# JPMorgan Funds - US Short Duration Bond Fund

## Reason for changes

The EU Securitisation Regulation which became effective on 1 January 2019 introduced enhanced due diligence requirements for EU investment funds purchasing securitised assets. Where the current disclosure standards by US issuers of securitised assets do not meet these due diligence requirements, the sub-fund is restricted from purchasing these assets. In order for the sub-fund to continue to seek a similar level of risk adjusted returns, the Investment Manager requires flexibility to invest in a greater proportion of debt securities issued by non-US governments or their agencies and companies. Debt issued by these non-US governments or their agencies and companies will be short-term, investment grade and USD denominated.

**Risk/reward level** unchanged

**Fee level** unchanged

#### Main Investment Exposure (Extract)

At least 90% of assets invested in short-term investment grade debt securities issued or guaranteed by the US government or its agencies and by companies that are domiciled, or carrying out the main part of their economic activity, in the US.
