our clients, we recognise that, increasingly, non-financial issues such as social and environmental factors have the potential to impact the share price, as well as the reputation of companies. Specialists within JPMAM's environmental, social and governance ('ESG') team are tasked with assessing how companies deal with and report on social and environmental risks and issues specific to their industry.

JPMAM is also a signatory to the United Nations Principles of Responsible Investment, which commits participants to six principles, with the aim of incorporating ESG criteria into their processes when making stock selection decisions and promoting ESG disclosure. Our detailed approach to how we implement the principles is available on request. JPMAM is also a signatory to Carbon Disclosure Project. JPMorgan Chase is a signatory to the Equator Principles on managing social and environmental risk in project finance.

JPMAM's Voting Policy and Corporate Governance Guidelines are available on request from the Company Secretary or can be downloaded from JPMAM's website: http://www.jpmorganinvestmenttrusts.co.uk/governance which also sets out its approach to the seven principles of the FRC Stewardship Code, its policy relating to conflicts of interest and its detailed voting record.

Directors' Remuneration Report

The Board has prepared this report in accordance with the requirements of Section 421 of the Companies Act 2006. An ordinary resolution to approve this report will be put to the members at the forthcoming Annual General Meeting.

The law requires the Company's auditor to audit certain of the disclosures provided in this report. Where disclosures have been audited they are indicated as such. The auditor's opinion is included in their report on page 26.

Directors' Remuneration for the period from the date of appointment to 31st July 2011[1]

Director's Name	£
Andrew Hutton (Chairman)	**28,109**
Pablo Forero[2]	–
Sarah Fromson[3]	**3,333**
Paul Wallace	**25,860**
Total	**57,302**

[1]Audited information.

[2]Resigned as a Director on 1st August 2011. Mr Forero's fees were waived for the entire period.

[3]Appointed as a Director on 1st June 2011.

Directors' fees were paid at a fixed rate of £25,000 per annum for the Chairman, £23,000 per annum for the Chairman of the Audit and Nomination Committee and £20,000 per annum for other Directors. One Director waived his fees.

No amounts were paid to third parties for making available the services of Directors.

The Board's policy for this and subsequent years is that Directors' fees should properly reflect the time spent by the Directors on the Company's business and should be at a level to ensure that candidates of a high calibre are recruited to the Board. The Chairman of the Board and the Chairman of the Audit and Nomination Committee are paid higher fees than other Directors, reflecting the greater time commitment involved in fulfiling these roles.

As all of the Directors are non-executive, the Board has not established a Remuneration Committee. Instead, it has an Audit and Nomination Committee which will review Directors' fees on a regular basis and makes recommendations to the Board as and when appropriate. Reviews are based on information provided by the Manager, JPMAM, and relevant third parties on the level of fees paid to the directors of the Company's peers and within the investment trust industry generally. The Directors' fees are not performance-related. Any increase in the present permitted aggregate fee level of £175,000 requires both Board and shareholder approval.

The Directors do not have service contracts with the Company. Details of the Board's policy on tenure is set out on page 20.

The Company does not operate any type of incentive or pension scheme and therefore no Directors receive bonus payments or pension contributions from the Company or hold options to acquire shares in the Company. Directors are not paid compensation for loss of office. No other payments are made to Directors, other than the reimbursement of reasonable out-of-pocket expenses incurred in attending to the Company's business.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the total return or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent; and
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The accounts are published on the www.jpmglobalemergingmarketsincome.co.uk website, which is maintained by the Company's Manager, JPMorgan Asset Management (UK) Limited ('JPMAM'). The maintenance and integrity of the website maintained by JPMAM is, so far as it relates to the Company, the responsibility of JPMAM. The work carried out by the auditor does not involve consideration of the maintenance and integrity of this website and, accordingly, the auditor accepts no responsibility for any changes that have occurred to the accounts since they were initially presented on the website. The accounts are prepared in accordance with UK legislation, which may differ from legislation in other jurisdictions.

Statement under the Disclosure & Transparency Rules 4.1.12

The Directors each confirm to the best of their knowledge that:

(a) the financial statements, prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and Applicable Law), give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company; and

(b) this Annual Report includes a fair review of the development and performance of the business and the position of the Company together with a description of the principal risks and uncertainties that it faces.

Independent Auditor’s Report

Independent Auditor’s Report to the members of JPMorgan Global Emerging Markets Income Trust plc

We have audited the financial statements of JPMorgan Global Emerging Markets Income Trust plc (the ‘Company’) for the period from 4th June 2010 to 31st July 2011 which comprise the Income Statement, the Statement of Total Recognised Gains and Losses, the Reconciliation of Movements in Shareholders’ Funds, the Balance Sheet, the Cash Flow Statement and the related notes 1 to 24. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company’s members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Auditors

As explained more fully in the Statement of Directors’ Responsibilities set out on page 25, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board’s Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company’s circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report and Accounts to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies, we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company’s affairs as at 31st July 2011 and of its return for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the part of the Directors’ Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006; and
- the information given in the Directors’ Report for the period for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements and the part of the Directors’ Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of Directors’ remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules we are required to review:

- the Directors’ statement, set out on page 17, in relation to going concern;
- the part of the Corporate Governance Statement relating to the Company’s compliance with the UK Corporate Governance Code specified for our review; and
- certain elements of the report to the shareholders by the Board on Directors’ remuneration.

The notes on pages 31 to 49 form an integral part of these accounts.

Notes to the Accounts

for the period from incorporation on 4th June 2010 to 31st July 2011

1. Accounting period

The financial information covers the period from the date of the incorporation of the Company on 4th June 2010 to 31st July 2011. Dealings in the Company's shares began on the London Stock Exchange on 29th July 2010 and the Company began investing on that date.

2. Accounting policies

(a) Basis of accounting

The accounts are prepared in accordance with the Companies Act 2006, United Kingdom Generally Accepted Accounting Practice ('UK GAAP') and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' (the 'SORP') issued by the AIC in January 2009.

