JPMorgan Investment Funds – Income Opportunity Fund

The prospectus has been updated to include updates to the Sub-Fund's 'expected range' of exposure to MBS/ABS to 0-30% (previously 10-30%).

The Investment Manager expects exposure to MBS/ABS to decrease over the long term and believes lowering the expected range would be more representative of the portfolio going forward. This is due in part to the decreased investable universe of MBS/ABS for the Sub-Fund. Furthermore, the Investment Manager is expected to increase its allocation to other asset classes, which offer an increasingly more favourable comparative risk-adjusted return.

There is no increase to the risk profile of the Sub-Fund. Should you have any questions about this update or any other aspect of JPMorgan Investment Funds, please contact the Registered Office or your usual local representative.
