

JPMorgan Global Growth & Income plc

Annual Report & Financial Statements for the year ended 30th June 2018

KEY FEATURES

Your Company

Objective

Total returns from world stockmarkets.

Investment Policy

To provide a diversified portfolio of approximately 50-90 stocks in which the investment manager has a high degree of conviction.

Investment Strategy

To provide superior total returns and outperform the MSCI All Countries World Index (in Sterling terms) over the long-term by investing in companies based around the world. The manager is focused on building a high conviction portfolio of typically 50-90 stocks, drawing on an investment process underpinned by fundamental research. Portfolio construction is driven by bottom-up stock selection rather than geographical or sector allocation. Currency exposure is predominantly hedged back towards the benchmark. The Company uses borrowing to gear the portfolio within a range of 5% cash to 20% geared under normal market conditions.

Dividend Policy

The Company has a distribution policy whereby at the start of each financial year the Company will announce the distribution it intends to pay to shareholders in the forthcoming year in quarterly instalments. In aggregate, the current intention is to pay dividends totalling at least 4% of the net asset value of the Company as at the end of the preceding financial year.

Gearing

The Company issued £30 million fixed rate 30 year unsecured notes at an annual coupon of 2.93% on 9th January 2018. The previous £25 million loan under the revolving credit facility with National Australia Bank has been repaid and the facility cancelled. The notes are unsecured which gives the Company increased flexibility to manage its borrowings in the future.

Benchmark

The Company's benchmark is the MSCI All Countries World Index in sterling terms (total return with net dividends reinvested).

Company Name

The Company changed its name from JPMorgan Overseas Investment Trust plc to JPMorgan Global Growth & Income plc on 8th July 2016.

Capital Structure

At 30th June 2018, the Company's issued share capital comprised 154,905,500 ordinary shares of 5p each including 25,904,215 shares held in Treasury.

Share Repurchase and Issuance Policy

In order for the Company's shares to trade at a relatively narrow discount, the Company has a long-term policy of repurchasing its shares with the aim of maintaining an average discount of around 5% or less calculated with debt at par value. Any shares repurchased under this policy may be held in Treasury or cancelled. Shares held in Treasury and new shares will only be reissued/issued at a premium to net asset value.

Management Company and Company Secretary

The Company employs JPMorgan Funds Limited ('JPMF' or the 'Manager'), as the Company's Alternative Investment Fund Manager ('AIFM') and the Company Secretary. JPMF delegates the management of the Company's portfolio to JPMorgan Asset Management (UK) Limited ('JPMAM').

FCA regulation of 'non-mainstream pooled investments'

The Company currently conducts its affairs so that the shares issued by JPMorgan Global Growth & Income plc can be recommended by Independent Financial Advisers to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future.

The shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment trust.

The Company's ordinary shares are not considered to be 'complex instruments' under the FCA's 'Appropriateness' rules and guidance in the Conduct of Business sourcebook.

AIC

The Company is a member of the Association of Investment Companies.

Website

The Company's website, which can be found at www.jpmmglobalgrowthandincome.co.uk, includes useful information on the Company, such as daily prices, factsheets and current and historic half year and annual reports.

Jeroen Huysinga
Investment Manager

“ We do exactly what it says on the tin, it’s a global growth and income trust, when we’re investing we’re looking for companies that can deliver long-term capital growth and the Trust makes a distribution in the form of a dividend’. ”

Why invest in the JPMorgan Global Growth & Income Investment Trust

JPMorgan Global Growth & Income plc is a distinctive strategy for today’s markets – providing the best of both worlds. The manager focuses on investing in our best ideas from across the world’s stock market, whilst the Company provides a quarterly dividend distribution – set at the beginning of its financial year.

Our investment approach

JPMorgan Global Growth & Income plc investment managers have the freedom to invest anywhere in the world in search of the best ideas from across JPMorgan’s team of over seventy in-house investment analysts. The investment managers look to build a portfolio of global stocks that offer the best total returns.

The Company introduced a new dividend policy in 2016 – and has paid out 4% of the net asset value as dividends set at the start of each financial year since then. This new dividend policy does not change the managers’ investment approach, which is focused on continuing to generate total returns.

Four key price drivers

All portfolio holdings must demonstrate:

FACTS

- has paid out 4% of NAV as distribution
- over 70 investment analysts located globally
- 50-90 global best ideas stocks
- strong long-term performance

Research is the core of everything we do

Actively sharing expertise – Local equity research integrated globally

- Collaboration among **350+ equity investment professionals** in 9 locations
- One of the **deepest and most experienced** equity managers in the world
- High conviction, bottom up stock picking, drawing on expertise of 66 Research Analysts and 5 Portfolio Analysts

Europe Research Team
14 Analysts

Japan Research Team
13 Analysts

Nigel Wightman
Chairman

After providing very strong returns to investors last year, global equity markets continued to rise this financial year. In the year to 30th June 2018, the Company produced a total return on net assets of +8.2%. Our benchmark - the MSCI AC World Index expressed in sterling terms - rose 8.9% for the same period.

The return to shareholders over the year was higher at +10.5%, reflecting a slight further narrowing of the discount to net asset value ("NAV") at which the Company's shares trade.

All figures are on a total return basis.

This performance attribution analyses how the Company achieved its performance relative to its benchmark index. The Investment Managers' report provides a detailed commentary on these figures and discusses activity, performance and the market outlook.

A glossary of terms and alternative performance measures is provided on pages 79 and 80 of the Annual Report.

Distribution and Dividends Policy

The Company's revised dividend policy has now been in place for over two years. As a reminder the current dividend policy aims to pay, in the absence of unforeseen circumstances, dividends totalling at least 4% of the NAV of the Company as at the end of the preceding financial year.

The Board announced on 3rd July 2018 that, in relation to the year commencing 1st July 2018, the Company intends to pay dividends totalling 12.52p per share, which represents a yield of 4.00% of the unaudited NAV as at the 30th June 2018. It is expected that such dividends will be paid by way of four equal distributions, with the first distribution for the financial year ending 30th June 2019 of 3.13p per share for the period to 30th September 2018 being paid on 5th October 2018 to shareholders on the register on 7th September 2018.

The target dividends for the year commencing 1st July 2018 represents an increase of 2.96% over the total dividends of 12.16p per share payable for the prior year.

It is important to remind investors that there has been no change in the Company's investment policy, nor the Investment Manager's approach to investment or the current benchmark as a result of the dividend policy change.

Share Issuance and Repurchases

The Company has a policy of maintaining the discount at which our shares trade relative to NAV around or below 5%. Encouragingly, the discount remained close to par during the year and indeed the shares often traded at a small premium. As a result the Company did not need to repurchase any shares and during periods when the shares traded at a premium to NAV, the Company was able to reissue 5,340,000 shares from Treasury for a total consideration of £17,005,000. At the year-end the discount stood at 1.3% and at the time of this report it stands at 0.1%.

A resolution to renew the authority to permit the Company to repurchase shares will be proposed at the Annual General Meeting ('AGM') in October 2018. Resolutions renewing the authorities to issue shares from Treasury and to issue new shares, in both cases at a premium to NAV, and to disapply pre-emption rights over such issues, will also be proposed.

Ongoing Charges

The Board continues to believe that the Company's ongoing charges ratio (excluding performance fees) of 0.56% for the year ended 30th June 2018 (2017: 0.57%) is competitive when compared to other trusts and savings products such as open ended funds actively investing in global equities. No performance fee is actually payable for the year ended 30th June 2018 (2017: Nil) notwithstanding the positive performance this year, because fees are calculated and payable over a four year period on performance relative to the benchmark. There is an accrual included in the financial statements in respect of performance fees that could become payable in future years. The Board continues actively to monitor the Company's management fee arrangements to ensure they remain structured in the interests of shareholders.

Gearing

Gearing is regularly discussed between the Board and the Investment Manager. As announced on 9th January 2018, the Board has issued £30 million fixed rate 30 year unsecured notes at an annual coupon of 2.93% to take advantage of current market conditions which we consider offer an attractive level of long term gearing. The previous £25 million loan under the revolving credit facility with National Australia Bank has been repaid. The notes are unsecured, which gives the Company increased flexibility to manage its borrowings in the future. There has been no change to the Company's overall gearing range of 5% net cash to 20% geared in normal circumstances. The Investment Manager decreased gearing levels during the year from 6.3% at the start of the period to 4.9% at 30th June 2018. Since the year end, the Investment Manager has increased gearing to 6.5%.

Currency Hedging

The Company continues its passive currency hedging strategy (implemented in late 2008) that aims to make stock selection the predominant driver of overall portfolio performance relative to the benchmark, the MSCI World All Countries Index (in sterling terms). This is a risk reduction measure, designed to eliminate most of the differences between the portfolio's currency exposure and that of the Company's benchmark. As a result the returns derived from, and the portfolio's exposure to currencies may differ materially from that of the Company's competitors, who generally do not undertake such a strategy.

The Board

There have been no changes to the composition of the Board during the year. Following the Board's annual evaluation by the Nomination Committee, it is felt that the Board's current composition and size are appropriate. However, in anticipation of the retirement from 2020 of the longer serving Directors, the Board intends to appoint a new Director in 2019.

The Board supports the annual re-election for all Directors, as recommended by the UK Corporate Governance Code, and therefore all Directors will stand for re-election at the forthcoming AGM.

Annual General Meeting

My fellow Directors and I invite you to attend the Company's Annual General Meeting which will be held at 60 Victoria Embankment, London EC4Y 0JP on Wednesday 31st October 2018 at 2.30 p.m. An investment presentation will be made at the meeting by Jeroen Huysinga. If you have any detailed or technical questions, please submit these in advance of the meeting in writing, or via the Company's website, to the Company Secretary whose contact details are shown on page 83. Shareholders who are unable to attend the AGM in person are encouraged to use their proxy votes.

There will be an opportunity for shareholders to meet the Directors and the Investment Manager following the AGM. I hope to have the pleasure of meeting you then.

Outlook

Since the year end the US equity market has remained firm, buoyed by very strong corporate earnings. Elsewhere the picture is very mixed, with markets and currencies in emerging countries falling as a result both of rising US interest rates and the possibility of highly disruptive trade wars between the US and its trading partners. This latter development adds a major element of uncertainty to an outlook that should otherwise be quite benign, with steady to strong economic expansion in most developed and developing countries.