All of the Company's operations are of a continuing nature.

The accounts have been prepared on a going concern basis.

(b) Valuation of investments

The Company's business is investing in financial assets with a view to profiting from their total return in the form of income and capital growth. This portfolio of financial assets is managed and its performance evaluated on a fair value basis, in accordance with a documented investment strategy and information is provided internally on that basis to the Company's Board of Directors. Accordingly, upon initial recognition the investments are designated by the Company as 'held at fair value through profit or loss'. They are included initially at fair value which is taken to be their cost, excluding expenses incidental to purchase which are written off to capital at the time of acquisition. Subsequently the investments are valued at fair value which are quoted bid market prices for investments traded in active markets.

Gains and losses on sales of investments, including the related foreign exchange gains and losses, represent the excess of sales proceeds against initial cost and are included in the Income Statement and dealt with in capital reserves within 'Gains and losses on sales of investments'. Increases and decreases in the valuation of investments held at the period end, including the related foreign exchange gains and losses are included in the Income Statement and dealt with in capital reserves within 'Holding gains and losses on investments'.

All purchases and sales are accounted for on a trade date basis.

(c) Income

Dividends receivable from equity shares are included in revenue on an ex-dividend basis except where, in the opinion of the Board, the dividend is capital in nature, in which case it is included in capital.

UK dividends are included net of tax credits. Overseas dividends are included gross of any withholding tax.

Interest receivable on deposits and debt instruments is taken to revenue on an accruals basis using the effective interest rate method.

Where the Company has elected to receive scrip dividends in the form of additional shares rather than in cash, the amount of the cash dividend foregone is recognised in revenue. Any excess in the value of the shares received over the amount of the cash dividend is recognised in capital.

2. Accounting policies continued

(d) Expenses

All expenses are accounted for on an accruals basis. Expenses are allocated wholly to revenue with the following exceptions:

- Management fees are allocated 30% to revenue and 70% to capital in line with the Board's expected long term split of revenue and capital return from the Company's investment portfolio.
- Performance fees are allocated 100% to capital.
- Expenses incidental to purchases and sales of investments are charged to capital. These expenses are commonly referred to as transaction costs and include items such as stamp duty and brokerage commissions. Details of transaction costs are given in note 11.

(e) Finance costs

Finance costs are accounted for on an accruals basis using the effective interest rate method and in accordance with the provisions of FRS 25 'Financial Instruments: Presentation' and FRS 26 'Financial Instruments: Measurement'.

Finance costs of the 'C' shares issued by the Company, which were classified as a liability, are recognised as an expense and shown in the capital column of the Income Statement.

Finance costs other than those relating to the 'C' shares, are allocated 30% to revenue and 70% to capital in line with the Board's expected long term split of revenue and capital return from the Company's investment portfolio.

(f) Financial instruments

Cash and short term deposits may comprise cash and demand deposits which are readily convertible to a known amount of cash and are subject to insignificant risk of changes in value.

Other debtors and creditors do not carry any interest, are short term in nature and are accordingly stated at carrying value as reduced by appropriate allowances for estimated irrecoverable amounts. The carrying value of all debtors and creditors approximates to their fair value.

Short term forward currency contracts are classified as derivative financial instruments and are held at fair value through profit or loss. Unrealised gains or losses on contracts outstanding at the end of the period are recognised in the Income Statement.

The Company uses an interest rate swap to hedge the cash flow risk arising from interest rate fluctuations. The swap is classified as 'held at fair value through profit or loss' and has been designated as an effective cash flow hedge in accordance with the provisions of FRS 26. Gains or losses arising on the fair value of the cash flow hedge during the period are shown in the Statement of Total Recognised Gains and Losses and are accounted for in capital reserves.

(g) Foreign currency

In accordance with FRS 23: 'The effects of changes in Foreign Currency Exchange Rates' the Company is required to nominate a functional currency, being the currency in which the Company predominantly operates. The Board, having regard to the currency of the Company's share capital and the predominant currency in which its shareholders operate, has determined the functional currency to be sterling. Sterling is also the currency in which the accounts are presented.

Transactions denominated in foreign currencies are converted to sterling at actual exchange rates at the date of the transaction. Monetary assets, liabilities and equity investments held at fair value, denominated in foreign currencies at the year end are translated at the rates of exchange prevailing at the year end.

Any gain or loss arising on monetary assets from a change in exchange rates subsequent to the date of the transaction is included as an exchange gain or loss in revenue or capital, depending on whether the gain or loss is of a revenue or capital nature. Gains and losses on investments arising from a change in exchange rates are included in the Income Statement within 'Gains or losses on investments held at fair value through profit or loss' and charged or credited to capital reserves.

(h) Taxation

The tax expense represents the sum of tax currently payable and deferred tax. Any tax payable is based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the Income Statement because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Tax relief is allocated to expenses charged to the capital column of the Income Statement on the 'marginal basis'. On this basis, if taxable income is capable of being entirely offset by revenue expenses, then no tax relief is transferred to the capital column.

Investment trusts which have approval under the appropriate tax regulations are not liable for taxation on capital gains.

Deferred taxation is accounted for in accordance with FRS 19: 'Deferred Tax'.

Deferred taxation is provided on all timing differences that have originated but not reversed by the balance sheet date. Deferred taxation liabilities are recognised for all taxable timing differences but deferred taxation assets are only recognised to the extent that it is more likely than not that taxable profits will be available against which those timing differences can be utilised.

(i) Accounting for 'C' shares

The 'C' shares are classified as a liability of the Company; the income, expenses and capital gains or losses generated by the 'C' share pool of assets during the period they are in existence, are included in the Income Statement in their respective categories and the total is charged or credited back within finance costs in the capital column of the Income Statement. The issue costs of the 'C' shares are also recognised as a finance cost and charged to the capital column of the Income Statement.

	2011 £'000
3. Gains on investments held at fair value through profit or loss	
Gains on sales of investments held at fair value through profit or loss	6,503

5. Management and performance fees			
Management fee	398	928	1,326
Performance fee	–	897	897
	398	1,825	2,223

Details of the management fee and performance fee are given in the Directors' Report on pages 16 and 17.

