The Board of Directors (the "Board") is pleased to present the Audited Annual Report of JPMorgan Funds (the "Fund") for the year ended 30 June 2021, and considers that taken as a whole they are fair and balanced and provide the information necessary for Shareholders to assess the Fund's position and performance.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à r.l. (JPMAE) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording Shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund currently has 101 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Chile, Croatia, Curacao and Sint Maarten, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Jersey, Korea, Liechtenstein, Macau, The Netherlands, Norway, Peru, Poland, Portugal, Singapore, Slovakia, Spain, Sweden, Switzerland, Taiwan and the United Kingdom. During the year there were no de-registrations and no registrations.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à r.l. sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them.

The Directors take decisions in the interests of the Fund and its Shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its Shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:

<https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/lu/en/communications/lu-x-communication/conflicts-of-interest-ce-en.pdf>

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr. Saunders and consists of five Independent Non-Executive Directors, one Non-Executive Director and three Executive Directors.

The Board defines an Executive Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates, a Non-Executive Director as someone who has a business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Non-Executive Directors to be in attendance.

In appointing a Director the Board takes into account the relative mix and composition of the Board, which as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business.

The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to Shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

At the Annual General Meeting of the Fund on 18 November 2020, the Shareholders appointed Marion Mulvey to the Board as a Non-Executive Director.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board takes active steps to keep up to date with developments relevant to the Fund and have ensured that a formal training programme is in place.

Board Evaluation

The Board carries out a biennial review of its performance.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Chairman is paid USD 102,118 and the other Directors USD 80,745 per annum. The Chairman of the AML Committee is paid an additional USD 12,112 and the Directors of the AML Committee are paid an additional USD 8,193 per annum. All Executive Directors have agreed to waive their remuneration. No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee, but has established an AML Committee in October 2020. In addition, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for the specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were eight Board meetings held during the year. Four of these were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board' and four were ad hoc Board meetings. In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Non-Executive Directors also meet with them annually without the Executive Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan Bank Luxembourg S.A. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Depositary, including the operational and compliance controls established by them to meet the Fund's obligations to shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles are set out below:

1. The Board should ensure that high standards of corporate governance are applied at all times;
2. The Board should have good professional standing and appropriate experience and to ensure that it is collectively competent to fulfil its responsibilities;
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of their duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that shareholder rights are exercised in a considered way and in the best interests of the Fund; and
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 30 June 2021. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company. The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the proxy voting policy is available from the Fund's registered office upon request or on the website:

<https://am.jpmorgan.com/uk/institutional/corporate-governance>

Environmental Social Governance ("ESG")

Certain Sub-Funds of JPMorgan Funds have included ESG as part of their investment policy. Details of these are included within the Prospectus.

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect Shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PricewaterhouseCoopers, Société coopérative, has been the Fund's Auditor since December 1994. The provision of audit services was last put to competitive tender in 2016. The Board reviewed the services of PwC in 2016 and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor.

Annual General Meetings

The next Annual General Meeting of the Fund will be held on 17 November 2021 at the Registered Office of the Fund to consider matters relating to the year ending on 30 June 2021. At this meeting Shareholders will be requested to consider the usual matters at such meetings including:

1. The adoption of the financial statements and approval of the allocation of the results;
2. The approval of Directors' fees;
3. The election of certain Directors;
4. The election of the Auditor; and
5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for Shareholders to vote on the discharge the directors of their duties for the fiscal year in question. This discharge is only valid where the annual accounts contain no omission or false information concealing the real financial situation of the Fund.

Privacy Policy

The Management Company complies with a privacy policy that has been issued by J.P. Morgan Asset Management which can be accessed at www.jpmorgan.com/emea-privacy-policy. This policy was updated during the year to comply with the General Data Protection Regulation.

Board of Directors

Luxembourg, 18 October 2021

Introduction

The 12 months ended June 2021 were marked by a sharp global economic recovery, the easing of social restrictions amid an accelerated pace of vaccinations and continued global fiscal and monetary support. In 2021, investor concerns about rising inflation and a more contagious delta strain of Covid-19 affected market sentiment, though investors appeared to take solace in the strong economic data and robust corporate earnings.

Equities

Developed Market Equities Review

Global equity indexes provided remarkable returns during the period, with the MSCI World (net) Index gaining 39.0% (in USD) and the MSCI Europe (net) index increasing by 27.9% (in EUR).

The second half of 2020 saw Covid-19 infection rates continuing to accelerate across the world, triggering fresh quarantine requirements and localised lockdowns. However, encouraging positive trial results of multiple Covid-19 vaccines and a significant injection of fiscal stimulus by the U.S. and the EU lifted global equity indexes to record highs. Additionally, economic data late in 2020 pointed to a steady, albeit softer, recovery as businesses started reopening. Against this backdrop, the U.S. Federal Reserve Bank (the "Fed") indicated that it would continue its asset purchasing program, while the European Central Bank increased the size of its planned asset purchases by EUR 500 billion to EUR 1.85 trillion and extended the length of time to make its purchases.

In the U.S., Democrat Joe Biden was inaugurated as president in January 2021, with Democratic Party control of both houses of the U.S. Congress. In March, a USD 1.9 trillion federal relief and recovery act was enacted to further aid the U.S. economy even as the pace of vaccinations continued to accelerate in the U.S.