In this uncertain environment the Board has continued confidence in the ability of our Investment Managers, Jeroen Huysinga and Tim Woodhouse, to find attractively priced stocks, supported by the extensive worldwide research resources of JPMorgan.

Nigel Wightman
Chairman

18th September 2018

Jeroen Huysinga
Investment Manager

Market Environment

Global equity markets continued on their positive trajectory over the year, with the MSCI All Country World Index rising 8.9% in sterling terms. The first six months of the period proved relatively uneventful with markets steadily marching higher against a backdrop of subdued volatility. As we entered 2018 however investors grew increasingly concerned over a pickup in inflation and a heightened possibility of a faster pace of monetary tightening by the US Federal Reserve. Fears were raised over a potential trade war between the US and China after the US administration announced tariffs on steel and aluminium and a range of other Chinese imports. Despite these concerns, behind the scenes, economic fundamentals remain robust as data releases continued to point to healthy global economic growth and stable inflation. Companies reporting strong earnings reaffirmed the positive outlook for profitability and rising business investment intentions. Developed markets outperformed emerging markets, with US equities performing particularly well.

Tim Woodhouse
Investment Manager

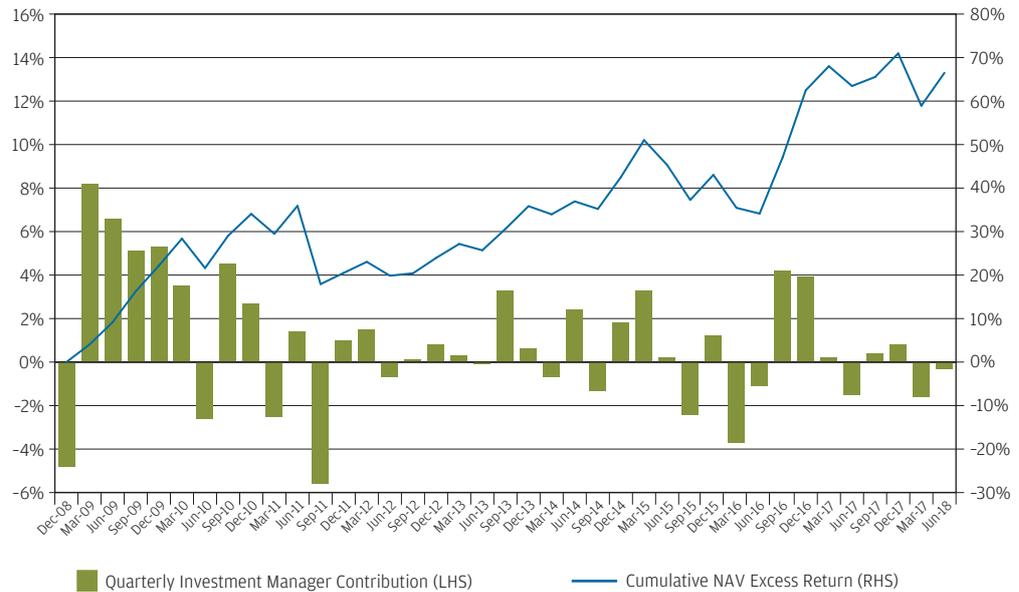

Portfolio Review

The trust underperformed the index over the year, with stock selection the primary driver. Of note were holdings in DISH Network, the US satellite-TV service provider, Outokumpu, the European stainless steel producer and Allergan, the US pharmaceutical company, which saw their share prices under pressure.

DISH reported disappointing results citing continued decline in pay television customers. However, the company's valuation is driven by their significant spectrum assets. With growing demand for these assets, we believe that DISH's spectrum value is significantly higher than that being reflected in the share price today. Shares in Outokumpu were impacted by the ongoing concerns around global trade tariffs, rising chrome prices and cautious company guidance. We continue to own the stock as Outokumpu is making good progress in cutting costs and the underlying outlook for stainless steel remains robust with growing demand. Shares in Allergan fell following a District Court ruling that opened the door for generic versions of their product, Restasis, in the treatment of dry eye. We believe Allergan offers great long-term earnings potential driven by the company's increasing focus on higher-growth treatments, such as medical Botox, and the strong pipeline of new products in development.

Positions in Ping An, the Chinese insurance company, DBS, the Singapore-based bank and UnitedHealth Group, the US health insurance provider were some of the strongest performers over the year. Ping An has been a key beneficiary of the rapidly increasing demand for financial products in developing Asia and following the strong performance we took profits, selling the shares. DBS reported positive trends in margins, loans, and provisions and doubled their annualised dividend. UnitedHealth Group reported strong sales over the year and we believe the company can sustain double-digit earnings growth.

Our positioning in technology continued to detract from performance as we remained underweight "FAANG" stocks (Facebook, Amazon, Apple, Netflix, Google) – only owning Google. Our view remains that while they are great businesses, they are certainly not cheap and represent an ebullience/momentum which frequently leads to derating and disappointment.

Source: JPMAM and Morningstar.

Portfolio positioning and outlook

Last summer we reduced gearing to zero given the risks after such a sustained bull run that the market was already pricing in the most favourable scenarios. We saw such a market correction at the end of January and into February this year, arguably later than many had expected, and have been introducing gearing back into the portfolio over recent months. The key question for the rest of this economic cycle remains the interplay between inflation, bond yields and the gradual reduction in monetary stimulus and how this will impact the economy, the shape of the yield curve and equity market. Currently a healthy environment for the global economy and corporate profits remains a favourable backdrop for equity markets.

Our focus remains on company-specific valuation signals derived from intensive company research and long term cash flow models. We remain vigilant in ensuring that our analyst estimates are as reflective as possible of the changing environment and look to seize opportunities which heightened market volatility can offer us as active stock pickers. We have not made any significant changes to the overall shape of the portfolio which remains pro-cyclically positioned with a bias towards higher beta. Regionally our bottom-up process continues to result in overweight exposure to Europe and the UK whereas North America is an area in which we are broadly neutral.

A glossary of terms and alternative performance measures is provided on pages 79 and 80.

Business Review

The aim of the Strategic Report is to provide shareholders with the ability to assess how the Directors have performed their duty to promote the success of the Company during the year under review. To assist shareholders with this assessment, the Strategic Report sets out the structure and objective of the Company, its investment policies and risk management, performance and key performance indicators, share capital, principal risks and how the Company seeks to manage those risks, the Company's environmental, social and ethical policy and its long term viability.

Structure of the Company

JPMorgan Global Growth & Income plc is an investment trust company that has a premium listing on the London Stock Exchange. With effect from 1st July 2014, JPMorgan Funds Limited ('JPMF' or the 'Manager'), an affiliate of JPMAM, has been appointed as the Company's Alternative Investment Fund Manager ('AIFM') to manage its assets and also to act as the Company Secretary. The Board has determined an investment policy and related guidelines and limits as described below.

The Company is subject to UK and European legislation and regulations including UK company law, Financial Reporting Standards, the UKLA Listing, Prospectus, Disclosure, Guidance and Transparency Rules, taxation law and the Company's own Articles of Association. The Company is an investment company within the meaning of Section 833 of the Companies Act 2006 and has been approved by HM Revenue & Customs as an investment trust (for the purposes of Sections 1158 and 1159 of the Corporation Tax Act 2010) for the year ended 30th June 2013 and future years. The Directors have no reason to believe that approval will not continue to be retained. The Company is not a close company for taxation purposes.

The Company is also listed on the New Zealand Stock Exchange.

Objective

The Company's objective is to achieve superior total returns from world stockmarkets.

Investment Policies and Risk Management

In order to achieve the investment objective and to seek to manage risk, the Company invests in a diversified portfolio of companies.

The Company manages liquidity and borrowings to increase potential sterling returns to shareholders; the Board has set a normal range of 5% net cash to 20% geared.

The Company's aim is to provide a diversified portfolio in which the Investment Manager has a high degree of conviction. At the

year end, the number of investments held was 83. To gain the appropriate exposure, the Investment Managers are permitted to invest in pooled funds. JPMAM is responsible for management of the Company's assets. On a day-to-day basis the assets are managed by an Investment Manager based in London, supported by a strong equity research team.

The Company has implemented a passive currency hedging strategy that aims to make stock selection the predominant driver of overall portfolio performance relative to the benchmark, the MSCI All Countries World Index (in sterling terms). This is a risk reduction measure, designed to eliminate most of the differences between the portfolio's currency exposure and that of the Company's benchmark. As a result, the returns derived from and the portfolio's exposure to currencies may materially differ from that of the Company's competitors who generally do not undertake such a strategy.

Investment Restrictions and Guidelines

The Board seeks to manage the Company's risk by imposing various investment limits and restrictions:

- In accordance with the Listing Rules of the UK Listing Authority ('UKLA'), the Company will not invest more than 15% of its gross assets in other UK listed investment companies and will not invest more than 10% of its gross assets in companies that themselves may invest more than 15% of gross assets in UK listed investment companies at the time of acquisition.
- The Company will not invest more than 5% of its total assets in any one individual stock at the time of acquisition. The aggregate of the Company's top 10 holdings and top 20 holdings will not exceed 30% and 50% respectively.
- The Company does not normally invest in unquoted investments and to do so requires prior Board approval.
- No more than 25% of the Company's assets may be invested in non-OECD countries.
- No more than 75% of the Company's assets in aggregate, may be invested in the US, Japan and the UK.
- The Company does not normally enter into derivative transactions, other than foreign currency transactions and to do so requires prior Board approval.

These limits and restrictions may be varied by the Board at any time at its discretion.

Compliance with the Board's investment restrictions and guidelines is monitored continuously by the Manager and is reported to the Board on a monthly basis.

Performance

In the year to 30th June 2018, the Company produced a total return to shareholders of +10.5% (2017: +51.2%) and a total return on net assets of +8.0% (2017: +29.0%). This compares with the total return on the Company's benchmark index of +8.9% (2017: +22.2%). As at 30th June 2018, the value of the Company's investment portfolio was £431.0 million (2017: £401.0 million). The Investment Manager's Report on pages 9 and 10 includes a review of developments during the year as well as information on investment activity within the Company's portfolio.

Total Return, Revenue and Dividends

Gross total return for the year amounted to £33.1 million (2017: £91.8 million) and net total return after deducting management fee, performance fee, other administrative expenses, finance costs and taxation, amounted to £30.8 million (2017: £86.4 million). Distributable income for the year amounted to £5.3 million (2017: £4.6 million).