	2011 £'000
6. Other administrative expenses	
Other administration expenses	269
Directors' fees	57
Savings scheme costs[1]	37
Auditors' remuneration for audit services[2]	35
	398

[1]These amounts are payable to the Manager for the marketing and administration of savings scheme products.

[2]In addition to the above, fees amounting to £56,000 including VAT were payable to the auditors for services in connection with the initial public offering, subsequent issues of shares and the audit of the initial interim accounts. Those fees payable in connection with the issue of Ordinary shares have been included in share issue costs and charged to share premium and those payable in connection with the issue of 'C' shares have been included in finance costs. Fees payable for the audit of the initial interim accounts have been included in other administration expenses.

Expenses of 'C' share issue	–	349	349
	102	149	251

8. Taxation

(a) Analysis of tax charge in the period

	2011 Revenue £'000	2011 Capital £'000	2011 Total £'000
UK corporation tax at 27.34%	–	–	–
Overseas withholding tax	706	–	706
Current tax charge for the period	706	–	706

(b) Factors affecting current tax charge for the period

The tax charge for the period is lower than the Company's applicable rate of corporation tax of 27.34%. The difference is explained below:

	2011 Revenue £'000	2011 Capital £'000	2011 Total £'000
Net return on ordinary activities before taxation	7,569	12,046	19,615
Net return on ordinary activities before taxation multiplied by the applicable rate of corporation tax of 27.34%	2,069	3,294	5,363
Effects of:			
Non taxable capital gains	–	(3,833)	(3,833)
Non taxable overseas dividends	(2,096)	–	(2,096)
Non taxable scrip dividends	(7)	–	(7)
Income taxed in different periods	(51)	–	(51)
Expenses not deductible for tax purposes	–	(24)	(24)
Overseas withholding tax	706	–	706
Unutilised expenses carried forward to future periods	85	563	648
Current tax charge for the period	706	–	706

(c) Deferred taxation

The Company has an unrecognised deferred tax asset of £616,000 based on a prospective corporation tax rate of 26%. The reduction in the standard rate of corporation tax was substantively enacted on 29th March 2011 and is effective from 1st April 2011. The Government has also indicated that it intends to enact future reductions in the main rate of corporation tax of 1% each year down to 23% by 1st April 2014. The deferred tax asset has arisen due to the excess of deductible expenses over taxable income. Given the composition of the Company's portfolio, it is not likely that this asset will be utilised in the foreseeable future and therefore no asset has been recognised in the accounts.

Given the Company's intention to apply for status as an investment trust company, no deferred tax has been provided on any capital gains or losses arising on the revaluation or disposal of investments.

Notes to the Accounts continued

9. Dividends

(a) Dividends paid and proposed

	2011 £'000
1st interim dividend paid of 1.00p	1,164
2nd interim dividend paid of 2.25p	2,634
Total dividends paid in the period	3,798
Final dividend proposed of 1.45p	2,069

(b) Dividends for the purposes of Section 1158 of the Corporation Tax Act 2010 ('Section 1158')

The requirements of Section 1158 are considered on the basis of dividends paid and proposed in respect of the financial year, as follows:

	2011 £'000
First interim dividend paid of 1.00p	1,164
Second interim dividend paid of 2.25p	2,634
Final dividend proposed of 1.45p	2,069
Total dividends for Section 1158 purposes	5,867

The revenue available for distribution by way of dividend is £6,863,000.

10. Return per share

Return per share is based on the following:

	2011 £'000
Revenue return	6,863
Capital return	12,046
Total return	18,909
Weighted average number of Ordinary shares in issue during the period	119,152,531
Revenue return per share	5.76p
Capital return per share	10.11p
Total return per share	15.87p

	2011 £'000
11. Investments

Total investments	169,806
Opening valuation	–
Movements in the period:	
Purchases at cost	223,316
Sales - proceeds	(67,342)
Gains on sales	6,503
Net movement in investment holding gains and losses	7,329
	169,806
Closing book cost	162,477
Closing investment holding gains	7,329
Total investments held at fair value	169,806

Transaction costs on purchases during the period amounted to £353,000 and on sales during the period amounted to £88,000. These costs comprise mainly brokerage commission.

	2011 £'000
12. Current assets	
Debtors	
Dividends and interest receivable	1,094
Overseas tax recoverable	4
Other debtors	137
	1,235

The carrying amount of debtors approximates to their fair value.

Cash and short term deposits
Cash and short term deposits comprises bank balances and short term deposits. The carrying amount of these represents their fair value. Cash balances in excess of a predetermined amount are placed on short term deposit at market rates of interest.

Notes to the Accounts continued

	2011 £'000
13. Creditors: amounts falling due within one year	
Securities purchased awaiting settlement	24
Performance fee	897
Other creditors and accruals	166
	1,087

The carrying amount of creditors falling due within one year approximates to their fair value.

	2011 £'000
14. Financial liability: derivative financial instrument	
Interest rate swap contract held at fair value through profit or loss	121

	2011 £'000
15. Creditors: amounts falling due after more than one year	
Bank loan – US Dollar 20 million floating rate loan with ING Bank	12,170

The loan is secured by a floating charge over all the assets of the Company.

The interest rate payable on the loan has been fixed via a swap contract. Further details are given in note 24a(ii).

The carrying amount of the bank loan approximates to its fair value.

	2011 £'000
16. Called up share capital	
Management shares	
Allotment of 50,000 Management shares of £1 each to the Manager (one quarter paid)	**13**
Repurchase and cancellation of 50,000 Management shares	**(13)**
	–
Ordinary shares – allotted and fully paid	
Opening balance	**–**
Allotment of 200 Ordinary shares of 1p each to the Manager	**–**
Issue of 103,999,800 Ordinary shares of 1p each following the Placing and Offer for Subscription	**1,040**
Issue of 15,625,000 Ordinary shares	**156**
Issue of 23,030,853 Ordinary shares on conversion of 'C' shares	**230**
Closing balance represented by 142,655,853 Ordinary shares of 1p each	**1,426**

Share capital transactions

On incorporation, two ordinary shares were issued, nil paid, for the purposes of incorporation, to the subscribers to the Company's Memorandum of Association. These shares were subsequently subdivided into 200 Ordinary shares of 1p each and transferred to the Manager on 17th June 2010.