In Europe, the equity market witnessed volatility, amid extended lockdowns across the region, growing concerns over new strains of Covid-19 and vaccine shortages. However, investor sentiment improved significantly largely due to positive economic data through the first quarter of 2021. Leading central banks continued to provide support through purchases of government bonds and sought to reassure investors that there would be no unexpected interest rate hikes in the immediate future.

Moving into the second quarter in Europe demand grew at its fastest rate in the last 15 years as the flash composite Purchasing Managers' Index (PMI) surged to 59.2 at the end of the period with the expansion turning increasingly broad-based. Furthermore, investors remained buoyant as the European Commission outlined plans to loosen Covid-19 restrictions on tourism.

In the second quarter of 2021, global equities prices continued their strong rally, supported by an accelerated pace of vaccinations and further reopening of economies. In the U.S., demand in the services sector rose sharply along with manufacturing output. Job openings hit record highs and first-time jobless claims hit their lowest levels since the start of the pandemic.

By the end of the period, the Fed acknowledged that its members had discussed tapering of its asset purchases, while the ECB sought to reassure the markets that any acceleration in inflation would be transitory.

Generally, global equities prices ended the period at high aggregate levels, as sector rotation over the period stabilised in the wake of economic dislocation caused by the onset of the pandemic. Among equity markets, the automobiles, banking and semiconductors and technology hardware sectors performed the strongest. Crude oil prices showed a strong rebound amid a decline in U.S. inventories, robust factory activity data from China and better-than-expected resumption in most economic activity.

Developed Market Equities Outlook

A successful increase in vaccination rates is enabling a reopening trend globally, with a surge in economic growth reflecting pent-up demand and massive fiscal stimulus. Existing vaccines appear to be effective against the Covid-19 variants, which indicates that a broader recovery should continue across the major developed economies through the second half of 2021.

Earnings growth should be strong in 2021, but could slow as profit margins come under pressure from higher wages, rising commodity prices and a potential increase in corporate taxes. For now, a combination of booming demand and surging productivity continues to bolster profits. Though every crisis is different, looking out into the next five years, we expect earnings growth to be substantial, front-loaded and not too dissimilar to the rebound from the Global Financial Crisis. Cyclically geared markets, sectors and companies are likely to benefit, but it is crucial to differentiate cyclical from structural headwinds and tailwinds as the recovery takes shape. We believe, and as historical experience shows, that the potential for growth from a rebounding economy can often be underestimated.

With extreme central bank policy accommodation likely behind us, the global economic backdrop now resembles a mid-cycle economy that will support stock prices moving higher and interest rates rising along the yield curve. While value stocks remain attractive relative to the growth stocks, investors are inclined to also focus on quality stocks. The main concern within equity markets is understanding how leading central banks will react to potentially accelerating economic growth. Investors are particularly worried that if inflation proves to be persistent rather than temporary, then central banks may raise interest rates more quickly, which could impact equity valuations, particularly for the more expensive stocks where historically low interest rates have been used to justify elevated valuations. This concern has created some market volatility that is likely to persist through the end of the year.

However, equities should do well in an environment of modestly rising inflation, as rising sales tend to offset higher input prices that can be passed onto customers when demand is strong. We believe it makes sense to look for areas within equity markets that stand to benefit both from the cyclical rebound but also from rising bond yields. Overall, equities had a strong start to 2021 and the outlook for the economy and equity markets remains positive.

Emerging Market Equities Review

The MSCI Emerging Markets Index returned 40.9% (USD) for the year ended 30 June 2021. Regional performance was similar: MSCI EM Asia returned 41.0%, MSCI EM EMEA 37.4% and MSCI EM Latin America 44.9%.

Emerging market equities had a strong third quarter of 2020. With North Asian countries showing the most success against the pandemic, it was technology and e-commerce companies - and growth companies more generally - that largely drove equity markets higher during the period.

In the fourth quarter of 2020, emerging market equities outperformed global equities. A rally in commodity prices was supportive of emerging market exporters, particularly Brazil and Russia. South Korean equities staged their strongest quarterly performance since 2003 on the back of strong exports in the semiconductor and industrials sectors. Equity markets in China lagged behind the wider region as Beijing's launch of an anti-trust investigation into Alibaba Group Holding Ltd and further escalation in U.S.-China political tensions weighed on investor sentiment.

The first quarter of 2021 was dominated by rising bond yields and a value-led equity market rally. Emerging market equities registered a positive return for the quarter and the best performing markets were in Taiwan, led by information technology stocks, and Chile, which was aided by rising copper prices and a strong start to vaccine roll-out. In contrast, equities in Turkey fell sharply as the central bank governor was unexpectedly replaced. In China, expectations for policy normalisation, regulatory uncertainty for select industries and ongoing geopolitical concerns hurt investor sentiment.

Emerging market equities continued to rise in the second quarter of 2021. Brazil was the best-performing market, with currency strength amplifying gains, while equity prices in Russia were supported by higher crude oil prices. Chile and Peru were among the weakest emerging markets largely due to political uncertainty.

Emerging Market Equities Outlook

How long the pandemic persists is a crucial question for economies and financial markets. Emerging market economies range from nearly no vaccinations up to about 40% of the population vaccinated. In North Asia, the closure of borders and rigid containment measures has meant that slower vaccination rollout has not hindered economic reopening.

The path of the U.S. dollar will be a key for emerging market equities. A strong U.S. dollar typically accompanies U.S. growth outperformance, which should continue given emerging market pandemic challenges. A balance of a strong U.S. macro environment with a simultaneously contained U.S. dollar and stable bond yields would be ideal for emerging market equities.