As of 1st July 2016, the Company adopted a new distribution policy whereby at the start of each financial year the Company will announce the distribution it intends to pay to shareholders in the forthcoming year in quarterly instalments. In aggregate, the current intention is to pay dividends totalling at least 4% of the net asset value of the Company as at the end of the preceding financial year. These will be paid by way of four equal interim dividends in October, January, April and July. During the year, the Company has declared three interim dividends of 3.04p per share each. Together with the final dividend of 3.04p per share from the preceding financial year ended 30th June 2017, the four dividends will amount to 12.16p per share in total, which represents a yield of 4.0% of the net asset value as at 30th June 2017.

Key Performance Indicators ('KPIs')

The Board uses a number of financial KPIs to monitor and assess the performance of the Company. The principal KPIs are:

- Performance against the benchmark index (the MSCI All Countries World Index expressed in sterling terms)**
 This is the most important KPI by which performance is judged. Information on the Company's performance is given in the Chairman's Statement and the Investment Manager's Report. (Also please refer to the graphs on page 16).
- Performance against the Company's peers**
 The principal objective is to achieve total returns and out-performance relative to the benchmark. However, the Board also monitors the performance relative to a range of competitor funds.

- Performance attribution**

The purpose of performance attribution analysis is to assess how the Company achieved its performance relative to its benchmark index, i.e. to understand the impact on the Company's relative performance of the various components such as asset allocation and stock selection. Details of the attribution analysis for the year ended 30th June 2018 are given in the Chairman's Statement Report on page 6.

- Share price discount to net asset value ('NAV') per share**

The Board continues to operate a share repurchase policy which seeks to address imbalances in supply of and demand for the Company's shares within the market and thereby minimise the volatility and absolute level of the discount to NAV at which the Company's shares trade. Under this policy, the Company repurchases its shares with the aim of maintaining an average discount of around 5% or less with any borrowings valued at book value. In the year to 30th June 2018, the discount (based on the capital only NAV with debt at par value) ranged between 3.4% discount and 4.0% premium.

Discount Performance

Source: Morningstar (month end data).

— JPMorgan Global Growth & Income plc - capital NAV discount, debt at par value.

- Ongoing charges**

The Ongoing charges is an expression of the Company's management fee and all other operating expenses excluding finance costs and performance fee, expressed as a percentage of the average of the daily net assets during the year. The Ongoing charges excluding performance fee for the year ended 30th June 2018 was 0.56% (2017: 0.57%). The Ongoing charges including any performance fee payable is the ratio, expressed in percentage terms, of the management fee plus all other operating expenses plus any performance fee payable, but excluding finance costs, to the average of the daily net assets during the year. The Ongoing charges including performance fee payable for the year ended 30th June 2018 is 0.56% (2017: 0.57%). The Board reviews each year an analysis which shows a comparison of the

Company's Ongoing charges and its main expenses with those of its peers.

Share Capital

The Directors have authority to issue new Ordinary shares and to repurchase shares on behalf of the Company.

At 30th June 2018, the issued share capital comprised 154,905,500 Ordinary shares of 5 pence each, including 25,904,215 shares held in Treasury.

The Company reissued 5,340,000 shares from Treasury during the year. Since the year end, no shares have been reissued from Treasury.

No shares have been repurchased for cancellation or into Treasury during the year, or since the year end up to the date of this report.

Resolutions to renew the authority to issue new shares and repurchase shares will be put to shareholders at the forthcoming Annual General Meeting. The full text of these resolutions are set out in the Notice of Annual General Meeting on pages 76 and 77.

Board Diversity

When recruiting a new Director, the Board's policy is to appoint individuals on merit. Diversity is important in bringing an appropriate range of skills and experience to the Board and the Board is deemed to be diverse. At 30th June 2018, there were three male Directors and one female Director on the Board.

Employees, Social, Community and Human Rights Issues

The Company has a management contract with the Manager. It has no employees and all of its Directors are non-executive. The day to day activities are carried out by third parties. There are therefore no disclosures to be made in respect of employees. The Board notes the Manager's policy statements in respect of Social, Community and Environmental and Human Rights issues, as highlighted in italics:

The Manager believes that companies should act in a socially responsible manner. Although our priority at all times is the best economic interests of our clients, we recognise that, increasingly, non-financial issues such as social and environmental factors have the potential to impact the share price, as well as the reputation of companies. Specialists within the Manager's environmental, social and governance ('ESG') team are tasked with assessing how companies deal with and report on social and environmental risks and issues specific to their industry.

The Manager is also a signatory to the United Nations Principles of Responsible Investment, which commits participants to six

principles, with the aim of incorporating ESG criteria into their processes when making stock selection decisions and promoting ESG disclosure. Our detailed approach to how we implement the principles is available on request.

The Manager has implemented a policy which seeks to restrict investments in securities issued by companies that have been identified by an independent third party provider as being involved in the manufacture, production or supply of cluster munitions, depleted uranium ammunition and armour and/or anti-personnel mines. Shareholders can obtain further details on the policy by contacting the Manager.

Greenhouse Gas Emissions

The Company is managed by the Manager. It has no employees and all of its Directors are non-executive, the day to day activities being carried out by third parties. There are therefore no disclosures to be made in respect of employees. The Company itself has no premises, consumes no electricity, gas or diesel fuel and consequently does not have a measurable carbon footprint. The Company's Manager, is a signatory to the Carbon Disclosure Project and JPMorgan Chase is a signatory to the Equator Principles on managing social and environmental risk in project finance.

The Modern Slavery Act 2015 (the 'MSA')

The MSA requires companies to prepare a slavery and human trafficking statement for each financial year of the organisation. As the Company has no employees and does not supply goods and services, the MSA does not apply directly to it. The MSA requirements more appropriately relate to JPMF and JPMAM. JPMorgan's statement on the MSA can be found on the following website: <https://www.jpmorganchase.com/corporate/Corporate-Responsibility/document/modern-slavery-act.pdf>

Criminal Corporate Offence

The Company has zero tolerance for tax evasion. Shares in the Company are purchased through intermediaries or brokers, therefore no funds flow directly into the Company. As the Company has no employees, the Board's focus is to ensure that the risk of the Company's service providers facilitating tax evasion is also low. To this end it seeks assurance from its service providers that effective policies and procedures are in place to prevent this.

Principal Risks

The Directors confirm that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity.

With the assistance of the Manager, the Board has drawn up a risk matrix, which identifies the key risks to the Company. In assessing the risks and how they can be mitigated, the Board has given particular attention to those risks that might threaten the viability of the Company.

These key risks fall broadly under the following categories:

- **Investment and Strategy**

An inappropriate investment strategy, for example asset allocation or the level of gearing, may lead to under-performance against the Company's benchmark index and peer companies, resulting in the Company's shares trading on a wider discount. The Board manages these risks by diversification of investments through its investment restrictions and guidelines which are monitored and reported by the Manager. The Manager provides the Directors with timely and accurate management information, including performance data and attribution analyses, revenue estimates, liquidity reports and shareholder analyses. The Board monitors the implementation and results of the investment process with the Investment Manager, who attends all Board meetings, and reviews data which show statistical measures of the Company's risk profile. The Investment Manager employs the Company's gearing within a strategic range set by the Board. The Board may hold a separate meeting devoted to strategy each year.

- **Market**

Market risk arises from uncertainty about the future prices of the Company's investments. It represents the potential loss that the Company might suffer through holding investments in the face of negative market movements. The Board considers asset allocation, stock selection and levels of gearing on a regular basis and has set investment restrictions and guidelines, which are monitored and reported on by the Manager. The Board monitors the implementation and results of the investment process with the Manager.

- **Accounting, Legal and Regulatory**

In order to qualify as an investment trust, the Company must comply with Section 1158 of the Corporation Tax Act 2010 ('Section 1158'). Details of the Company's approval are given under 'Structure of the Company' within the Business Review section above. Were the Company to breach Section 1158, it might lose investment trust status and, as a consequence, gains within the Company's portfolio could be subject to Capital Gains Tax. The Section 1158 qualification criteria are continually monitored by the Manager and the results reported to the Board each month. The Company must also comply with the provisions of The Companies Act 2006 and, since its shares are listed on the London Stock Exchange, the UKLA Listing Rules and Disclosure, Guidance and

Transparency Rules ('DTRs'). A breach of the Companies Act 2006 could result in the Company and/or the Directors being fined or the subject of criminal proceedings. Breach of the UKLA Listing Rules or DTRs could result in the Company's shares being suspended from listing, which in turn would breach Section 1158. The Board relies on the services of its Company Secretary to ensure compliance with the Companies Acts and The UKLA Listing Rules and DTRs.

- **Corporate Governance and Shareholder Relations**

Details of the Company's compliance with Corporate Governance best practice, including information on relations with shareholders, are set out in the Corporate Governance report on pages 27 to 31.

- **Operational**

Loss of key staff by the Manager, such as the Investment Manager, could affect the performance of the Company. Disruption to, or failure of, the Manager's accounting, dealing or payments systems or the depositary's or custodian's records could prevent accurate reporting and monitoring of the Company's financial position. On 1st July 2014, the Company appointed the Bank of New York Mellon (International) Limited to act as the depositary, responsible for overseeing the operations of the custodian, JPMorgan Chase Bank, N.A., and the Company's cash flows. Details of how the Board monitors the services provided by the Manager and its associates and the key elements designed to provide effective internal control are included with the Risk Management and Internal Control section of the Corporate Governance report on pages 29 and 30. The threat of cyber attack, in all its guises, is regarded as at least as important as more traditional physical threats to business continuity and security. The Company benefits directly or indirectly from all elements of JPMorgan's Cyber Security programme. The information technology controls around the physical security of JPMorgan's data centres, security of its networks and security of its trading applications are tested by independent auditors and reported every six months against the AAF Standard.

- **Going concern**

Pursuant to the Sharman Report, Boards are now advised to consider going concern as a potential risk, whether or not there is an apparent issue arising in relation thereto. Going concern is considered rigorously on an ongoing basis and the Board's statement on going concern is detailed on page 29.

- **Financial**

The financial risks faced by the Company include market price risk, interest rate risk, liability risk and credit risk. Further details are disclosed in note 23 on pages 62 to 67.

