RISKS ASSOCIATED WITH INVESTING IN THE FUND:

Securities rated below investment grade are considered "high-yield," "non-investment grade," "below investment-grade," or "junk bonds." They generally are rated in the fifth or lower rating categories of Standard & Poor's and Moody's Investors Service. Although they can provide higher yields than higher rated securities, they can carry greater risk.

International investing bears greater risk due to social, economic, regulatory and political instability in countries in "emerging markets." This makes emerging market securities more volatile and less liquid developed market securities. Changes in exchange rates and differences in accounting and taxation policies outside the U.S. can also affect returns.

RETURNS:

¹The quoted performance of the Fund includes performance of a predecessor fund/share class prior to the Fund's commencement of operations. Please refer to the current prospectus for further information.

30-day SEC Yield: Represents net investment income earned by a fund over a 30-day period, expressed as an annual percentage rate based on the fund's share price at the end of the 30-day period. The 30-day yield should be regarded as an estimate of investment income and may not equal the fund's actual income distribution rate.

30-day SEC Yield (unsubsidized): Unsubsidized yield does not adjust for any fee waivers and/or expense reimbursements.

ANNUAL OPERATING EXPENSES:

The Fund's adviser and/or its affiliates have contractually agreed to waive fees and/or reimburse expenses to the extent Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation and extraordinary expenses) exceed 1.000% for A Shares, 0.600% for R5 Shares, 0.500% for R6 Shares, 1.500% for C Shares and 0.750% for I Shares of the average daily net assets. The Fund may invest in one or more money market funds advised by the adviser or its affiliates (affiliated money market funds). The Fund's adviser has contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the fees and expenses of the affiliated money market funds incurred by the Fund because of the Fund's investment in such money market funds. This waiver is in effect through 6/30/2025 for A Shares, 6/30/2025 for R5 Shares, 6/30/2025 for R6 Shares, 6/30/2025 for C Shares and 6/30/2025 for I Shares, at which time the adviser and/or its affiliates will determine whether to renew or revise it. The difference between net and gross fees includes all applicable fee waivers and expense reimbursements.

PORTFOLIO STATISTICS:

Average coupon: A calculation of the total interest cost for a bond issue expressed as a percentage.

Average life: The length of time the principal of a debt issue is expected to be outstanding.

Duration: Measures price sensitivity of fixed income securities to interest rate changes.

Effective Duration: A calculation used to approximate the actual, modified duration of a callable bond. It takes into account the fact that future interest rate changes will affect the expected cash flows for a callable bond.

Effective Maturity: The weighted average of the maturities of the underlying bonds. The measure is computed by weighing each bond's maturity by its market value with respect to the portfolio and the likelihood of any of the bonds being called.

Turnover ratio: High portfolio turnover will likely result in additional tax consequences.

QUALITY DISTRIBUTION:

The manager uses credit quality ratings on underlying securities of the portfolio from five major ratings agencies - S&P, Moody's, Fitch, Kroll and DBRS Morningstar. When calculating the credit quality breakdown, the manager selects the highest rating of the agencies that have provided a securities rating. Securities that are not rated by any of the five agencies are reflected as not rated.

CREDIT RV:

The Credit RV book is a long/short credit book which combines both traditional and derivative credit positions. This book may contain traditional IG, HY and EM cash bonds, in addition to Credit Default Swaps (both CDS and CDX), total return swaps, and other synthetic exposure. The quality breakdown will show overall exposure to various credit qualities across the fund.

HOLDINGS:

The top 10 holdings listed exclude cash and money markets. Holdings are subject to change. The holdings listed should not be considered recommendations to purchase or sell a particular security. Each individual security is calculated as a percentage of the aggregate market value of the securities held in the Fund and does not include the use of derivative positions, where applicable.

MORNINGSTAR AND LIPPER:

The Morningstar RatingTM for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

Rankings do not take sales loads into account.

The ranking information is provided by Lipper Analytical Services. Past performance is no guarantee of future results. Rankings are calculated based upon the total returns of multiple share classes within their respective Lipper category. Different share classes may have different rankings.

INDEXES DEFINED:

Mutual funds have fees that reduce their performance; indexes do not. You cannot invest directly in an index.

The Bloomberg U.S. Universal Index represents the U.S. Aggregate Index, the U.S. High-Yield Corporate Index, the 144A Index, the Eurodollar Index, the Emerging Markets Index, and the non-ERISA portion of the CMBS Index.

Contact JPMorgan Distribution Services, Inc. at 1-800-480-4111 for a fund prospectus. You can also visit us at www.jpmorganfunds.com. Investors should carefully consider the investment objectives and risks as well as charges and expenses of the mutual fund before investing. The prospectus contains this and other information about the mutual fund. Read the prospectus carefully before investing.

Total return figures (for the fund and any index quoted) assume payment of fees and reinvestment of dividends (after the highest applicable foreign withholding tax) and distributions. Without fee waivers, fund returns would have been lower. Due to rounding, some values may not total 100%.

J.P. Morgan Funds are distributed by JPMorgan Distribution Services, Inc., which is an affiliate of JPMorgan Chase & Co. Affiliates of JPMorgan Chase & Co. receive fees for providing various services to the funds. JPMorgan Distribution Services, Inc. is a member of FINRA.

J.P. Morgan Asset Management is the brand name for the asset management business of JPMorgan Chase & Co and its affiliates worldwide.

If you are a person with a disability and need additional support in viewing the material, please call us at 1-800-343-1113 for assistance.