On 17th June 2010, 50,000 Management shares of £1 each were allotted to the Manager, one quarter paid, to enable the Company to obtain a certificate to commence business. These Management shares were subsequently repurchased and cancelled in July 2010 for consideration of £13,000.

On 29th July 2010, 103,999,800 Ordinary shares of 1p each were issued following a Placing and Offer for Subscription, for gross proceeds of £104,000,000. A further 15,625,000 Ordinary shares were issued during the period at a premuim to NAV, to satisfy market demand, for gross proceeds of £17,293,000.

On 19th April 2011, 26,402,325 'C' shares of 10p each were issued following a Placing and Offer for Subscription, for gross proceeds of £26,402,000. On admission, the 'C' shareholders held rights over a separate portfolio attributable to the 'C' shares and this portfolio was invested in accordance with the Company's investment policy. On the Calculation Date the 'C' shares were to be converted into Ordinary shares and each 'C' shareholder was to receive such number of Ordinary shares equal to the number of 'C' shares held, multiplied by the net asset value per 'C' share and divided by the net asset value per Ordinary share.

On 18th May 2011, the 26,402,325 'C' shares converted into 23,030,853 Ordinary shares.

The Ordinary shares carry the right to receive all dividends declared by the Company, are entitled to all the surplus assets of the Company on a winding up and hold all rights to vote in General Meetings of shareholders.

21. Transactions with the Manager and affiliates of the Manager

The management fee payable to JPMorgan Asset Management (UK) Limited ('JPMAM') for the period was £1,326,000 of which £nil was outstanding at the period end.

Expenses amounting to £37,000 were payable to JPMAM for the marketing and administration of savings scheme products during the period, of which £nil was outstanding at the period end.

Handling charges on dealing transactions amounting to £22,000 were payable to JPMorgan Chase during the period, of which £7,000 was outstanding at the period end.

Based on the performance over the period, the Manager has earned a performance fee of £897,000 under the terms of the Management Agreement and the whole of this amount is outstanding at the period end.

Included in other administration expenses in note 6 are safe custody fees amounting to £121,000 payable to JPMorgan Investor Services Limited, of which £24,000 was outstanding at the period end.

JPMAM may carry out some of its dealing transactions through group subsidiaries. These transactions are carried out at arm's length. The commission payable to JPMorgan Securities Limited for the period was £37,000 of which £nil was outstanding at the period end.

At the period end, a bank balance of £2,117,000 was held with JPMorgan Chase. A net amount of interest of £8,000 was receivable by the Company during the period from JPMorgan Chase, of which £nil was outstanding at the period end.

Notes to the Accounts continued

22. Disclosures regarding financial instruments measured at fair value

The Company's financial instruments that are held at fair value comprise its investment portfolio and a derivative financial instrument, comprising an interest rate swap contract.

The investments are categorised into a hierarchy consisting of the following three levels:

Level 1 – valued using quoted prices in active markets;

Level 2 – valued by reference to valuation techniques using observable inputs other than quoted market prices included within Level 1; and

Level 3 – valued by reference to valuation techniques using inputs that are not based on observable market data.

Categorisation within the hierarchy has been determined on the basis of the lowest level input that is significant to the fair value measurement of the relevant asset.

Details of the valuation techniques used by the Company are given in note 2(b).

The following table sets out the fair value measurements using the FRS 29 hierarchy at 31st July 2011:

	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Financial assets held at fair value through profit or loss				
Listed investments and participation notes	169,227	–	–	169,227
Liquidity fund	579	–	–	579
Derivative financial instruments – interest rate swap contract	–	(121)	–	(121)
Total	169,806	(121)	–	169,685

There have been no transfers between Level 1, 2 or 3 during the period.

23. Financial instruments' exposure to risk and risk management policies

As an investment trust, the Company invests in equities and other securities for the long term so as to secure its investment objective stated on the 'Features' page. In pursuing this objective, the Company is exposed to a variety of risks that could result in a reduction in the Company's net assets or a reduction in the profits available for dividends. These risks include market risk (comprising currency risk, interest rate risk and other price risk), liquidity risk and credit risk. The Directors' policy for managing these risks is set out below. The Company Secretary, in close cooperation with the Board and the Manager, coordinates the Company's risk management strategy.

The Company's financial instruments may comprise the following:

- investments in equity shares and participation notes of overseas companies and a US Dollar liquidity fund which are held in accordance with the Company's investment objective;
- short term debtors, creditors and cash arising directly from its operations; and
- a floating rate loan with ING Bank and an interest rate swap contract for the purpose of fixing the interest rate payable on that loan.

(a) Market risk

The fair value or future cash flows of a financial instrument held by the Company may fluctuate because of changes in market prices. This market risk comprises three elements – currency risk, interest rate risk and other price risk. Information to enable an evaluation of the nature and extent of these three elements of market risk is given in parts (i) to (iii) of this note, together with sensitivity analyses where appropriate. The Board reviews and agrees policies for managing these risks. The Manager assesses the exposure to market risk when making each investment decision and monitors the overall level of market risk on the whole of the investment portfolio on an ongoing basis.

(i) Currency risk

Certain of the Company's assets, liabilities and income are denominated in currencies other than sterling (the Company's functional currency and the currency in which it reports). As a result, movements in exchange rates may affect the sterling value of those items.