Long Term Viability

Taking account of the Company's current position, the principal risks that it faces and their potential impact on its future development and prospects, the Directors have assessed the prospects of the Company, to the extent that they are able to do so, over the next five years. They have made that assessment by considering those principal risks, the Company's investment objective and strategy, the investment capabilities of the Manager and the current outlook for the global economies and equity markets.

In determining the appropriate period of assessment the Directors had regard to their view that, given the Company's objective of achieving long term total returns, shareholders should consider the Company as a long term investment proposition. Thus the Directors consider five years to be an appropriate time horizon to assess the Company's viability.

The Directors confirm that they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the five year period of assessment.

Directors' Report

BOARD OF DIRECTORS

Nigel Wightman†§ (Chairman of the Board and Nomination Committee)

A Director since September 2010.

Last reappointed to the Board: 2017.

Over 40 years experience in the international asset management industry, having held senior positions at a number of companies including NM Rothschild and State Street. He is the non-executive Chairman of Managed Pension Funds Limited and State Street Global Advisors Funds Management Limited. He also sits on the investment committees of several educational charities.

Shared directorships with other Directors: None.

Shareholding in Company: 60,000 Ordinary shares.

Gay Collins*†§ (Senior Independent Director)

A Director since February 2012.

Last reappointed to the Board: 2017.

Founding partner of Montfort Communications, a strategic and financial communications company. She has 30 years experience in PR and specialises in advising companies in the financial services space. Previous experience includes selling Eurobonds at Merrill Lynch and Dean Witter in London and New York.

Shared directorships with other Directors: None.

Shareholding in Company: 12,173 Ordinary shares.

Jonathan Carey*†§ (Chairman of the Remuneration Committee and Chairman of the Audit and Management Engagement Committee)

A Director since September 2009

Last reappointed to the Board: 2017.

Previously, chairman of Jupiter Investment Management Group Limited (formerly Jupiter International Group Plc), a position held since June 2007 until his retirement from the Group in December 2010. Prior to this he was the Joint Group Chief Executive of Jupiter Investment Management Group Limited, a position he held from May 2000. He is also a non-executive Director of WH Ireland Group plc and a Member of The Bank of New York Mellon (International) Limited's Depositary and Advisory Council.

Shared directorships with other Directors: None.

Shareholding in Company: 16,500 Ordinary shares.

Tristan Hillgarth*†§

A Director since November 2014.

Last reappointed to the Board: 2017.

Over 30 years of experience in the asset management industry having been a director of Jupiter Asset Management for eight years. Before that he was at Invesco where he held several senior positions over 14 years including CEO of Invesco's UK and European business. He is currently also a non-executive director of Euromoney Institutional Investor plc and a non-executive member of the Leverhulme Investment Committee.

Shared directorships with other Directors: None.

Shareholding in Company: 15,000 Ordinary shares.

* Member of the Audit Committee.

§ Member of the Nomination Committee.

† Member of the Remuneration Committee.

All Directors are considered independent of the Manager.

The Directors present their report and the audited financial statements for the year ended 30th June 2018. The Company changed its name from JPMorgan Overseas Investment Trust plc to JPMorgan Global Growth & Income plc on 8th July 2016.

Management of the Company

The Manager and Company Secretary is JPMorgan Funds Limited ('JPMF'), a company authorised and regulated by the FCA.

The active management of the Company's assets is delegated by JPMF to an affiliate, JPMorgan Asset Management (UK) Limited ('JPMAM').

The Manager is a wholly owned subsidiary of JPMorgan Chase Bank which, through other subsidiaries, also provides accounting, banking, dealing and custodian services to the Company.

The Manager is employed under a contract which can be terminated on six months' notice, without penalty. If the Company wishes to terminate the contract on shorter notice, the balance of remuneration is payable by way of compensation.

The Board conducts a formal evaluation of the Manager on an annual basis. The evaluation includes consideration of the investment strategy and process of the Manager, noting performance against the benchmark over the long term and the quality of the support that the Company receives from the Manager. As a result of the evaluation process, the Board confirms that it is satisfied that the continuing appointment of the Manager on the terms agreed is in the interests of the shareholders as a whole.

The Alternative Investment Fund Managers Directive ('AIFMD')

JPMF is the Company's alternative investment fund manager ('AIFM'). It is approved as an AIFM by the FCA. For the purposes of the AIFMD the Company is an alternative investment fund ('AIF').

JPMF has delegated responsibility for the day to day management of the Company's portfolio to JPMAM. The Company has appointed The Bank of New York (International) Limited ('BNY') as its depositary. BNY has appointed JPMorgan Chase Bank, N.A. as the Company's custodian. BNY is responsible for the oversight of the custody of the Company's assets and for monitoring its cash flows.

The AIFMD requires certain information to be made available to investors in AIFs before they invest and requires that material changes to this information be disclosed in the annual report of each AIF. An Investor Disclosure Document, which sets out information on the Company's investment strategy and policies, leverage, risk, liquidity, administration, management,

fees, conflicts of interest and other shareholder information is available on the Company's website at www.jpmglobalgrowthandincome.co.uk. There have been no material changes (other than those reflected in these financial statements) to this information requiring disclosure.

Any information requiring immediate disclosure pursuant to the AIFMD will be disclosed to the London Stock Exchange through a primary information provider.

JPMF's remuneration disclosures are set out on pages 70 and 71.

Management and Performance Fees

The management fee is charged at the rate of 0.4% per annum of the Company's assets less current liabilities. The terms of the management contract make allowance for the exclusion of management charges on investments held in funds on which the Manager earns a separate management fee.

A performance fee is payable if the total return attributable to shareholders (change in net asset value plus dividend) exceeds the total return of the Company's benchmark by more than 0.5%. The performance fee payable is 15% of any excess of the total return (excluding the effect of share repurchases) over the benchmark total return. Payment of any amount earned under the performance fee in any relevant period is spread equally over four years. Performance is measured on a cumulative basis. Any performance fee accrued but not paid is reduced by any underperformance in subsequent years. Any adjustment in respect of underperformance is deducted at the first opportunity from any amount accrued in respect of previous years' outperformance. The amount of any performance fee paid in any one year is capped at 0.8% of the published net assets of the Company at the end of the relevant period. Any excess is carried forward until paid in full (or offset against subsequent underperformance).

The results for the year ended 30th June 2018 gave rise to a performance fee write back of £692,352 (2017: write back of £3,709,891) as the total return underperformed the benchmark plus the hurdle of 0.5%. A performance fee of £nil (2017: £nil) will be payable this year and £692,352 was offset against the positive balance carried forward from the prior year. A balance of £1,246,393 (2017: negative balance £2,346,827) remains payable in future years but will first be reduced by any future underperformance.

Directors

The Directors of the Company who were in office during the year and up to the date of signing the financial statements are as detailed on page 24.

Details of Directors' beneficial shareholdings may be found in the Directors' Remuneration Report on page 35. No changes have been reported to the Directors' shareholdings since the year end.

In accordance with corporate governance best practice, all Directors will retire at the forthcoming Annual General Meeting and, being eligible, will offer themselves for reappointment by shareholders. The Nomination Committee, having considered their qualifications, performance and contribution to the Board and its committees, confirms that each Director continues to be effective and demonstrates commitment to the role, and the Board recommends to shareholders that they be re-elected.

Director Indemnification and Insurance

As permitted by the Company's Articles of Association, the Directors have the benefit of a deed of indemnity which is a qualifying third party indemnity, as defined by Section 234 of the Companies Act 2006. The indemnities were in place during the year and as at the date of this report.

An insurance policy is maintained by the Company which indemnifies the Directors of the Company against certain liabilities arising in the conduct of their duties. There is no cover against fraudulent or dishonest actions.

Disclosure of information to Auditors

In the case of each of the persons who are Directors of the Company at the time when this report was approved:

- (a) so far as each of the Directors is aware, there is no relevant audit information (as defined in the Companies Act 2006) of which the Company's Auditors are unaware; and
- (b) each of the Directors has taken all the steps that he ought to have taken as a Director in order to make himself aware of any relevant audit information and to establish that the Company's Auditors are aware of that information.

The above confirmation is given and should be interpreted in accordance with the provision of Section 418 of the Companies Act 2006.

Independent Auditors

PricewaterhouseCoopers LLP have expressed their willingness to continue in office as Auditors, and a resolution to reappoint them and authorise the Directors to determine their remuneration for the ensuing year will be proposed at the Annual General Meeting.

Capital Structure and Voting Rights

Capital Structure

The Company's capital structure is summarised on the inside front cover of this report. The Ordinary shares have a premium listing on the London Stock Exchange.

Voting Rights in the Company's shares

Details of the voting rights in the Company's shares as at the date of this report are given in note 16 to the Notice of Annual General Meeting on page 78.

Notifiable Interests in the Company's Voting Rights

At the financial year end the following had declared a notifiable interest in the Company's voting rights:

Shareholders	Number of shares held	%
Investec Wealth & Investment	5,598,360	4.34

The Company is also aware that approximately 9.9% of the Company's total voting rights are held by individuals through savings products managed by the Manager and registered in the name of Chase Nominees Limited. If those voting rights are not exercised by the beneficial holders, in accordance with the terms and conditions of the savings products, under certain circumstances the Manager has the right to exercise those voting rights. That right is subject to certain limits and restrictions and falls away at the conclusion of the relevant general meeting.

The rules concerning the appointment and replacement of Directors, amendment of the Articles of Association and powers to issue or buy back the Company's shares are contained in the Articles of Association of the Company and the Companies Act 2006.

There are no restrictions concerning the transfer of securities in the Company; no special rights with regard to control attached to securities; no agreements between holders of securities regarding their transfer known to the Company; no agreements which the Company is party to that affect its control following a takeover bid; and no agreements between the Company and its Directors concerning compensation for loss of office.

Listing Rule 9.8.4R

Listing Rule 9.8.4R requires the Company to include certain information in a single identifiable section of the Annual Report or a cross reference table indicating where the information is set out. The Directors confirm that there are no disclosures to be made in this regard.

Annual General Meeting

The notice covering the Annual General Meeting of the Company to be held on 31st October 2018 is given on pages 76 to 78. The full text of the Resolutions is set out in the notice of meeting.