The overall emerging market equities price-to-book ratio is higher than the long-term average, but we believe there are no reasons why earnings would not be higher than last year if emerging market economies can fully reopen. We continue to look for opportunities in emerging market equities where earnings growth can compound over the long run.

Fixed Income

Global Markets Review

Most fixed income markets posted a positive return for the 12 month period, supported by central banks' policies, governments' stimulus spending and the development and distribution of multiple Covid-19 vaccines.

The year 2021 started with the prospect - and later the passage - of a massive fiscal stimulus from the Biden administration in the U.S. which set the stage for economic growth expectations to rise significantly. The efficacy of multiple vaccines and their successful rollout also fueled higher growth expectations and pushed bond yields higher. Duration sensitive sectors underperformed at the start of the 2021. Spreads, however, held up well, and shorter duration asset classes outperformed.

Emerging market nations' re-opening progress was mixed due to the persistence of new waves of infection and slower vaccine distribution. However, economic activity has become increasingly resilient, allowing the economic recovery to continue. In an environment of strong global growth combined with accommodative monetary and fiscal policies, we continued to be overweight in emerging markets and corporate credit.

Global Fixed Income Outlook

The Fed's recent statements have reduced the prospect of runaway inflation in the U.S., meaning that further moves higher in U.S. Treasury bond yields will likely be driven by the real-yield component of interest rates. Real yields could rise if U.S. growth accelerates faster than expected and the Fed is forced to raise interest rates sooner than expected. This narrative is also likely to spill over to economies capable of generating sustained inflation. In the meantime, vaccinations have broken the link between case counts and mortality rates (though investors need to consider the tail risks associated with the spread of the Covid-19 delta variant), and the economic recovery should continue over the next few months. With the Fed seemingly on top of the inflation data for now, this should remain a stable environment for carry (the return of holding a bond by earning yield versus holding cash).

Emerging Markets Debt Outlook

The reflation base scenario is moving past peak U.S. exceptionalism and peak policy accommodation. Emerging market headwinds are expected to be frontloaded, with a more supportive backdrop, as the Fed's normalisation pace becomes less uncertain. We expect emerging markets growth to remain elevated through the end of 2021. We believe investment grade debt is looking expensive from a total return perspective and we see value in bonds rated BB and single B. We continue to prefer high yield debt over investment grade debt.

High Yield Outlook

High Yield spreads have tightened significantly over the past year. A slow grind tighter will likely continue until there is a major catalyst to shock the markets, which seems unlikely in the near term. The default forecast keeps improving, with expectations that the year-end 2021 rate will be less than 1% in the U.S. high yield market, while we expect a default rate of 1.5% to 2.5% in the European high yield market. Until U.S. Treasury bond rates move higher, demand for the asset class will be elevated as investors, and specifically fixed income allocators, search for higher yields. In the U.S., strong fundamental and technical factors within the high yield market, combined with GDP growth estimates of nearly 7%, bode well for high yield debt and we believe carry-like returns are the base case outcome for 2021, with the biggest risk being U.S. Treasury bonds volatility. Within European high yield bonds, spreads have some room to compress further toward their historical lows and the benign outlook for default rates can justify this. In the meantime, there remains a compelling argument for the asset class in relation to other fixed income alternatives and the BB-rated part of the bond market still looks relatively inexpensive compared with investment grade BBB-rated bonds.

Investment Grade Outlook

Fundamentals have shown signs of recovery, with median leverage metrics continuing to improve through the end of 2021, given very strong consensus cash flow growth estimates. It is unlikely debt growth will be able to keep up with cash flow growth, causing leverage to fall naturally. While some of the more pandemic-challenged sectors have yet to reach their leverage peaks, the patience of credit agencies has allowed companies the time and flexibility to focus on deleveraging and repairing their balance sheets. However, with leverage stabilising, some companies may opt for more shareholder friendly actions like mergers and acquisitions, dividends and share buybacks over the next months. Thus, the fundamental picture is characterised by some late-cycle behaviour as well, as unprecedented, and cheap liquidity continues to move the market to the "expansionary" phase of the credit cycle.

In spite of the significant spread tightening seen since the March 2020 widest point, the high quality bias and positive yield of the corporate market means that investment grade corporates remain relatively attractive, given the amount of negative yielding debt globally.

Multi-Manager Alternatives

Market Review

Multi-manager alternative funds had a strong 12 months on the back of increased opportunities created by the dislocations in the first half of 2020. The strong correction in financial markets in that period created opportunities in the 12 months from June 2020 onward across all strategies: Event driven was strong across styles but particularly in special purpose acquisition companies (SPACs) where new issuance and an increased range of investors created strong opportunities for the funds. Long/short strategies benefitted from wider dispersion across sectors and individual stocks while relative value strategies continued to generate strong returns from mispricing among securities, especially in volatility arbitrage.

Outlook

The outlook for multi-manager alternative strategies remains strong as dispersion across securities is likely to be offering potential for strong returns. In addition, the more normalised market volatility should be supportive of these strategies as investment managers across strategies are able to find opportunities both long and short. Overall, we expect these strategies to continue to benefit from a more fundamental market coupled with increased investor uncertainty.

Money Market Funds

Market Review

Although concerns around inflation led longer-term interest rates to rise toward the end of the period, front-end rates have remained firmly anchored with central banks not expected to imminently raise rates. Money market yields remain at low levels in both Europe and the U.S.