Management of currency risk

The Manager monitors the Company's exposure to foreign currencies on a daily basis and reports to the Board, which meets on at least four occasions each year. The Manager measures the risk to the Company of the foreign currency exposure by considering the effect on the Company's net asset value and income of a movement in the rates of exchange to which the Company's assets, liabilities, income and expenses are exposed. Foreign currency borrowing may be used to limit the Company's exposure to anticipated changes in exchange rates which might otherwise adversely affect the value of the portfolio of investments. This borrowing would be limited to currencies and amounts commensurate with the asset exposure to those currencies. Income denominated in foreign currencies is converted to US dollars on receipt. The Company may use short term forward currency contracts to manage working capital requirements. It is currently not the Company's policy to hedge against foreign currency exchange risk.

23. Financial instruments' exposure to risk and risk management policies continued

(a) Market risk continued

(i) Currency risk continued

Foreign currency exposure

The fair value of the Company's monetary items that have foreign currency exposure at 31st July 2011 are shown below. Where the Company's equity investments (which are not monetary items) are priced in a foreign currency, they have been included separately in the analysis so as to show the overall level of exposure.

	2011 Hong Kong Dollar £'000	US Dollar £'000	Taiwan Dollar £'000	South African Rand £'000	Brazilian Real £'000	Other £'000	Total £'000
Investments held at fair value through profit or loss that are monetary items	–	579	–	–	–	–	579
Current assets	–	438	837	–	1,673	136	3,084
Creditors	–	(12,291)	–	–	–	–	(12,291)
Foreign currency exposure on net monetary items	–	(11,274)	837	–	1,673	136	(8,628)
Investments held at fair value through profit or loss that are equities	29,424	23,547	19,935	18,777	14,441	63,103	169,227
Total net foreign currency exposure	29,424	12,273	20,772	18,777	16,114	63,239	160,599

Foreign currency sensitivity

The following tables illustrate the sensitivity of the return after taxation for the year and net assets with regard to the Company's monetary financial assets and financial liabilities and exchange rates. The sensitivity analysis is based on the Company's monetary financial instruments (excluding fixed asset investments) held at the balance sheet date and the income receivable in foreign currency, and assumes a 10% appreciation or depreciation in sterling against the Hong Kong Dollar, US Dollar, Taiwan Dollar, South African Rand, Brazilian Real, and the other currencies to which the Company is exposed, which is considered to be a reasonable illustration based on the volatility of exchange rates during the period.

If sterling had weakened by 10% this would have had the following effect:

	2011 £'000
Income statement return after taxation	
Revenue return	844
Capital return	(863)
Total return after taxation for the period	(19)
Net assets	(19)

Conversely if sterling had strengthened by 10% this would have had the following effect:

	2011 £'000
Income statement return after taxation	
Revenue return	(844)
Capital return	863
Total return after taxation for the period	19
Net assets	19

In the opinion of the Directors, the above sensitivity analysis may not be representative of the Company's future exposure to foreign currency risk.

(ii) Interest rate risk

Interest rate movements may affect the level of income receivable on cash deposits and the liquidity fund. The Company has no exposure to fair value interest rate risk.

Management of interest rate risk

The Company will not normally hold significant cash balances. There is an overdraft facility available from JPMorgan Chase, if required, bearing interest at the applicable rate and on the terms on which JPMorgan Chase makes similar overdrafts available.

During the period, the Company arranged a secured US dollar 20 million 3 year floating rate loan with ING Bank, repayable in November 2013. Interest is payable at a rate of US dollar LIBOR plus a margin of 2.15% per annum. The Company has also entered a swap agreement with ING Bank, the net effect of which is to fix the interest rate payable on the loan at 3.34% per annum for the whole 3 year term of the loan. Thus there is no interest rate risk arising from the loan due to interest rate fluctuations.

Interest rate exposure

The exposure of financial assets and liabilities to floating interest rates, giving cash flow interest rate risk when rates are re-set, is shown below.

	2011 £'000
Exposure to floating interest rates:	
Cash and short term deposits	2,117
JPMorgan US Dollar Liquidity Fund	579
Total exposure	2,696

Interest receivable on cash balances is at a margin below LIBOR.

The target interest earned on the JPMorgan US Dollar Liquidity Fund is the 7 day US Dollar London Interbank Bid Rate.

The exposure to floating interest rates has fluctuated during the period between net cash and net loan balances as follows:

	2011 £'000
Maximum credit interest rate exposure to floating rates – net cash balance	102,591
Maximum debit interest rate exposure – net loan balance	(15,306)

Notes to the Accounts continued

23. Financial instruments' exposure to risk and risk management policies continued

(a) Market risk continued

(ii) Interest rate risk continued

Interest rate sensitivity

The following table illustrates the sensitivity of the revenue after taxation for the year and net assets to a 1% increase in interest rates in regards to the Company's monetary financial assets and financial liabilities. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's monetary financial instruments held at the balance sheet date, with all other variables held constant.

	2011 1% Increase in rate £'000
Income statement – return after taxation	
Revenue return	27
Capital return	–
Total return after taxation for the period	27
Net assets	27

In the opinion of the Directors, the above sensitivity analysis may not be representative of the Company's future exposure to interest rate changes due to fluctuations in the level of cash balances and investment in the liquidity fund.

In the event of a 1% decrease in interest rates, the interest receivable on cash deposit balances and the liquidity fund would fall to zero, as the interest earned on those balances is currently less than 1%.

(iii) Other price risk

Other price risk includes changes in market prices, other than those arising from interest rate risk or currency risk, which may affect the value of investments.

Management of other price risk

The Board will meet on at least four occasions each year to consider the asset allocation of the portfolio and the risk associated with particular industry sectors. The investment management team has responsibility for monitoring the portfolio, which is selected in accordance with the Company's investment objective and seeks to ensure that individual stocks meet an acceptable risk/reward profile.

Other price risk exposure

The Company's exposure to changes in market prices at 31st July 2011 comprises its holdings in equity investments as follows:

	2011 £'000
Equity investments held at fair value through profit or loss	169,227

The above data is broadly representative of the exposure to other price risk during the period.

