- F1** Fund: at NAV
- F2** Fund: Market price returns
- B** Benchmark: MSCI Emerging Markets Index (net total return)

#### Growth of \$10,000

Since inception with dividends and capital gains reinvested. There is no direct correlation between a hypothetical investment and the anticipated performance of the Fund.

#### Calendar Year Performance (%)

#### Yield (%)

	As of 8/31/24	As of 6/30/24
30-day SEC yield	2.23	2.12
30-day SEC yield (unsubsidized)	2.23	2.12
12-month rolling dividend yield†	3.03	3.03

#### Return (%)

		Total Return at 8/31/24					Annualized Returns at 6/30/24			
		1mo	3mos	YTD	1yr	Launch <sup>^</sup>	1yr	3yrs	5yrs	Launch <sup>^</sup>
<b>F1</b>	at NAV	1.02	5.01	7.36	11.76	-3.98	8.70	-6.89	-	-4.53
<b>F2</b>	Market price returns	0.73	4.38	6.59	11.49	-4.09	7.99	-7.10	-	-4.64
<b>B</b>	Benchmark	1.61	5.94	9.55	15.07	-2.64	12.55	-5.07	-	-3.33

#### Performance Disclosures

The performance quoted is past performance and is not a guarantee of future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than original cost. Current performance may be higher or lower than the performance data shown. For performance current to the most recent month-end please call 1-844-4JPM-ETF.

Total Returns based on NAV and Market Price do not reflect brokerage commissions or sales charges in connection with the purchase or sale of Fund shares, which if included would lower the performance shown above. The NAV used in the Total Return calculation assumes all management fees and operating expenses incurred by the Fund.

Currently, the yield is unaffected by a fee waiver.

†The 12-Month Rolling Dividend Yield represents the sum of the dividend yield (non-annualized) for the 12 most recent regularly declared income dividends as well as any special income distributions in the intervening period. Dividend yield (non-annualized) is calculated by dividing the dividend per share by the net asset value per share as of the relevant ex-dividend date.

<sup>^</sup>Fund performance inception: 3/10/2021

A fund's NAV is the sum of all its assets less any liabilities, divided by the number of shares outstanding.

Must be preceded or accompanied by a prospectus.

This document is a general communication being provided for informational purposes only. It is educational in nature and not designed to be a recommendation for any specific investment product, strategy, plan feature or other purpose. Any examples used are generic, hypothetical and for illustration purposes only. Prior to making any investment or financial decisions, an investor should seek individualized advice from personal financial, legal, tax and other professionals that take into account all of the particular facts and circumstances of an investor's own situation.

Sector and country or region excludes cash.

### Risk Summary

International investing is more risky in emerging markets, which typically have less-established economies than developed regions and may face greater social, economic, regulatory and political uncertainties. Emerging markets typically experience greater illiquidity, price volatility, and difficulty in determining market valuations of securities.

Investments in derivatives may be riskier than other types of investments. They may be more sensitive to changes in economic or market conditions than other types of investments. Derivatives may create leverage, which could lead to greater volatility and losses that significantly exceed the original investment.

### Annual Operating Expenses

The Fund's management agreement provides that the adviser will pay substantially all expenses of the Fund, except for the management fees, payments under the Fund's 12b-1 plan (if any), interest expenses, dividend and interest expenses related to short sales, taxes, acquired fund fees and expenses (other than fees for funds advised by the adviser and/or its affiliates), costs of holding shareholder meetings, and litigation and potential litigation and other extraordinary expenses not incurred in the ordinary course of the Fund's business. The Fund shall be responsible for its non-operating expenses, including brokerage commissions and fees and expenses associated with the Fund's securities lending program, if applicable.

### Indexes

ETFs have fees that reduce their performance; indexes do not. You cannot invest directly in an index.

The MSCI Emerging Markets Index (net total return) is a free float-adjusted market capitalization weighted index that is designed to measure the performance of large- and mid- cap stocks in emerging markets. Net total return figures assume the reinvestment of dividends after deduction of withholding tax, applying the maximum rate to nonresident individual investors who do not benefit from double taxation treaties.

A dedicated function within J.P. Morgan Investment Management Inc. (JPMIM), the adviser of the Fund(s), is the sponsor of each Underlying Index and FTSE International Limited, administrators, calculates and governs each Underlying Index as the Benchmark Administrator. The Prospectus contains a more detailed description of each Underlying Index and its service providers.

JPMIM does not guarantee nor make any representation or warranty, express or implied to the shareholders of a Fund or any member of the public regarding the advisability of investing in a Fund or the ability of any Underlying Index to track performance as intended. JPMIM does not accept any liability for any errors or omissions in these Underlying Indexes or the underlying data for these Underlying Indexes, and no party may rely on any indexes or underlying data contained in this communication. ### Top Holdings

The top 10 holdings listed exclude cash and money markets. Holdings are subject to change. The holdings listed should not be considered recommendations to purchase or sell a particular security. Each individual security is calculated as a percentage of the net assets.

### Ratings and Awards

The Morningstar Medalist Rating™ is a summary expression of Morningstar's forward-looking analysis of investment strategies using a rating scale of Gold, Silver, Bronze, Neutral and Negative. Medalist Ratings indicate which investments Morningstar believes are likely to outperform a relevant index or peer group investment on a risk-adjusted basis over time. Products are evaluated on three key pillars (People, Parent, and Process) which, when coupled with fees, forms the basis for Morningstar's conviction in those products' investment merits and determines the Medalist Rating assigned. Products are sorted by expected performance into rating groups defined by their Morningstar Category and their active or passive status. Analyst-covered products are assigned the three pillar ratings based on the analyst's qualitative assessment, subject to the Analyst Rating Committee's oversight, monitored and reevaluated at least every 14 months. Ratings are assigned monthly for vehicles covered either indirectly by analysts or by algorithm. For more detailed information including methodology, please go to [global.morningstar.com/managerdisclosures](http://global.morningstar.com/managerdisclosures).

Ratings and rankings should not be used as the sole basis in evaluating an investment product and should not be considered an offer or solicitation to buy or sell the investment product.

### Definitions

**30-day SEC Yield:** Represents net investment income earned by a fund over a 30-day period, expressed as an annual percentage rate based on the fund's share price at the end of the 30-day period. The 30-day yield should be regarded as an estimate of investment income and may not equal the fund's actual income distribution rate.

**30-day SEC Yield (unsubsidized):** Unsubsidized yield does not adjust for any fee waivers and/or expense reimbursements.

**P/B ratio** is the relationship between a stock's price and the book value of that stock.

**P/E ratio** is the number by which earnings per share is multiplied to estimate a stock's value.

**Return on equity (ROE)** is the amount of net income returned as a percentage of shareholders equity. Return on equity measures a corporation's profitability by revealing how much profit a company generates with the money shareholders have invested.

**Weighted average market capitalization** is a stock market index weighted by the market capitalization of each stock in the index.