The Fed's announced a shift to average inflation targeting, allowing inflation to run above target for a while to compensate for periods of below-target inflation. Eurozone inflation, meanwhile, fell below zero.

During the first half of 2021, sovereign yields rose substantially, with yield curves steepening across both Euro and U.S. dollar denominated debt. However, front-end rates remained anchored and central banks have emphasised that they expect the pickup in inflation to be transitory. With this in mind, the ECB committed to "significantly" increase the pace of asset purchases to maintain "favourable financing conditions." The Fed, however, despite beginning the year by stating that rates would remain on hold through 2023, has since re-assessed the data and is now forecasting two interest rate increases in 2023.

Convertibles

Market Review

Global convertible bonds (represented by the Refinitiv Global Focus Convertible Bond Index) posted a strong 20.9% in local currency terms over the period.

Outlook

Convertible bonds as an asset class should continue to be seen as an attractive opportunity to investors. Convertibles will continue to protect on the downside due to their fixed income characteristics. If volatility continues to remain heightened, this can be a tailwind for convertible valuations since it may increase the value of the embedded option. Convertibles have historically outperformed equities during periods of heightened market volatility. In addition convertibles typically perform well in a rising rate environment, if this is due to above trend growth and rising earnings.

Audit Report

To the Shareholders of

JPMorgan Funds

Our opinion

In our opinion, the accompanying Financial Statements give a true and fair view of the financial position of JPMorgan Funds (the "Fund") and of each of its Sub-Funds as at 30 June 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the Financial Statements.

What we have audited

The Fund's Financial Statements comprise:

- the Combined Statement of Net Assets as at 30 June 2021;
- the Schedule of Investments as at 30 June 2021;
- the Combined Statement of Operations and Changes in Net Assets for the year then ended; and
- the Notes to the Financial Statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the Financial Statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the Financial Statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the Financial Statements and our audit report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the Financial Statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the Financial Statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its Sub-Funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its Sub-Funds (except for JPMorgan Funds - US Research Enhanced Index Equity Fund where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(5) This Sub-Fund was merged into JPMorgan Funds - Diversified Risk Fund on 23 April 2021.

* Share Class inactive as at the end of the year.

1. Organisation

JPMorgan Funds (the “Fund” or the “SICAV”) is an investment company incorporated on 14 April 1969 under the name Multi-Trust Fund S.A.. The name of the SICAV was changed to Fleming International Fund on 3 July 1984, to Fleming Flagship Fund on 19 October 1988, to Fleming Funds on 2 June 2000, to JPMorgan Fleming Funds on 19 November 2001 and then to JPMorgan Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 30 June 2021, it is comprised of 101 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 8478.

Each Sub-Fund may contain A, C, C2, D, F, I, I2, J, K, S1, S2, T, V, X and Y Share Classes. These Share Classes may have differing minimum subscription amounts, minimum holding amounts, currency and/or eligibility requirements, fees and expenses, and dividend policies applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of “(perf)” in the name of the Share Class. Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations (under Luxembourg GAAP) relating to Undertakings for Collective Investment under the going concern basis of accounting. As indicated in Notes 18 and 19, JPMorgan Funds - Global Equity Plus Fund was liquidated during the year and JPMorgan Funds - US Research Enhanced Index Equity Fund was liquidated on 24 September 2021. As such, the Financial Statements for these Sub-Funds have been prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not led to material adjustments to the Sub-Funds' published net asset values.

a) Investment Valuation

For all Sub-Funds, except Money Market Funds, transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors. As at 30 June 2021, securities which were fair valued are identified with an asterisk (*) in the Schedule of Investments.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such funds or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

Under a Variable NAV Sub-Fund (VNAV), all investments are valued at the latest available price prevailing on the valuation date.

JPMorgan Funds - EUR Money Market VNAV Fund and JPMorgan Funds - USD Money Market VNAV Fund qualify as Variable Net Asset Value Money Market Fund (“VNAV MMF”) under the Money Market Fund regulation (Regulation (EU) 2017/1131).

The assets of VNAV MMF are valued by using mark-to-market prices whenever possible. Where use of mark-to-market prices is not possible or the market data are not of sufficient quality, assets of VNAV MMF are valued conservatively by using mark-to-model. The model accurately estimates the value by considering the up-to-date factors as trading volume, issue size, market risk, interest rate risk and credit risk of each concerned assets.

For the Money Market Funds (MMFs), securitisations, Asset-Backed Commercial Papers and money market instruments are valued at mark-to-market. Where the value of the assets of the Sub-Funds cannot be calculated following the mark-to-market; a) shares or units in MMFs shall be valued at their last available net asset value as reported by such MMFs; b) the value of any cash on hand or on deposit and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined conservatively using mark to model.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 30 June 2021 except for JPMorgan Funds - China A-Share Opportunities Fund which was calculated on 29 June 2021. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee to address any potential valuation concerns. In line with this, no adjustments were made on 30 June 2021 as the portfolio value at the valuation point represents the same value since closure of the portfolios' relevant underlying markets.

b) Swing Pricing Adjustment

To protect the interests of Shareholders, a Sub-Fund's NAV may be adjusted to compensate for dilutions that can arise in connection with large flows of cash into or out of a Sub-Fund.

