Ratings and Awards

The Morningstar Medalist Rating™ is a summary expression of Morningstar's forward-looking analysis of investment strategies using a rating scale of Gold, Silver, Bronze, Neutral and Negative. Medalist Ratings indicate which investments Morningstar believes are likely to outperform a relevant index or peer group average on a risk-adjusted basis over time. Products are evaluated on three key pillars (People, Parent, and Process) which, when coupled with fees, forms the basis for Morningstar's conviction in those products' investment merits and determines the Medalist Rating assigned. Products are sorted by expected performance into rating groups defined by their Morningstar Category and their active or passive status. Analyst-covered products are assigned the three pillar ratings based on the analyst's qualitative assessment, subject to the Analyst Rating Committee's oversight, monitored and reevaluated at least every 14 months. Ratings are assigned monthly for vehicles covered either indirectly by analysts or by algorithm. For more detailed information including methodology, please go to global.morningstar.com/managerdisclosures.