Concentration of exposure to other price risk
The value of the investment portfolio is in a broad spread of countries with no particular concentration of exposure to any one country. It should also be noted that an investment may not be wholly exposed to the economic conditions in its country of domicile or of listing.

Other price risk sensitivity
The following table illustrates the sensitivity of the return after taxation for the period and net assets to an increase or decrease of 10% in the fair value of the Company's equities. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's equities and adjusting for change in the management fee, but with all other variables held constant.

	2011 10% Increase in fair value £'000	2011 10% Decrease in fair value £'000
Income statement – return after taxation		
Revenue return	(51)	51
Capital return	16,804	(16,804)
Total return after taxation for the period and net assets	16,753	(16,753)

In the opinion of the Directors, the above sensitivity analysis may not be representative of the Company's future exposure to other price risk.

(b) Liquidity risk
This is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management of the risk
Liquidity risk is not significant as the Company's assets comprise readily realisable securities, which can be sold to meet funding requirements if necessary. Short term flexibility is achieved through the use of overdraft facilities. The Company has entered into a swap contract, the net effect of which is to fix the interest rate payable on the bank loan. Thus there is no interest rate risk arising from the loan due to interest rate fluctuations.

Liquidity risk exposure
Contractual maturities of the financial liabilities at the period end, based on the earliest date on which payment can be required by the lender are as follows:

	2011 Three months or less £'000	2011 More than three months but less than one year £'000	2011 One year or more £'000	2011 Total £'000
Creditors: amounts falling due within one year				
Performance fee	897	–	–	897
Other creditors and accruals	190	–	–	190
Financial liability: derivative financial instrument-interest rate swap contract held at fair value through profit or loss	–	–	121	121
Creditors: amounts falling due after more than one year				
Bank loan	102	305	12,698	13,105
	1,189	305	12,819	14,313

23. Financial instruments' exposure to risk and risk management policies continued

(c) Credit risk

Credit risk is the risk that the counterparty to a transaction fails to discharge its obligations under that transaction which could result in loss to the Company.

Management of credit risk

Portfolio dealing

The Company invests in markets that operate DVP (Delivery Versus Payment) settlement. The process of DVP mitigates the risk of losing the principal of a trade during the settlement process. The Manager continuously monitors dealing activity to ensure best execution, a process that involves measuring various indicators including the quality of trade settlement and the incidence of failed trades. Counterparty lists are maintained and adjusted accordingly.

Cash

Counterparties are subject to daily credit analysis by the Manager and trades can only be placed with counterparties that have a minimum rating of A1/P1 from Standard & Poor's and Moody's respectively.

Exposure to JPMorgan Chase

JPMorgan Chase is the custodian of the Company's assets. The custody agreement grants a general lien over the securities credited to the securities account. The Company's assets are segregated from JPMorgan Chase's own trading assets. Therefore these assets are designed to be protected from creditors in the event that JPMorgan Chase were to cease trading. However, no absolute guarantee can be given to investors on the protection of all the assets of the Company.

Credit risk exposure

The amounts shown in the balance sheet under debtors and cash and short term deposits represent the maximum exposure to credit risk at the period end.

(d) Fair values of financial assets and financial liabilities

All financial assets and liabilities are either included in the balance sheet at fair value or the carrying amount in the balance sheet is a reasonable approximation of fair value.

24. Capital management policies and procedures

The Company's capital management objectives are to ensure that it will continue as a going concern and to provide investors with a dividend income combined with the potential for long term capital growth.

The Company's debt and capital structure comprises the following:

	2011 £'000
Debt	
US Dollar 20 million floating rate loan	12,170
Equity	
Equity share capital	1,426
Reserves	158,354
Total equity	159,780

The Board's policy is to employ gearing when the Manager believes it appropriate to do so. It is the Board's policy to utilise gearing up to a maximum of 120% at the time of drawdown. Gearing for this purpose is defined as investments expressed as a percentage of net assets.

	2011 £'000
Investments	169,227
Net assets	159,780
Gearing	105.9%

The Board, with the assistance of the Manager, monitors and reviews the broad structure of the Company's capital on an ongoing basis. This review includes:

- the planned level of gearing, which takes into account the Manager's views on the market;
- the need to buy back equity shares, either for cancellation or to hold in Treasury, which takes into account the share price discount or premium; and
- the need for issues of new shares.

Notice of Meeting

Notice is hereby given that the first Annual General Meeting of JPMorgan Global Emerging Markets Income Trust plc will be held at The Armourers' Hall, 81 Coleman Street, London EC2R 5BJ on Thursday, 10th November 2011 at 10.00 a.m. for the following purposes:

1. To receive the Directors' Report & Accounts and the Auditor's Report for the period ended 31st July 2011.
2. To approve the Directors' Remuneration Report for the period ended 31st July 2011.
3. To approve a final divided of 1.45p per Ordinary share.
4. To reappoint Andrew Hutton as a Director of the Company.
5. To reappoint Sarah Fromson as a Director of the Company.
6. To reappoint Paul Wallace as a Director of the Company.
7. To reappoint Ernst & Young LLP as auditor of the Company and to authorise the Directors to determine their remuneration.

Special Business

To consider the following resolutions:

Authority to repurchase the Company's shares

8. THAT the Company be generally and subject as hereinafter appears unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the 'Act') to make market purchases (within the meaning of Section 693 of the Act) of its issued Shares of 25p each in the capital of the Company.

   PROVIDED ALWAYS THAT

   (i) the maximum number of ordinary shares hereby authorised to be purchased shall be 22,021,187 or, if less, that number of shares which is equal to 14.99% of the Company's ordinary issued share capital as at the date of the passing of this resolution;

   (ii) the minimum price which may be paid for an ordinary share shall be 1p;

   (iii) the maximum price which may be paid for a Share shall be an amount equal to the highest of: (a) 105% of the average of the middle market quotations for an ordinary share taken from and calculated by reference to the London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the Share is purchased; or (b) the price of the last independent trade; or (c) the highest current independent bid;

   (iv) any purchase of ordinary shares will be made in the market for cash at prices below the prevailing net asset value per ordinary share (as determined by the Directors);

   (v) the authority hereby conferred shall expire on 9th May 2013 unless the authority is renewed at the Company's Annual General Meeting in 2012 or at any other general meeting prior to such time; and

   (vi) the Company may make a contract to purchase Shares under the authority hereby conferred prior to the expiry of such authority and may make a purchase of ordinary shares pursuant to any such contract notwithstanding such expiry.