These adjustments are normally applied on any Valuation Day when the total volume of trading in a Sub-Fund's Shares (meaning both subscriptions and redemptions) exceeds a certain threshold. The adjustments will seek to reflect the anticipated prices at which the Sub-Fund will be buying and selling assets, as well as estimated transaction costs. The NAV will be adjusted upward when there are large cash net inflows into the Sub-Fund and downward when there are net large outflows. The SICAV Board has delegated to the Management Company all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. The Management Company will promptly notify the SICAV Board and the CSSF in the event where swing factors increase beyond 2%. During the year, no Sub-Fund has applied a swing factor exceeding 2%. The swing factors typically include the estimated dealing costs, stamp duty and other taxes and market bid/offer spreads. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The Management Company makes, and periodically reviews, the operational decisions about swing pricing, including the thresholds that trigger it, the extent of the adjustment in each case, and which Sub-Funds will and will not be subject to swing pricing at any given time.

The official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

During the year, the swing pricing mechanism was applied across all Sub-Funds except for JPMorgan Funds - Emerging Markets Diversified Equity Plus Fund due to net flows not reaching the swing threshold and JPMorgan Funds - EUR Money Market VNAV Fund, JPMorgan Funds - Global Multi-Strategy Income Fund and JPMorgan Funds - USD Money Market VNAV Fund, due to Prospectus restriction.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2021

As at year end, Swing Pricing adjustments have been applied to the following Sub-Funds: JPMorgan Funds - Emerging Markets Sustainable Equity Fund, JPMorgan Funds - Global Equity Fund, JPMorgan Funds - Global Socially Responsible Fund, JPMorgan Funds - Korea Equity Fund, JPMorgan Funds - US Equity All Cap Fund, JPMorgan Funds - US Growth Fund and JPMorgan Funds - US Select Equity Plus Fund.

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate not to apply the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If a decision is taken in relation to a Sub-Fund the Management Company will pay the dealing and other costs resulting from securities trades to avoid the Sub-Fund suffering dilution of the net asset value. Where this happens shareholders will subscribe or redeem at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied.

c) Realised and Unrealised Gains or Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains or losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains or losses on investments. Unrealised gains or losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains or losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply. The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent. An element of the securities lending income will include the proceeds related to the re-investment of cash collateral, if any.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains or losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains or losses between trade date and settlement date on securities transactions and forward currency exchange contracts; and (iii) gains or losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

The resulting gains or losses on translation are included in "Net realised gain/(loss) on currency exchange" in the Combined Statement of Operations and Changes in Net Assets.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Forward currency exchange contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Unrealised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net realised gain/(loss) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised gain/(loss) on financial futures contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net change in unrealised appreciation/(depreciation) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Option contracts purchased are recorded as investments; option contracts written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying financial futures contracts.

The market values are recorded under "Options purchased/written contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net change in unrealised appreciation/(depreciation) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2021

i) To Be Announced Securities ("TBA")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as at 30 June 2021, which are included in "Investment in to be announced contracts at market value", "Receivables on sale of to be announced contracts" and "Payables on purchase of to be announced contracts" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on To be announced contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on To be announced contracts" in the Combined Statement of Operations and Changes in Net Assets.

j) Interest Rate Swap Contracts

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The interest on interest rate swap contracts are recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

k) Total Return Swap Contracts

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A total return swap contract will exchange the total performance on a specific basket of securities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains or losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

l) Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

m) Commodity Index Swap Contracts

A commodity index swap contract is a bilateral agreement in which each of the parties agree to exchange the total return of a specified commodity index against money market rate plus fees.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

n) Inflation Rate Swap Contracts

An inflation rate swap contract is a bilateral agreement in which each of the parties agrees to exchange a predetermined fixed rate for an inflation-linked payment based on a notional amount that serves as a computation basis and that is usually not exchanged until the end of the term. Inflation rate swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The income from inflation rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

o) Consolidation of Mauritius Subsidiary

All income, expenses, receivables, payables and investments of JPMorgan SICAV Investment Company (Mauritius) Limited (the "Subsidiary"), a wholly-owned subsidiary of JPMorgan Funds - India Fund, are consolidated into the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets of JPMorgan Funds - India Fund. Securities owned by the Subsidiary, if any, are individually disclosed in the Schedule of Investments of JPMorgan Funds - India Fund. Intercompany balances are eliminated on consolidation. During the year, all securities held by the Subsidiary were transferred under the direct ownership of JPMorgan Funds - India Fund and as at 30 June 2021, the subsidiary no longer holds any securities, only a small residual cash balance.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2021

The Directors of JPMorgan SICAV Investment Company (Mauritius) Limited and its sole Shareholder, JPMorgan Funds, have resolved, via written resolutions, to wind up JPMorgan SICAV Investment Company (Mauritius) Limited. The resolution of the sole Shareholder was accepted by the Mauritius Registrar of Companies on 5 May 2021 after which the liquidator assumed control of JPMorgan SICAV Investment Company (Mauritius) Limited. The Subsidiary will remain consolidated into JPMorgan Funds - India Fund until the liquidation process has completed.

Whilst Indian securities listed on an Indian stock exchange were held through the Mauritius subsidiary, interests and dividends received were not subject to taxation. Interests and dividends on securities listed on an Indian stock exchange held directly in India by JPMorgan Funds - India Fund are subject to tax at a rate of 20% (plus surcharge and education tax). Capital gains on disposal of such investments is subject to tax at rates of 0% to 15% (plus surcharge and education tax) in respect of listed securities depending on the length of time the relevant investment has been held.