Resolutions relating to the following items of special business will be proposed at the Annual General Meeting:

(i) Authority to increase the maximum aggregate Directors' fees (Resolution 9)

The Directors recommend that the maximum aggregate Directors' fees be increased from £150,000 to £200,000.

(ii) Authority to issue new shares for cash and disapply pre-emption rights (Resolutions 10 and 11)

The Directors will seek renewal of the authority at the AGM to issue up to 12,900,128 Ordinary shares for cash or sell shares held in Treasury other than by pro rata issue to existing Shareholders up to an aggregate nominal amount of £645,006, such amount being equivalent to approximately 10% of the present issued share capital. The full text of the resolutions is set out in the Notice of Annual General Meeting on page 76.

It is advantageous for the Company to be able to issue new shares to participants purchasing shares through the Manager's savings products and also to other investors when the Directors consider that it is in the best interests of shareholders to do so. Any such issues would only be made at prices greater than the NAV, thereby increasing the assets underlying each share and spreading the Company's administrative expenses, other than the management fee which is charged on the value of the Company's market capitalisation, over a greater number of shares. The issue proceeds would be available for investment in line with the Company's investment policies.

(iii) Authority to repurchase the Company's shares (Resolution 12)

The authority to repurchase up to 14.99% of the Company's issued share capital, granted by shareholders at the 2017 Annual General Meeting, will expire on 24th April 2019 unless renewed at the forthcoming Annual General Meeting. The Directors consider that the renewal of the authority is in the interests of shareholders as a whole, as the repurchase of shares at a discount to NAV enhances the NAV of the remaining shares. The Board will therefore seek shareholder approval at the Annual General Meeting to renew this authority, which will last until 30th April 2020 unless the authority is renewed at the AGM in 2019 or at a general meeting prior to that. The full text of the resolution is set out in the Notice of Annual General Meeting on pages 76 and 77. Repurchases will be made at the discretion of the Board and will only be made in the market at prices below the prevailing NAV per share, thereby enhancing the NAV of the remaining shares, as and when market conditions are appropriate.

Recommendation

The Board considers that resolutions 9-12 are likely to promote the success of the Company and are in the best interests of the Company and its shareholders as a whole. The Directors

unanimously recommend that you vote in favour of the resolutions as they intend to do in respect of their own beneficial holdings which amount in aggregate to 103,673 shares.

Corporate Governance Statement

Compliance

The Company is committed to high standards of corporate governance. This statement, together with the Statement of Directors' Responsibilities on page 37, indicates how the Company has applied the principles of good governance of the Financial Reporting Council UK Corporate Governance Code (the 'UK Corporate Governance Code') and the AIC's Code of Corporate Governance, (the 'AIC Code'), which complements the UK Corporate Governance Code and provides a framework of best practice for investment trusts.

The Board is responsible for ensuring the appropriate level of corporate governance and considers that the Company has complied with the best practice provisions of the UK Corporate Governance Code and the AIC Code throughout the year under review and up to the date of approval of the annual report and financial statements.

Role of the Board

A management agreement between the Company and the Manager sets out the matters over which the Manager has authority. This includes management of the Company's assets and the provision of accounting, company secretarial, administration, and some marketing services. All other matters are reserved for the approval of the Board. A formal schedule of matters reserved for Board decision has been approved. This includes determination and monitoring of the Company's investment objectives and policy and its future strategic direction, gearing policy, management of the capital structure, appointment and removal of third party service providers, review of key investment and financial data and the Company's corporate governance and risk control arrangements.

The Board has procedures in place to deal with potential conflicts of interest and, following the introduction of The Bribery Act 2010, has adopted appropriate procedures designed to prevent bribery. It confirms that the procedures have operated effectively during the year under review.

The Board meets at least quarterly during the year and additional meetings are arranged as necessary. Full and timely information is provided to the Board to enable it to function effectively and to allow Directors to discharge their responsibilities.

There is an agreed procedure for Directors to take independent professional advice if necessary and at the Company's expense. This is in addition to the access that every Director has to the

Corporate Governance Statement continued

advice and services of the Company Secretary, which is responsible to the Board for ensuring that Board procedures are followed and that applicable rules and regulations are complied with.

Board Composition

The Board, chaired by Nigel Wightman, consists of four non-executive Directors, all of whom are regarded by the Board as independent, including the Chairman. The Directors have a breadth of investment knowledge, business and financial skills and experience relevant to the Company's business and brief biographical details of each Director are set out on page 24. There have been no changes to the Chairman's other significant commitments during the year under review.

A review of Board composition and balance is included as part of the annual performance evaluation of the Board, details of which may be found below. Gay Collins, as the Senior Independent Director, leads the evaluation of the performance of the Chairman and he is available to shareholders if they have concerns that cannot be resolved through discussion with the Chairman.

Tenure

Directors are initially appointed until the following Annual General Meeting when, under the Company's Articles of Association, it is required that they be elected by shareholders. Thereafter, a Director's appointment is subject to the performance evaluation carried out each year and the approval of shareholders at each annual general meeting, in accordance with corporate governance best practice. The Board does not believe that length of service in itself necessarily disqualifies a Director from seeking re-election but, when making a recommendation, the Board will take into account the requirements of the UK Corporate Governance Code, including the need to refresh the Board and its Committees. The Board has adopted corporate governance best practice and all Directors will stand for annual re-election.

The terms and conditions of Directors' appointments are set out in formal letters of appointment, copies of which are available for inspection on request at the Company's registered office and at the Annual General Meeting.

Induction and Training

On appointment, the Manager and Company Secretary provide all Directors with induction training. Thereafter, regular briefings are provided on changes in law and regulatory requirements that affect the Company and the Directors. Directors are encouraged to attend industry and other seminars covering issues and developments relevant to investment trust companies. Regular reviews of the Directors' training needs are carried out by the Chairman by means of the evaluation process described below.

Meetings and Committees

The Board delegates certain responsibilities and functions to committees. Details of membership of Committees are shown with the Directors' profiles on page 24. Directors who are not members of Committees may attend at the invitation of the Chairman.

The table below details the number of Board and Committee meetings attended by each Director. During the year, there were four full Board meetings, two Audit and Management Engagement Committee meetings, one Nomination Committee meeting and one Remuneration Committee meeting.

Meetings Attended

Director	Board Meetings Attended	Audit and Management Engagement Committee Meetings Attended	Nomination Committee Meetings Attended	Remuneration Committee
Nigel Wightman ¹	4/4	2/2	1/1	1/1
Jonathan Carey	4/4	2/2	1/1	1/1
Gay Collins	4/4	2/2	1/1	1/1
Tristan Hillgarth	4/4	2/2	1/1	1/1

¹ Nigel Wightman attends the Audit and Management Engagement Committee meetings by invitation.

Board Committees

Nomination Committee

The Nomination Committee, chaired by Nigel Wightman, consists of all of the Directors and meets at least annually to ensure that the Board has an appropriate balance of skills and experience to carry out its fiduciary duties and to select and propose suitable candidates for appointment when necessary. A variety of sources, including the use of external search consultants, may be used to ensure that a wide range of candidates is considered.

The appointment process takes account of the benefits of diversity, including gender.

The Board's policy on diversity, including gender, is to take account of the benefits of these during the appointment process. However, the Board remains committed to appointing the most appropriate candidate, regardless of gender or other forms of diversity. Therefore, no targets have been set against which to report.

The Committee conducts an annual performance evaluation of the Board, its committees and individual Directors to ensure that all Directors have devoted sufficient time and contributed adequately to the work of the Board and its Committees. The evaluation of the Board considers the balance of experience, skills, independence, corporate knowledge, its diversity, including gender, and how it works together. Questionnaires, drawn up by

the Board, with the assistance of the Manager and a firm of independent consultants, are completed by each Director. The responses are collated and then discussed by the Committee. The evaluation of individual Directors is led by the Chairman. The Senior Independent Director leads the evaluation of the Chairman's performance.

Remuneration Committee

The Remuneration Committee, chaired by Jonathan Carey, consists of all of the Directors and meets at least annually to review Directors' fees and to make recommendations to the Board as and when appropriate in relation to remuneration policy.

Audit and Management Engagement Committee

The report of the Audit and Management Engagement Committee is set out on page 32.

Terms of Reference

The Audit and Management Engagement Committee, the Nomination Committee and the Remuneration Committee all have written terms of reference which define clearly their respective responsibilities, copies of which are available on the Company's website, on request at the Company's registered office and at the Company's Annual General Meeting.

Going Concern

The Directors believe that having considered the Company's investment objective (see page 18), risk management policies (see pages 62 to 67), capital management policies and procedures (see page 68), the nature of the portfolio and expenditure projections that the Company has adequate resources, an appropriate financial structure and suitable management arrangements in place to continue in operational existence for the foreseeable future. For these reasons, they consider that there is reasonable evidence to continue to adopt the going concern basis in preparing the financial statements. They have not identified any material uncertainties to the Company's ability to continue to do so over a period of at least 12 months from the date of approval of these financial statements.

Relations with Shareholders

The Board regularly monitors the shareholder profile of the Company. It aims to provide shareholders with a full understanding of the Company's activities and performance and reports formally to shareholders by way of the annual report and financial statements and the half year financial report. This is supplemented by the daily publication, through the London Stock Exchange and the New Zealand Stock Exchange, of the net asset value of the Company's shares.

All shareholders are encouraged to attend the Company's Annual General Meeting at which the Directors and representatives of the Manager are available in person to meet shareholders and answer their questions. In addition, a presentation is given by the Investment Manager who reviews the Company's performance. During the year the Company's brokers, the Investment Manager and the Manager hold regular discussions with larger shareholders. The Directors are made fully aware of their views. The Chairman and Directors make themselves available as and when required to address shareholder queries. The Directors may be contacted through the Company Secretary whose details are shown on page 83 or via the 'Ask a Question' link on the Company's website.

The Company's annual report and financial statements is published in time to give shareholders at least 20 working days' notice of the Annual General Meeting. Shareholders wishing to raise questions in advance of the meeting are encouraged to write to the Company Secretary at the address shown on page 83 or via the 'Ask a Question' link on the Company's website.

Details of the proxy voting position on each resolution will be published on the Company's website shortly after the Annual General Meeting.

Risk Management and Internal Control

The UK Corporate Governance Code requires the Directors, at least annually, to review the effectiveness of the Company's system of risk management and internal control and to report to shareholders that they have done so. This encompasses a review of all controls, which the Board has identified as including business, financial, operational, compliance and risk management.