Authority to allot new shares – Ordinary Resolution

9. THAT the Directors of the Company be and they are hereby generally and unconditionally authorised, (in substitution of any authorities previously granted to the Directors), pursuant to and in accordance with Section 551 of the Act to exercise all the powers of the Company to allot shares in the Company and to grant rights to subscribe for, or to convert any security into, shares in the Company ('Rights') up to an aggregate nominal amount of £1,469,058, or, if different, up to an aggregate nominal amount as shall be equal to 20% of the nominal value of the issued share capital of the Company as at 9th November 2011 (being the day immediately preceding the date of the Annual General Meeting), provided that this authority shall expire at the conclusion of the Annual General Meeting of the Company to be held in 2012 unless renewed at a general meeting prior to such time, save that the Company may before such expiry make offers or agreements which would or might require shares to be allotted or Rights to be granted after such expiry and so that the Directors of the Company may allot shares and grant Rights in pursuance of such offers or agreements as if the authority conferred hereby had not expired.

Authority to disapply pre-emption rights on allotment of relevant securities – Special Resolution

10. THAT subject to the passing of Resolution 9 set out above, the Directors of the Company be and they are hereby empowered pursuant to Sections 570 to 573 of the Act to allot equity securities (within the meaning of Section 560 of the Act) for cash pursuant to the authority conferred by Resolution 9 or by way of a sale of Treasury shares as if Section 561(1) of the Act did not apply to any such allotment, provided that this power shall be limited to the allotment of equity securities for cash up to an aggregate nominal amount of £1,469,058 or, if different, up to an aggregate nominal amount as shall be equal to 20% of the nominal value of the issued share capital of the Company as at 9th November 2011 (being the day immediately preceding the date of the Annual General Meeting), at a price being not less than the prevailing net asset value per share at the date of allotment and shall expire at the conclusion of the Annual General Meeting of the Company to be held in 2012 unless renewed at a general meeting prior to such time, save that the Company may before such expiry make offers or agreements which would or might require equity securities to be allotted after such expiry and so that the Directors of the Company may allot equity securities in pursuant of such offers or agreements as if the power conferred hereby had not expired.

By order of the Board
Jonathan Latter, for and on behalf of
JPMorgan Asset Management (UK) Limited,
Secretary
11th October 2011

Notes

These notes should be read in conjunction with the notes on the reverse of the proxy form.

1. A member entitled to attend and vote at the Meeting may appoint another person(s) (who need not be a member of the Company) to exercise all or any of his rights to attend, speak and vote at the Meeting. A member can appoint more than one proxy in relation to the Meeting, provided that each proxy is appointed to exercise the rights attaching to different shares held by him.
2. A proxy does not need to be a member of the Company but must attend the Meeting to represent you. Your proxy could be the Chairman, another director of the Company or another person who has agreed to attend to represent you. Details of how to appoint the Chairman or another person(s) as your proxy or proxies using the proxy form are set out in the notes to the proxy form. If a voting box on the proxy form is left blank, the proxy or proxies will exercise his/their discretion both as to how to vote and whether he/they abstain(s) from voting. Your proxy must attend the Meeting for your vote to count. Appointing a proxy or proxies does not preclude you from attending the Meeting and voting in person. If you attend the Meeting in person, your proxy appointment will automatically be terminated.
3. Any instrument appointing a proxy, to be valid, must be lodged in accordance with the instructions given on the proxy form.
4. You may change your proxy instructions by returning a new proxy appointment. The deadline for receipt of proxy appointments (see above) also applies in relation to amended instructions. Any attempt to terminate or amend a proxy appointment received after the relevant deadline will be disregarded. Where two or more valid separate appointments of proxy are received in respect of the same share in respect of the same Meeting, the one which is last sent shall be treated as replacing and revoking the other or others.
5. To be entitled to attend and vote at the Meeting (and for the purpose of the determination by the Company of the number of votes they may cast), members must be entered on the Company's register of members as at 6.00 p.m. two business days prior to the Meeting (the 'specified time'). If the Meeting is adjourned to a time not more than 48 hours after the specified time applicable to the original Meeting, that time will also apply for the purpose of determining the entitlement of members to attend and vote (and for the purpose of determining the number of votes they may cast) at the adjourned Meeting. If however the Meeting is adjourned for a longer period then, to be so entitled, members must be entered on the Company's register of members as at 6.00 p.m. two business days prior to the adjourned Meeting or, if the Company gives notice of the adjourned Meeting, at the time specified in that notice.
6. Entry to the Meeting will be restricted to shareholders, with guests admitted only by prior arrangement.

Notice of Meeting continued

7. A corporation, which is a shareholder, may appoint an individual(s) to act as its representative(s) and to vote in person at the Meeting (see instructions given on the proxy form). In accordance with the provisions of the Companies Act 2006 (as amended by the Shareholder Rights Directive 2009, each such representative(s) may exercise the same powers as the corporation could exercise if it were an individual member of the Company, provided that they do not do so in relation to the same shares. It is therefore no longer necessary to nominate a designated corporate representative.