3. Reference Currency and Exchange Rates

The reference currency of the SICAV as reflected in the combined statements is USD.

For the preparation of the Financial Statements the principal exchange rates applied for the year ended 30 June 2021 are the latest exchange rates known at the time of the NAV calculation:

1 USD =	1.3328 AUD	1 USD =	21.486 CZK	1 USD =	296.18 HUF	1 USD =	3.8079 PLN
1 USD =	1.2372 CAD	1 USD =	0.8422 EUR	1 USD =	110.686 JPY	1 USD =	8.5169 SEK
1 USD =	0.9238 CHF	1 USD =	0.7225 GBP	1 USD =	8.5751 NOK	1 USD =	1.3442 SGD
1 USD =	6.462 CNH	1 USD =	7.7662 HKD	1 USD =	1.4324 NZD		

4. Fees and Expenses

a) Capped Expense Ratio

The maximum total fees and expenses to be borne by shareholders on a Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise the Management and Advisory Fees, Sub-Investment Manager Fee, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in Appendix 1.

b) Management and Advisory Fees

The SICAV pays to the Management Company a management fee calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management and Advisory Fee"). The Management and Advisory Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by any affiliate of JPMorgan Chase & Co., double-charging of management fees will either be avoided or rebated. However, if the underlying investment charges a higher management fee, the difference may be charged to the investing Sub-Fund. If the underlying affiliate undertaking combines management and other fees and charges into a single total expense ratio, such as in exchange traded funds, the whole total expense ratio will be waived. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Management Company can vary the management and advisory fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum. For X and Y Share Classes, this fee is not charged at the Share Class level; instead, the applicable JPMorgan Chase & Co. entity collects a fee for these services directly from the Shareholder.

c) Sub-Investment Manager fee

For Multi-Manager Sub-Funds, in addition to the annual management and advisory fee, there is a Sub-Investment Management fee. This fee goes to pay the Sub-Investment Managers who handle the day-to-day management of their assigned portions of the Sub-Fund portfolio. Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management and Advisory Fee, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

d) Distribution Fees

The Management Company typically uses some or all of this fee to compensate Distributors for their services in connection with marketing and distributing the D and T Share Classes. The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum.

e) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees and other expenses incurred in the operation and administration of the SICAV from time to time. This fee is capped for each Share Class and will not exceed the amount stated in Sub-Fund Descriptions section of the Prospectus. The Management Company will bear any operating and administrative expenses that exceed the maximum rate specified.

Where a Sub-Fund invests primarily in UCITS and other UCIs managed by any affiliate of JPMorgan Chase & Co. and where specifically stated for a Sub-Fund in Sub-Fund Descriptions section of the Prospectus, double-charging of operating and administrative expenses will be avoided by a rebate to the Sub-Fund of the operating and administrative expenses (or equivalent) charged to the underlying UCITS or other UCIs. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Operating and Administrative Expenses cover:

i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum, except for JPMorgan Funds - Global Research Enhanced Index Equity Fund and JPMorgan Funds - US Research Enhanced Index Equity Fund where it will not exceed 0.05% per annum.

ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

f) Performance Fees

As set out in the Prospectus, the Management Company is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2021

payable to the Management Company on the last Dealing Day of the Financial Year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the whole or part of the Performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

Claw-Back mechanism

The Claw-Back mechanism may accrue a Performance Fee where there is negative return, provided that the performance exceeds the Performance Fee Benchmark return since the last time a Performance Fee was paid.

High Water Mark Method

The High Water Mark mechanism introduces an additional requirement that a Performance Fee may only be accrued where the Net Asset Value per Share is higher than the greater of the Net Asset Value per Share at launch of the Share Class, and the Net Asset Value per Share at which the last Performance Fee was paid.

Sub-Investment Manager Method

The Sub-Investment Manager mechanism is similar to High Water Mark except that the performance of each Sub-Investment Manager is measured instead of Share Class performance. Additionally, for a Performance Fee to be paid, the performance of a Sub-Investment Manager must exceed the performance of the Hurdle Rate and it must be higher than it was the last time a performance fee was paid, or than it was at the first allocation of assets to that Sub-Investment Manager. Under this mechanism, a Performance Fee cannot be charged if the Sub-Investment Manager's performance is negative. However, a performance fee may be payable to one or more of the Sub-Investment Managers, even though the overall Share Class performance is negative.

As at 30 June 2021, Performance Fee rates and benchmarks on all Share Classes with the suffix "(perf)" are as follows:

5. Distribution Policy

Share Classes suffixed “(acc)”

Share Classes with the suffix “(acc)” are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed “(dist)”

It is intended that all those Share Classes with the suffix “(dist)” will, if appropriate, pay reportable income annually and will have “UK Reporting Fund Status”. Payment of dividends on these Share Classes will normally be made in September of each year.

