Past performance information is not indicative of future performance. Investors may not get back the full amount invested.

The computation basis of the performance is based on the last valuation day of the calendar year, NAV to NAV, with dividend reinvested.

These figures show by how much the class/share class increased or decreased in value during the calendar year being shown. Performance data has been calculated in denominated currency including ongoing charges and excluding subscription fee and redemption fee you might have to pay.

Where no past performance is shown there was insufficient data available in that year to provide performance.
