TARGET DATE FUNDS:

The JPMorgan SmartRetirement Funds are target date funds with the target date being the approximate date when investors plan to retire. Generally, the asset allocation of each Fund will change on an annual basis with the asset allocation becoming more conservative as the Fund nears the target retirement date. The principal value of the Fund(s) is not guaranteed at any time, including at the target date.

GLIDE PATH:

The “glide path” depicted in the Funds’ prospectus shows how the Funds’ strategic target allocations among asset and subasset classes generally become more conservative as the target retirement date approaches (i.e., more emphasis on fixed income and less on equity). The Adviser will review the Funds’ strategic target allocations shown in the glide path at least annually (generally, in the first quarter of each calendar year), and may adjust the targets in its discretion, consistent with the Fund’s investment strategy. We do not anticipate making any changes to our glide path at this time.

RISKS ASSOCIATED WITH INVESTING IN THE FUND:

There may be additional fees or expenses associated with investing in a Fund of Funds strategy.

Asset allocation does not guarantee investment returns and does not eliminate the risk of loss.

This investment is not a complete retirement program and may not provide sufficient retirement income.

RETURNS:

¹The quoted performance of the Fund includes performance of a predecessor fund/share class prior to the Fund's commencement of operations. Please refer to the current prospectus for further information.

ANNUAL OPERATING EXPENSES:

The Fund’s adviser and/or its affiliates have contractually agreed to waive fees and/or reimburse expenses to the extent Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation and extraordinary expenses) exceed 0.270% for R5 Shares, 0.170% for R6 Shares, 0.420% for I Shares, 0.920% for R2 Shares, 0.670% for R3 Shares and 0.420% for R4 Shares of the average daily net assets. The Fund may invest in one or more money market funds advised by the adviser or its affiliates (affiliated money market funds). The Fund’s adviser has contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the fees and expenses of the affiliated money market funds incurred by the Fund because of the Fund’s investment in such money market funds. This waiver is in effect through 10/31/2026 for R5 Shares, 10/31/2026 for R6 Shares, 10/31/2026 for I Shares, 10/31/2026 for R2 Shares, 10/31/2026 for R3 Shares and 10/31/2026 for R4 Shares, at which time the adviser and/or its affiliates will determine whether to renew or revise it. The difference between net and gross fees includes all applicable fee waivers and expense reimbursements.

INDEXES DEFINED:

The benchmark shown represents the Fund’s performance benchmark, which is different from the Fund's regulatory benchmark. The Fund’s regulatory benchmark is the MSCI ACWI Index (net total return) and is included in the Fund’s prospectus and/or shareholder report. This document can be obtained at <https://am.jpmorgan.com/us/en/asset-management/adv/products/fund-explorer/mutual-fund>.

Mutual funds have fees that reduce their performance: indexes do not. You cannot invest directly in an index.

The S&P Target Date Index Series reflects exposure to various asset classes included in target date funds driven by a survey of such funds for each particular target date. These asset class exposures are represented by indices of securities in the index calculation. Prior to May 31, 2017 the asset class exposures were represented by ETFs net of fees. The Index returns are calculated on a daily basis.

Contact JPMorgan Distribution Services, Inc. at 1-800-480-4111 for a fund prospectus. You can also visit us at www.jpmorganfunds.com. Investors should carefully consider the investment objectives and risks as well as charges and expenses of the mutual fund before investing. The prospectus contains this and other information about the mutual fund. Read the prospectus carefully before investing.

Total return figures (for the fund and any index quoted) assume payment of fees and reinvestment of dividends (after the highest applicable foreign withholding tax) and distributions. Without fee waivers, fund returns would have been lower. Due to rounding, some values may not total 100%.