Share Classes suffixed “(div)”

Share Classes with the suffix “(div)” will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that “(div)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix “(div)” in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed “(mth)”

Share Classes with the suffix “(mth)” will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix “(mth)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that “(mth)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of “(mth)” Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed “(fix)”

Share Classes with the suffix “(fix)” will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus. Share Classes with the suffix “(fix)” may be closed, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed “(irc)”

Share Classes with the suffix “(irc)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Share Classes suffixed “(icdiv)”

Share Classes with the suffix “(icdiv)” will pay a dividend that is expected to include a distribution from capital as well as the gains of the Share Class. It sets a predetermined annual percentage of NAV per Share to be paid as a monthly dividend that is not linked to income or capital gains. Payments are likely to exceed the increase in the NAV per share from the net income and realised and/or unrealised capital gains of the Share Class resulting in erosion of the amount invested. The annual percentage is based on prevailing investor demand in the region where the share class is distributed and Sub-Fund level considerations. The percentage may be changed at the discretion of the Management Company. The latest dividend yield of the share class can be found on the website (www.jpmorganassetmanagement.lu).

This Share Class is available only to investors purchasing and holding Shares through specific Asian distribution networks, and to other investors at the discretion of the Management Company. Shareholders should be aware that, during periods of negative performance, the dividend will normally continue to be paid and the value of the investment may fall more rapidly. It may not be possible to maintain the initial / prevailing dividend payment indefinitely and it may be reduced. If the value of the NAV falls to 1.00 in the Sub-Fund's Base Currency, the share class will be fully redeemed by the Management Company at the next practicable opportunity. Investors in these Share Classes may have to pay tax on payments out of capital which may be tax inefficient. Investors should consult with their tax advisors.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix “(div)”, “(fix)” and “(mth)” do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

Details of the dividends distributed during the year from 1 July 2020 to 30 June 2021 are available on the website:
<https://am.jpmorgan.com/lu/en/asset-management/adv/products/fund-explorer/sicavs>

6. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax (“Taxe d'Abonnement”), up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the Taxe d'Abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2021

Dividends, interest and capital gains on security investments held by any Sub-Fund may be subject to non-recoverable withholding tax and Capital Gains Tax of varying rates in the source countries.

7. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV.

8. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Associated risks are set out in the Prospectus.

In emerging and less developed markets, in which some of the Sub-Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. In some markets there may be no secure method of delivery against payment which would minimise the exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

9. Collateral Received with Respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold or pledged.

Collateral received with respect to financial derivative instruments is shown in the Appendix.

10. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to Undertakings for Collective Investment when they use certain techniques and instruments relating to transferable securities and money market instruments, (iii) CSSF circular 14/592 relating to ESMA Guidelines on ETFs and other UCITS issues and (iv) any other applicable laws, regulations, circulars or CSSF positions.

Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. 90% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 10% income is paid to J.P. Morgan Bank Luxembourg S.A. for its role as securities lending agent for the SICAV. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 30 June 2021, the SICAV valuation of securities on loan is USD 2,755,264,611 as detailed below and received collateral with a market value of USD 2,893,527,126.

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

** Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

11. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain trading activity, forward currency exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Global Distributor and Domiciliary Agent, Investment Managers, Depository, Corporate, Administrative and Listing Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated USD 171,962 for legal services to the SICAV.

The following is a summary of transactions entered into during the year between the SICAV (on behalf of authorised Sub-Funds in Hong Kong) and the Manager and/or its Connected Persons. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong. All such transactions were entered into in the ordinary course of business and on normal commercial terms. For details of the Management and Advisory Fees payable to the Management Company, please refer to Note 4., Fees and Expenses. The fees of the Investment Manager and Delegate Investment Manager of the Sub-Funds which are authorised in Hong Kong are borne by the Management Company.

(1) This Sub-Fund was renamed from JPMorgan Funds - Global Unconstrained Equity Fund to JPMorgan Funds - Global Growth Fund on 1 April 2021.

* Total transactions is the total value in Sub-Fund currency of purchases and sales dealt during the year to 30 June 2021.

12. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

Where JPMorgan Asset Management (UK) Limited is the investment manager, all costs associated with the purchase of external research are paid directly by JPMorgan Asset Management (UK) Limited.

13. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

JPMorgan Funds - Global Value Fund on 3 June 2021.

b) Sub-Fund liquidations

The following Sub-Fund was liquidated during the year:

JPMorgan Funds - Global Equity Plus Fund on 17 February 2021.

c) Sub-Fund merger

The following Sub-Funds were merged during the year:

JPMorgan Funds - Systematic Alpha Fund into JPMorgan Funds - Diversified Risk Fund on 23 April 2021.

d) Sub-Fund Name change

The following Sub-Fund was renamed during the year:

JPMorgan Funds - Global Unconstrained Equity Fund to JPMorgan Funds - Global Growth Fund on 1 April 2021.

e) Investment Policy

With effect from 29 July 2020, the investment policies for the JPMorgan Funds - Global Corporate Bond Fund and the JPMorgan Funds - Global Corporate Bond Duration-Hedged Fund have been amended to remove a restriction to invest in global debt securities issued by local governments, and to allow investment in these types of assets up to 5%. This change will broaden the investment universe of the Sub-Funds, permitting the Investment Managers to take advantage of any investment opportunities in debt securities issued by local governments globally. This change will not materially affect how the Sub-Funds are currently managed or their risk profile.

With effect from 20 October 2020, the investment policy for the JPMorgan Funds - Emerging Markets Dividend Fund has been amended to allow investment in China A-Shares through the China-Hong Kong Stock Connect Programmes up to 20%, up from a previous limit of 10%. This provides the Investment Manager with increased flexibility to gain exposure to China A shares which are growing in prominence in emerging and global indices and provide a significant and growing investment opportunity. This change will not materially affect the risk profile of the Sub-Fund.