   Representatives should bring to the meeting evidence of their appointment, including any authority under which it is signed.
8. Members that satisfy the thresholds in Section 527 of the Companies Act 2006 can require the Company to publish a statement on its website setting out any matter relating to: (a) the audit of the company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (b) any circumstances connected with an auditor of the company ceasing to hold office since the previous AGM; which the members propose to raise at the meeting. The Company cannot require the members requesting the publication to pay its expenses. Any statement placed on the website must also be sent to the Company's Auditors no later than the time it makes its statement available on the website.
9. Pursuant to Section 319A of the Companies Act 2006, the Company must cause to be answered at the AGM any question relating to the business being dealt with at the AGM which is put by a member attending the meeting; no answer need be given if it is undesirable in the interests of the Company or the good order of the meeting.
10. Under Sections 338 and 338A of the 2006 Act, members meeting the threshold requirements in those sections have the right to require the Company: (i) to give, to members of the Company entitled to receive notice of the Meeting, notice of a resolution which those members intend to move (and which may properly be moved) at the Meeting; and/or (ii) to include in the business to be dealt with at the Meeting any matter (other than a proposed resolution) which may properly be included in the business at the Meeting. A resolution may properly be moved, or a matter properly included in the business unless: (a) (in the case of a resolution only) it would, if passed, be ineffective (whether by reason of any inconsistency with any enactment or the Company's constitution or otherwise); (b) it is defamatory of any person; or (c) it is frivolous or vexatious. A request made pursuant to this right may be in hard copy or electronic form, must identify the resolution of which notice is to be given or the matter to be included in the business, must be accompanied by a statement setting out the grounds for the request, must be authenticated by the person(s) making it and must be received by the Company not later than the date that is six clear weeks before the Meeting, and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.
11. A copy of this notice has been sent for information only to persons who have been nominated by a member to enjoy information rights under Section 146 of the Companies Act 2006 (a 'Nominated Person'). The rights to appoint a proxy can not be exercised by a Nominated Person: they can only be exercised by the member. However, a Nominated Person may have a right under an agreement between him and the member by whom he was nominated to be appointed as a proxy for the Meeting or to have someone else so appointed. If a Nominated Person does not have such a right or does not wish to exercise it, he may have a right under such an agreement to give instructions to the member as to the exercise of voting rights.
12. In accordance with Section 311A of the Companies Act 2006, the contents of this notice of meeting, details of the total number of shares in respect of which members are entitled to exercise voting rights at the AGM, the total voting rights members are entitled to exercise at the AGM and, if applicable, any members' statements, members' resolutions or members' matters of business received by the Company after the date of this notice will be available on the Company's website www.jpmoverseas.co.uk
13. The register of interests of the Directors and connected persons in the share capital of the Company is available for inspection at the Company's registered office during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted). It will also be available for inspection at the Annual General Meeting.
14. You may not use any electronic address provided in this Notice of Meeting to communicate with the Company for any purposes other than those expressly stated.
15. As an alternative to completing a hard copy Form of Proxy/Voting Direction Form, you can appoint a proxy or proxies electronically by visiting www.sharevote.co.uk. You will need your Voting ID, Task ID and Shareholder Reference Number (this is the series of numbers printed under your name on the Form of Proxy/Voting Direction Form). Alternatively, if you have already registered with Equiniti Limited's online portfolio service, Shareview, you can submit your Form of Proxy at www.shareview.co.uk. Full instructions are given on both websites.
16. As at 10th October 2011 (being the latest business day prior to the publication of this Notice), the Company's issued share capital consists of 146,905,853 ordinary share of 1 pence each, carrying one vote each. Therefore the total voting rights in the Company are 146,905,853.

Electronic appointment – CREST members

CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so for the Meeting and any adjournment(s) thereof by using the procedures described in the CREST Manual. See further instructions on the proxy form.

Glossary of Terms and Definitions

Return to shareholders

Total return to the investor, on a mid-market price to mid-market price basis, assuming that all dividends received were reinvested, without transaction costs, in the shares of the Company at the time the shares were quoted ex-dividend. In this first reporting period, the return to shareholders has been calculated using the opening mid-market price (103.5p) on the first day of trading, 29th July 2010.

Return on net assets

Total return on net asset value ('NAV') per share, on a bid value to bid value basis, assuming that all dividends paid out by the Company were reinvested into the shares of the Company at the NAV per share at the time the shares were quoted ex-dividend.

In accordance with industry practice, dividends payable which have been declared but which are unpaid at the balance sheet date are deducted from the NAV per share when calculating the total return on net assets.

Benchmark

Total return on the benchmark, on a mid-market value to mid-market value basis, assuming that all dividends received were reinvested, without transaction costs, into the shares of the underlying companies at the time the shares were quoted ex-dividend.

The benchmark is a recognised index of stocks which should not be taken as wholly representative of the Company's investment universe. The Company's investment strategy does not follow or 'track' this index and consequently, there may be some divergence between the Company's performance and that of the benchmark.

Actual gearing factor

Investments excluding the holding in the liquidity fund, expressed as a percentage of net assets. This shows the effect of gearing on the net asset value per share if the market value of the portfolio were to increase or decrease by 100%.

Total expense ratio

Management fee and all other operating expenses, excluding interest and performance fee payments, expressed as a percentage of the average of the month end net assets during the year.

Share price discount/premium to net asset value ('NAV')

If the share price of an investment trust is lower than the NAV per share, the shares are said to be trading at a discount. The discount is shown as a percentage of the NAV per share. The opposite of a discount is a premium. It is more common for an investment trust's shares to trade at a discount than at premium.

Hong Kong 'H - Shares'

Companies incorporated in mainland China and listed in Hong Kong and on other foreign exchanges.

Performance attribution definitions:

Asset allocation
Measures the impact of allocating assets differently from those in the benchmark, via the portfolio's weighting in different countries, sectors or asset types.

Stock selection
Measures the effect of investing in securities to a greater or lesser extent than their weighting in the benchmark, or of investing in securities which are not included in the benchmark.

Currency effect
Measures the impact of currency exposure differences between the Company's portfolio and its benchmark.

Gearing/cash
Measures the impact on return of borrowings or cash balances on the Company's relative performance.

Management fees/other expenses
The payment of fees and expenses reduces the level of total assets and therefore has a negative effect on relative performance.

Performance fee
Measures the effect of a performance fee charge or writeback.

Share issues
Measures the positive effect on relative performance of issuing shares at a premium to net asset value per share.