The Directors are responsible for the Company's system of risk management and internal control which is designed to safeguard the Company's assets, maintain proper accounting records and ensure that financial information used within the business, or published, is reliable. However, such a system can only be designed to manage rather than eliminate the risk of failure to achieve business objectives and therefore can only provide reasonable, but not absolute, assurance against fraud, material misstatement or loss.

Since investment management, custody of assets and all administrative services are provided to the Company by the Manager and its associates, the Company's system of risk management and internal control mainly comprises monitoring the services provided by the Manager and its associates, including the operating controls established by them, to ensure that they meet the Company's business objectives. There is an ongoing process for identifying, evaluating and managing the significant risks faced by the Company (see Principal Risks on pages 20 and 21). This process

Corporate Governance Statement continued

has been in place for the year under review and up to the date of approval of the annual report and financial statements, and it accords with the Turnbull guidance. Whilst the Company does not have an internal audit function of its own, the Board considers that it is sufficient to rely on the internal audit department of the Manager. This arrangement is kept under review.

The key elements designed to provide effective internal control are as follows:

Financial Reporting - Regular and comprehensive review by the Board of key investment and financial data, including management accounts, revenue projections, analysis of transactions and performance comparisons.

- **Financial Reporting**

Regular and comprehensive review by the Board of key investment and financial data, including management accounts, revenue projections, analysis of transactions and performance comparisons.

- **Management Agreement**

Appointment of a manager and custodian or depositary regulated by the Financial Conduct Authority (FCA), whose responsibilities are clearly defined in a written agreement.

- **Management Systems**

The Manager's system of risk management and internal control includes organisational agreements which clearly define the lines of responsibility, delegated authority, control procedures and systems. These are monitored by the Manager's Compliance department which regularly monitors compliance with FCA rules.

- **Investment Strategy**

Authorisation and monitoring of the Company's investment strategy and exposure limits by the Board.

The Board either directly or through the Audit and Management Engagement Committee, keeps under review the effectiveness of the Company's system of risk management and internal control by monitoring the operation of the key operating controls of the Manager and its associates as follows:

- reviews the terms of the management agreement and receives regular reports from the Manager's Compliance department;
- reviews the reports on the risk management and internal controls and the operations of its custodian, JPMorgan Chase Bank, which is itself independently reviewed; and

- reviews every six months an independent report on the risk management and internal controls and the operations of the Manager.

By the means of the procedures set out above, the Board confirms that it has reviewed the effectiveness of the Company's system of risk management and internal control for the year ended 30th June 2018, and to the date of approval of this annual report and financial statements.

The Board confirms that any failings or weaknesses identified during the course of its review of the system of risk management and internal control were not significant and did not impact the Company.

Corporate Governance and Voting Policy

The Company delegates responsibility for voting to JPMAM through the Manager. A summary of the JPMAM's policy statements on corporate governance, voting policy and social and environmental issues is shown below, which has been reviewed and noted by the Board. Details on social and environmental issues are included in the Strategic Report on page 20.

New Zealand Listing

The Company is listed on the London Stock Exchange and the New Zealand Stock Exchange. The corporate governance rules and principles of the UK Listing Authority and London Stock Exchange may differ materially from the New Zealand Stock Exchange's corporate governance rules and the principles of the Corporate Governance Best Practice Code. Investors may find out more information about the corporate governance and principles applicable in the United Kingdom for the UK Listing Authority and London Stock Exchange websites: www.fca.org.uk/firms/markets/ukla and www.londonstockexchange.com

Corporate Governance

JPMAM believes that corporate governance is integral to our investment process. As part of our commitment to delivering superior investment performance to our clients, we expect and encourage the companies in which we invest to demonstrate the highest standards of corporate governance and best business practice. We examine the share structure and voting structure of the companies in which we invest, as well as the board balance, oversight functions and remuneration policy. These analyses then form the basis of our proxy voting and engagement activity.

Proxy Voting

The Manager manages the voting rights of the shares entrusted to it as it would manage any other asset. It is the policy of JPMAM to vote in a prudent and diligent manner, based exclusively on our reasonable judgement of what will best serve the financial interests of our clients. So far as is practicable, we will vote at all of the meetings called by companies in which we are invested.

Stewardship/Engagement

JPMAM recognises its wider FRC stewardship responsibilities to its clients as a major asset owner. To this end, we support the introduction of the FRC Stewardship Code, which sets out the responsibilities of institutional shareholders in respect of investee companies. Under the Code, managers should:

- publicly disclose their policy on how they will discharge their stewardship responsibilities to their clients;
- disclose their policy on managing conflicts of interest;
- monitor their investee companies;
- establish clear guidelines on how they escalate engagement;

- be willing to act collectively with other investors where appropriate;
- have a clear policy on proxy voting and disclose their voting record; and
- report to clients.

JPMAM endorses the FRC Stewardship Code for its UK investments and supports the principles as best practice elsewhere. We believe that regular contact with the companies in which we invest is central to our investment process and we also recognise the importance of being an 'active' owner on behalf of our clients.

Social & Environmental

JPMAM's Voting Policy and Corporate Governance Guidelines are available on request from the Company Secretary or can be downloaded from The JPMAM's website: <http://www.jpmorganinvestmenttrusts.co.uk/governance>, which also sets out its approach to the seven principles of the FRC Stewardship Code, its policy relating to conflicts of interest and its detailed voting record.

Audit and Management Engagement Committee Report

The Audit and Management Engagement Committee (the 'Committee') is chaired by Jonathan Carey. The membership is set out on page 24, and the Committee meets at least twice each year. The members of the Committee consider that they have the requisite skills and experience to fulfil the responsibilities of the Committee. For details of their qualifications, see page 24.

The Committee reviews the actions and judgements of the Manager in relation to the half year and annual report and financial statements and the Company's compliance with the UK Corporate Governance Code.

During its review of the Company's financial statements for the year ended 30th June 2018, the Audit Committee considered the following significant issues, including those communicated by the Auditors during their reporting:

Significant issue	How the issue was addressed
Valuation, existence and ownership of investments	The valuation of investments is undertaken in accordance with the accounting policies, disclosed in note 1 to the financial statements on page 50. Controls are in place to ensure that valuations are appropriate and existence is verified through Custodian reconciliations. The Board monitors significant movements in the underlying portfolio.
Calculation of management and performance fees	Consideration is given to the methodology used to calculate fees, matched against the criteria set out in the Investment Management Agreement. The Board considers the schedule of performance fees at each Board meeting.
Compliance with Sections 1158 and 1159	Approval for the Company as an investment trust under Sections 1158 and 1159 for financial years commencing on or after 1st July 2012 has been obtained and ongoing compliance with the eligibility criteria is monitored by the Board on a regular basis.
Recognition of investment income	The recognition of investment income is undertaken in accordance with accounting policy note 1(d) to the financial statements on page 50. The Board reviews elements of income such as special dividends and agrees their accounting treatment.

The Board was made fully aware of any significant financial reporting issues and judgements made in connection with the preparation of the financial statements.

Having taken all available information into consideration and having discussed the content of the annual report and financial statements with the AIFM, the Investment Manager, the Company Secretary and other third party service providers, the Committee has concluded that the Annual Report for the year ended 30th June 2018, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's position and performance,

business model and strategy, and has reported on these findings to the Board. The Board's conclusions in this respect are set out in the Statement of Directors' Responsibilities on page 37.

The Committee assesses the Company's ability to continue as a going concern and makes recommendations to the board to approve the going concern concept for preparation of the financial statements. The Directors' Statement on Going Concern is set out on page 29.

The Committee reviews the terms of the management agreement and examines the effectiveness of the Company's internal control systems, receives information from the Manager's Compliance department and reviews the scope and results of the external audit, its effectiveness and cost effectiveness and the independence and objectivity of the external auditors including the provision of non-audit services and the period of service held by the audit engagement partner. The Company's year ended 30th June 2018 is the current audit partner's fourth of a five year maximum term. The Committee has reviewed the independence and objectivity of the auditors of the Company and is satisfied that the auditors are independent. The Committee also has the primary responsibility for making recommendations to the Board on the reappointment and the removal of external auditors. The Committee also receives confirmations from the Auditors, as part of their reporting, in regard to their objectivity and independence. Representatives of the Company's auditors attend the Audit and Management Engagement Committee meeting at which the draft annual report and financial statements are considered. All non-audit work performed by the Auditors was put to the Committee for consideration and approval, regardless of size. The non-audit to audit fees ratio for the financial year ended 30th June 2018 was 0.5:1, no non-audit services were provided in the prior year. The non-audit fees were incurred for assurance services provided during the year in relation to the placing of loan notes. Having reviewed the performance of the external auditors including assessing the quality of work, timing of communications and work with the Manager, the Committee considered it appropriate to recommend their reappointment and the Board supported this recommendation which will be put to the Shareholders at this year's Annual General Meeting. The Committee is aware that, as PwC has been the audit firm for over 50 years, the EU regulations in relation to the statutory audits of EU listed companies will likely require the Company to change its audit firm by 2020. Details of the auditors' fees charged for audit services are disclosed in note 6 on page 54.

By order of the Board
Divya Amin,
for and on behalf of
JPMorgan Funds Limited, Secretary.

18th September 2018

DIRECTORS' REMUNERATION REPORT

The Board has prepared this report in accordance with the requirements of Section 421 of the Companies Act 2006 as amended.

The law requires the Company's Auditors to audit certain of the disclosures provided. Where disclosures have been audited, they are indicated as such. The Auditors' opinion is included in their report on pages 39 to 44.

Remuneration of the Directors is considered by the Nomination and Remuneration Committee on a regular basis. The Committee makes recommendations to the Board as and when appropriate.

Directors' Remuneration Policy

The Directors' Remuneration Policy is subject to a triennial binding vote, however, a decision has been taken to seek approval annually, and therefore an ordinary resolution to approve this policy will be put to shareholders at the forthcoming Annual General Meeting. The policy subject to the vote, is set out in full below and is currently in force.

The Board's policy for this and subsequent years is that Directors' fees should properly reflect the time spent by the Directors on the Company's business and should be at a level to ensure that candidates of a high calibre are recruited to the Board. The Chairman of the Board and the Chairman of the Audit and Management Engagement Committee are paid higher fees than the other Directors, reflecting the greater time commitment involved in fulfilling those roles.