With effect from 20 October 2020, the Investment Approach for the JPMorgan Funds - Pacific Equity Fund has been clarified to more accurately describe how country views are implemented. As part of the stock selection process, the Investment Manager does not implement top-down views on countries and this reference has been removed and replaced with a more accurate statement that it uses "country specialist and sector analyst inputs". There is no change to how the Sub-Fund is managed or the risk profile of the Sub-Fund.

f) Changes to expected leverage

With effect from 29 July 2020, JPMorgan Funds - Global Aggregate Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 300% to 400%.

With effect from 29 July 2020, JPMorgan Funds - Sterling Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 10% to 50%.

With effect from 29 July 2020, JPMorgan Funds - Systematic Alpha Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 350% to 500%.

With effect from 29 July 2020, JPMorgan Funds - Euro Government Short Duration Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 25% to 150%.

With effect from 21 September 2020, JPMorgan Funds - Diversified Risk Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 150% to 600%.

With effect from 20 October 2020, JPMorgan Funds - Euro Aggregate Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 25% to 50%.

g) Changes to investment restrictions

With effect from 29 July 2020, the JPMorgan Funds - Emerging Markets Local Currency Debt Fund (the "Sub-Fund") is registered with the Securities and Futures Commission, the regulatory authority in Hong Kong, and as a result certain investment restrictions are disclosed in the JPMorgan Funds prospectus in respect of the Sub-Fund. The JPMorgan Funds prospectus has been updated to reflect that the Investment Manager may hold up to 20% of the Sub-Fund's net assets in securities issued or guaranteed by any one country (including any government body or public or local authority) with a credit rating below investment grade. This will provide the Investment Manager with the flexibility to take advantage of opportunities in countries rated below investment grade and is in line with the current investment policy of the Sub-Fund. There is no impact to the risk profile of the Sub-Fund.

h) Integration of Environmental, Social and Governance factors

With effect from 29 July 2020, the Sub-Fund Descriptions for the following Sub-Funds have been updated to reflect that Environmental, Social and Governance factors are integrated into the investment process:

- JPMorgan Funds - America Equity Fund
- JPMorgan Funds - Brazil Equity Fund
- JPMorgan Funds - China A-Share Opportunities Fund
- JPMorgan Funds - Emerging Europe Equity Fund
- JPMorgan Funds - Emerging Middle East Equity Fund
- JPMorgan Funds - Global Growth Fund
- JPMorgan Funds - Global Natural Resources Fund

i) Prospectus updates

With effect from 29 July 2020, for The prospectus of JPMorgan Funds has been updated to clarify and enhance the investment policies of the relevant Sub-Funds which are expected to invest in mortgage-backed securities ("MBS") and/or asset-backed securities ("ABS"), as set out below. For those Sub-Funds which are expected to invest in MBS/ABS, the investment policies have been updated to indicate a percentage of assets which may be invested in these securities. In addition, for those Sub-Funds which are expected to invest 20% or more of their assets in MBS/ABS, the investment policies have been enhanced to include a description of MBS/ABS, underlying assets and any applicable credit quality restrictions. Certain other clarifications of investments in MBS/ABS and covered bonds have been also made for clarity and consistency purposes. For details of the relevant Sub-Funds and the above updates, please refer to the Appendix and the full version of the latest prospectus. These updates reflect how the Sub-Funds are currently being managed and do not affect their risk profiles.

j) Changes to Sub-Fund investment policy and global exposure calculation method

With effect from 14 January 2021, the investment policy for the JPMorgan Funds - Total Emerging Markets Income Fund has been amended to allow investment in onshore PRC securities including China A-Shares through the China-Hong Kong Stock Connect Programmes and onshore debt securities issued within the PRC through the China-Hong Kong Bond Connect up to 20%, up from a previous limit of 10%. This provides the Investment Manager with increased flexibility to gain exposure to the onshore China market which is growing in prominence in emerging and global indices and provides a significant and growing investment opportunity. The Sub-Fund does not use derivatives extensively (very limited usage of FX forwards) and it has been determined that Commitment is a more appropriate global exposure calculation method than VaR which is generally used for more complex derivative strategies. These changes will not materially affect the risk profile of the Sub-Fund.

Old Global Exposure Calculation Method

Value at Risk ("VaR")

With effect from 14 January 2021, the investment policy for JPMorgan Funds - US Technology Fund has been amended to better reflect current industry terminology. The term "telecommunications" has been replaced with "communication services". The "telecommunications" sector no longer exists in the S&P Global Industry Classification Standard sector classification as a standalone industry or sector and is now included in the "communication services" sector. The investment policy has also been updated to reflect that investments may include but are not limited to technology, media and communications services sectors. The technology segment has broadened out considerably in recent years and many new technology companies exist outside the technology sector as defined by index classifications such as S&P GICs or Russell as well as the traditional TMT (telecom, media, technology) space. There is no change to how the Sub-Fund is managed and these changes will not materially affect the risk profile of the Sub-Fund.

With effect from 12 May 2021, the investment policies for the below Sub-Funds have been amended to allow investment up to 20% in China A-Shares through the China-Hong Kong Stock Connect Programmes.

- JPMorgan Funds - Asia Growth Fund
- JPMorgan Funds - Emerging Markets Small Cap Fund
- JPMorgan Funds - Emerging Markets Sustainable Equity Fund
- JPMorgan Funds - Global Emerging Markets Research Enhanced Index Equity Fund
- JPMorgan Funds - Pacific Equity Fund