The Remuneration Committee, comprising all Directors, reviews fees on a regular basis and makes recommendations to the Board as and when appropriate. Reviews are based on information provided by the Manager and industry research on the level of fees paid to the directors of the Company's peers and within the investment trust industry generally. The involvement of remuneration consultants has not been deemed necessary as part of this review. The Company has no Chief Executive Officer and no employees and therefore, no consultation of employees is required and there is no employee comparative data to provide in relation to the setting of the remuneration policy for Directors.

All of the Directors are non-executive. There are no performance-related elements to their fees and the Company does not operate any type of incentive, share scheme, award or pension scheme and therefore no Directors receive bonus payments or pension contributions from the Company or hold options to acquire shares in the Company. Directors are not granted exit payments and are not provided with compensation for loss of office. No other payments are made to Directors, other than the reimbursement of reasonable out-of-pocket expenses incurred in attending the Company's business.

In the year under review, Directors' fees were paid at the following rates: Chairman £39,000 per annum; Chairman of the

Audit and Management Engagement Committee £31,500 per annum; and, the other Directors £27,500 per annum.

The total Directors' fees of £125,500 (2017: £119,500) were all paid to Directors.

No amounts (2017: nil) were paid to third parties for making available the services of Directors.

The Company's Articles of Association stipulate that aggregate fees must not exceed £150,000 per annum. Any increase in this the maximum aggregate amount requires both Board and shareholder approval. At the forthcoming AGM, shareholders will be asked to approve an increase in the limit to £200,000 per annum in order to allow for any future fee increases and any potential temporary increase in Board size. There has been no changes in the maximum limit for over 20 years.

The Company has not sought shareholder views on its remuneration policy. The Nomination and Remuneration Committee considers any comments received from shareholders on remuneration policy on an ongoing basis and will take account of these views if appropriate.

The Directors do not have service contracts with the Company. The terms and conditions of Directors' appointments are set out in formal letters of appointment which are available for review at the Company's Annual General Meeting and the Company's registered office. Details of the Board's policy on tenure are set out on page 28.

The Company's Remuneration policy also applies to new Directors.

Directors' Remuneration Policy Implementation

The Directors' Remuneration Policy Report is subject to an annual advisory vote and therefore an ordinary resolution to approve this report will be put to shareholders at the forthcoming Annual General Meeting. There have been no changes to the policy compared with the year ended 30th June 2017 and no changes are proposed for the year ending 30th June 2019.

At the Annual General Meeting held on 25th October 2017, out of votes cast, 99.3% of votes cast were in favour of (or granted discretion to the Chairman who voted in favour of) the Resolutions to approve the Directors' Remuneration Policy and the Directors' Remuneration Report for the year ended 30th June 2017, and 0.7% voted against. Abstentions were received from less than 0.1% of the votes cast.

Details of voting on both the Remuneration Policy and the Directors' Remuneration Reports from the 2018 Annual General Meeting will be given in the annual report for the year ending 30th June 2019.

Details of the implementation of the Company's remuneration policy are given below. No advice from remuneration consultants was received during the year under review.

Single total figure of remuneration

The single total figure of remuneration for the Board as a whole for the year ended 30th June 2018 was £125,500. The single total figure of remuneration for each Director is detailed below together with the prior year comparative.

Single total figure table¹

	Total fees	
	2018 £	2017 £
Nigel Wightman (Chairman)	39,000	37,500
Jonathan Carey	31,500	30,000
Gay Collins	27,500	26,000
Tristan Hillgarth	27,500	26,000
Total	125,500	119,500

¹ Audited information. Other subject headings for the single figure table as prescribed by regulations are not included because there is nothing to disclose in relation thereto.

A table showing the total remuneration for the Chairman over the five years ended 30th June 2018 is below:

Remuneration for the Chairman over the five years ended 30th June 2018

Year ended 30th June	Fees	Performance related benefits received as a percentage of maximum payable ¹
2018	£39,000	n/a
2017	£37,500	n/a
2016	£36,000	n/a
2015	£35,000	n/a
2014	£34,500	n/a

¹ In respect of one year period and periods of more than one year.

A table showing actual expenditure by the Company on remuneration and distributions to shareholders for the year and the prior year is below:

Directors' Shareholdings¹

There are no requirements pursuant to the Company's Articles of Association for the Directors to own shares in the Company. The Directors' beneficial shareholdings are detailed below.

Directors' Name	2018 Number of shares held	2017 Number of shares held
Ordinary shares		
Jonathan Carey	16,500	16,500
Gay Collins	12,173	12,173
Tristan Hillgarth	15,000	15,000
Nigel Wightman	60,000	60,000

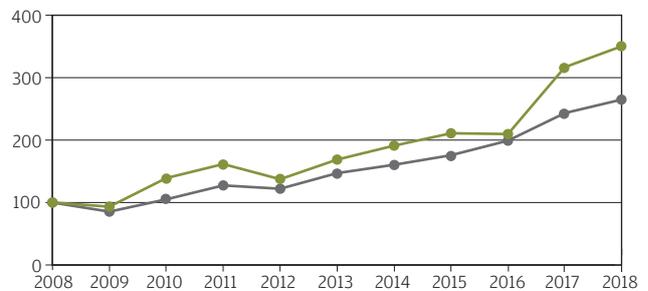

¹ Audited information.

As at the latest practicable date before the publication of this document, there have been no changes to the Directors' shareholdings.

The Directors have no other share interests or share options in the Company and no share schemes are available.

In accordance with the Companies Act 2006, a graph showing the Company's share price total return compared with its benchmark, the MSCI All Countries World Index expressed in sterling terms over the last ten years, is shown below. The Board believes that this index is the most representative comparator for the Company, because the Company's investment universe is defined at the time of purchase by the countries of the constituents of the MSCI All Countries World Index.

– by way of share repurchases	–	–

For and on behalf of the Board
Nigel Wightman
Chairman

18th September 2018

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law, the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under Company law the Directors must not approve the financial statements unless they are satisfied that, taken as a whole, the annual report and financial statements are fair, balanced and understandable, provide the information necessary for shareholders to assess the Company's performance, business model and strategy and that they give a true and fair view of the state of affairs of the Company and of the total return or loss of the Company for that period. In order to provide these confirmations, and in preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

and the Directors confirm that they have done so.

The Directors are responsible for keeping proper accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements are published on the www.jpmsglobalgrowthandincome.co.uk website, which is

maintained by the Company's Manager. The maintenance and integrity of the website maintained by the Manager is, so far as it relates to the Company, the responsibility of the Manager. The work carried out by the auditors does not involve consideration of the maintenance and integrity of this website and, accordingly, the auditor accepts no responsibility for any changes that have occurred to the financial statements since they were initially presented on the website. The financial statements are prepared in accordance with UK legislation, which may differ from legislation in other jurisdictions.

Under applicable law and regulations the Directors are also responsible for preparing a Directors' Report, Strategic Report and Directors' Remuneration Report that comply with that law and those regulations.

Each of the Directors, whose names and functions are listed on page 24 confirm that, to the best of their knowledge:

- the financial statements, which have been prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), give a true and fair view of the assets, liabilities, financial position and return or loss of the Company; and
- the Strategic Report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that it faces.

The Board confirms that it is satisfied that the annual report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's position and performance, business model and strategy.

For and on behalf of the Board
Nigel Wightman
Chairman

18th September 2018

To the members of JPMorgan Global Growth & Income plc

Report on the audit of the financial statements

Opinion

In our opinion, JPMorgan Global Growth & Income plc's financial statements:

- give a true and fair view of the state of the Company's affairs as at 30th June 2018 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the 'Annual Report'), which comprise: the statement of financial position as at 30th June 2018; the statement of comprehensive income, the statement of cash flows, the statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ('ISAs (UK)') and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company.

Other than those disclosed in note 6 to the financial statements, we have provided no non-audit services to the Company in the period from 1st July 2017 to 30th June 2018.

Our audit approach

Overview

- Overall materiality: £4.1 million (2017: £3.8 million), based on 1% of net assets.
- The Company is a standalone investment trust company and engages JPMorgan Funds Limited (the 'Manager') to manage its assets.
- We conducted our audit of the financial statements using information from JPMorgan Corporate & Investment Bank (the 'Administrator') to whom the Manager has, with the consent of the Directors, delegated the provision of certain administrative functions.
- We tailored the scope of our audit taking into account the types of investments within the Company, the involvement of the third parties referred to above, the accounting processes and controls, and the industry in which the Company operates.
- We obtained an understanding of the control environment in place at the Administrator, and adopted a fully substantive testing approach using reports obtained from the Administrator.
- Income from investments.
- Valuation and existence of investments.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain.

We gained an understanding of the legal and regulatory framework applicable to the Company and the industry in which it operates, and considered the risk of acts by the Company which were contrary to applicable laws and regulations, including fraud. We designed audit procedures to respond to the risk, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. We focused on laws and regulations that could give rise to a material misstatement in the Company's financial statements, including, but not limited to, UK Corporate Governance Code, Listing Rules, Companies Act 2006, section 1158 of the Corporation Tax Act 2010 and the Alternative Investment Fund Managers Directive (AIFMD). Our tests included, but were not limited to, review of the financial statement disclosures to underlying supporting documentation, enquiries with management and testing the Company's compliance with section 1158 in the current year. There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it.

We did not identify any key audit matters relating to irregularities, including fraud. As in all of our audits we also addressed the risk of management override of internal controls, including testing journals and evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter

How our audit addressed the key audit matter

Income from investments

Refer to page 32 (Directors' Report), page 50 (Accounting Policies) and pages 50 to 68 (Notes to the Financial Statements).

We focused on the accuracy and completeness of dividend income recognition and its presentation in the Statement of Comprehensive Income as set out in the requirements of The Association of Investment Companies Statement of Recommended Practice (the 'AIC SORP'). This is because incomplete or inaccurate income could have a material impact on the Company's net assets value.

We also focused on the accuracy and occurrence of realised and unrealised gains or losses on the investment portfolio.

We assessed the accounting policy for income recognition for compliance with accounting standards and the AIC SORP and performed testing to check that income had been accounted for in accordance with this stated accounting policy.

We found that the accounting policies implemented were in accordance with accounting standards and the AIC SORP, and that income has been accounted for in accordance with the stated accounting policy.

We tested the accuracy of dividend receipts by agreeing the dividend rates from investments to independent market data.

To test for completeness, we tested all investment holdings in the portfolio, to ensure that all dividends declared in the market by investment holdings had been recorded.

We tested occurrence by testing that all dividends recorded in the year had been declared in the market by investment holdings, and we traced a sample of dividends received to bank statements.

Key audit matter**How our audit addressed the key audit matter**

We tested the allocation and presentation of dividend income between the revenue and capital return columns in the Statement of Comprehensive Income in line with the requirements set out in the AIC SORP by determining reasons behind dividend distributions.

We also checked that the gains or losses on investments held at fair value comprise realised and unrealised gains or losses. We tested a sample of disposal proceeds to bank statements. For unrealised gains or losses, we tested the valuation of the portfolio at the year-end, and also tested the reconciliation of opening and closing investments.

Our testing did not identify any material misstatements.

Valuation and existence of investments

Refer to page 32 (Directors' Report), page 50 (Accounting Policies) and pages 50 to 68 (Notes to the Financial Statements).

The investment portfolio at the year-end principally comprised of listed equity investments. We focused on the valuation and existence of investments because investments represent the principal element of the net asset value as disclosed on the Statement of Financial Position in the financial statements.

We tested the valuation of the listed investment portfolio by agreeing the prices used in the valuation to independent third party sources.

We tested the existence of the investment portfolio by agreeing the holdings of investments to an independent custodian confirmation from JPMorgan Chase Bank, N.A. as at 30th June 2018.

Our testing did not identify any material misstatements.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

The Company's accounting is delegated to the Administrator who maintains the Company's accounting records and who has implemented controls over those accounting records.

We obtained our audit evidence from substantive tests. However, as part of our risk assessment, we understood and assessed the internal controls in place at the Administrator to the extent relevant to our audit. This assessment of the operating and accounting structure in place involved obtaining and analysing the relevant control reports issued by the independent service auditor of the Administrator in accordance with generally accepted assurance standards for such work. Following this assessment, we applied professional judgement to determine the extent of testing required over each balance in the financial statements.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Overall materiality	£4.1 million (2017: £3.8 million).
How we determined it	1% of net assets.
Rationale for benchmark applied	We applied this benchmark, which is a generally accepted auditing practice for investment trust audits.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £205,395 (2017: £187,638) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Going concern

In accordance with ISAs (UK) we report as follows:

Reporting obligation	Outcome
We are required to report if we have anything material to add or draw attention to in respect of the directors' statement in the financial statements about whether the directors considered it appropriate to adopt the going concern basis of accounting in preparing the financial statements and the directors' identification of any material uncertainties to the Company's ability to continue as a going concern over a period of at least twelve months from the date of approval of the financial statements.	We have nothing material to add or to draw attention to. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.
We are required to report if the directors' statement relating to Going Concern in accordance with Listing Rule 9.8.6R(3) is materially inconsistent with our knowledge obtained in the audit.	We have nothing to report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Companies Act 2006 (CA06), ISAs (UK) and the Listing Rules of the Financial Conduct Authority (FCA) require us also to report certain opinions and matters as described below (required by ISAs (UK) unless otherwise stated).

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 30th June 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements. (CA06)

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report. (CA06)

The directors' assessment of the prospects of the Company and of the principal risks that would threaten the solvency or liquidity of the Company

We have nothing material to add or draw attention to regarding:

- The directors' confirmation on page 20 of the Annual Report that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity.
- The disclosures in the Annual Report that describe those risks and explain how they are being managed or mitigated.
- The directors' explanation on page 22 of the Annual Report as to how they have assessed the prospects of the Company, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We have nothing to report having performed a review of the directors' statement that they have carried out a robust assessment of the principal risks facing the Company and statement in relation to the longer-term viability of the Company. Our review was substantially less in scope than an audit and only consisted of making inquiries and considering the directors' process supporting their statements; checking that the statements are in alignment with the relevant provisions of the UK Corporate Governance Code (the 'Code'); and considering whether the statements are consistent with the knowledge and understanding of the Company and its environment obtained in the course of the audit. (*Listing Rules*)

Other Code Provisions

We have nothing to report in respect of our responsibility to report when:

- The statement given by the directors, on page 37, that they consider the Annual Report taken as a whole to be fair, balanced and understandable, and provides the information necessary for the members to assess the Company's position and performance, business model and strategy is materially inconsistent with our knowledge of the Company obtained in the course of performing our audit.
- The section of the Annual Report on page 32 describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee.
- The directors' statement relating to the Company's compliance with the Code does not properly disclose a departure from a relevant provision of the Code specified, under the Listing Rules, for review by the auditors.

Directors' Remuneration

In our opinion, the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006. (*CA06*)

Responsibilities for the financial statements and the audit**Responsibilities of the directors for the financial statements**

As explained more fully in the Directors' Responsibilities Statement set out on page 37, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the audit committee, we were appointed by the directors in 1964 to audit the financial statements for the year ended 30th June 1965 and subsequent financial periods. The period of total uninterrupted engagement is 54 years, covering the years ended 30th June 1965 to 30th June 2018.

Alex Bertolotti (Senior Statutory Auditor)

Cash held in JPMorgan Sterling Liquidity Fund	7,244	5,844
Total	8,008	6,131

The notes on pages 50 to 68 form an integral part of these financial statements.

FOR THE YEAR ENDED 30TH JUNE 2018

1. Accounting policies

(a) Basis of accounting

The financial statements are prepared under the historical cost convention, modified to include fixed asset investments at fair value, and in accordance with the Companies Act 2006, United Kingdom Generally Accepted Accounting Practice ('UK GAAP'), including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' (the 'SORP') issued by the Association of Investment Companies in November 2014 and updated in February 2018.

All of the Company's operations are of a continuing nature.

The financial statements have been prepared on a going concern basis. The disclosures on going concern in the Directors' Report on page 29 form part of these financial statements.

The policies applied in these financial statements are consistent with those applied in the preceding year.

(b) Valuation of investments

The Company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

The Company's business is investing in financial assets with a view to profiting from their total return in the form of income and capital growth. The portfolio of financial assets is managed and its performance evaluated on a fair value basis, in accordance with a documented investment strategy and information is provided internally on that basis to the Company's Board of Directors.

Accordingly, upon initial recognition the investments are designated by the Company as 'held at fair value through profit or loss'. They are included initially at fair value which is taken to be their cost, excluding expenses incidental to purchase which are written off to capital at the time of acquisition. Subsequently the investments are valued at fair value, which are quoted bid prices for investments traded in active markets. For investments which are not traded in active markets, unlisted and restricted investments, the Board takes into account the latest traded prices, other observable market data and asset values based on the latest management accounts.

All purchases and sales are accounted for on a trade date basis.

(c) Accounting for reserves

Gains and losses on sales of investments including the related foreign exchange gains and losses, realised gains and losses on foreign currency contracts, any performance fee realised, management fee and finance costs allocated to capital and any other capital charges, are included in the Statement of Comprehensive Income and dealt with in capital reserves within 'Gains and losses on sales of investments'.

The cost of repurchasing ordinary shares including stamp duty and transaction costs are included in the Statement of Changes in Equity and dealt with in capital reserves within 'Gains and losses on sales of investments'.

Increases and decreases in the valuation of investments held at the year end including the related foreign exchange gains and losses, are included in the Statement of Comprehensive Income and dealt with in capital reserves within 'Investment holding gains and losses'. Unrealised gains and losses on foreign currency contracts and any performance fee provision, are included in the Statement of Comprehensive Income and dealt with in capital reserves within the 'unrealised reserve'.

(d) Income

Dividends receivable from equity shares are included in revenue on an ex-dividend basis except where, in the opinion of the Board, the dividend is capital in nature, in which case it is included in capital.

Overseas dividends are included gross of any withholding tax.

Special dividends are looked at individually to ascertain the reason behind the payment. This will determine whether they are treated as revenue or capital.

Where the Company has elected to receive scrip dividends in the form of additional shares rather than in cash, the amount of the cash dividend foregone is recognised in revenue. Any excess in the value of the shares received over the amount of the cash dividend is recognised in capital.

Deposit interest receivable is taken to revenue on an accruals basis.

Stock lending income is taken to revenue on a receipts basis.

(e) Expenses

All expenses are accounted for on an accruals basis. Expenses are allocated wholly to revenue with the following exceptions:

- performance fee is allocated 100% to capital;
- management fee is allocated 50% to revenue and 50% to capital in line with the Board's expected long term split of revenue and capital return from the Company's investment portfolio;
- expenses incidental to the purchase and sale of an investment are charged to capital. These expenses are commonly referred to as transaction costs and comprise stamp duty and brokerage commissions. Details of transaction costs are given in note 11 on page 57; and
- expenses incidental to the issuance of the £30 million loan notes are charged to capital.

(f) Finance costs

Finance costs are accounted for on an accruals basis using the effective interest method.

Finance costs are allocated 50% to revenue and 50% to capital, in line with the Board's expected long term split of revenue and capital return from the Company's investment portfolio.

(g) Financial instruments

Cash and cash equivalents may comprise cash including demand deposits which are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value. Liquidity funds are considered cash equivalents as they are held for cash management purposes as an alternative to cash.

Other debtors and creditors do not carry any interest, are short term in nature and are accordingly stated at nominal value, with debtors reduced by appropriate allowances for estimated irrecoverable amounts.

Bank loans and debentures are classified as financial liabilities at amortised cost. They are initially measured at proceeds net of direct issue costs and subsequently measured at amortised cost. Interest payable on bank loans is accounted for on an accruals basis in the Statement of Comprehensive Income. The amortisation of direct issue costs are accounted for on an accruals basis in the Statement of Comprehensive Income using the effective interest method.

Derivative financial instruments, including short term forward currency contracts are classified as 'held for trading' and are valued at fair value, which is the net unrealised gain or loss, and are included in current assets or current liabilities in the Statement of Financial Position. Changes in the fair value of derivative financial instruments are recognised in the Statement of Comprehensive Income as capital.

(h) Taxation

Current tax is provided at the amounts expected to be paid or received.

Deferred tax is provided on all timing differences that have originated but not reversed by the balance sheet date. Deferred tax liabilities are recognised for all taxable timing differences but deferred tax assets are only recognised to the extent that it is more likely than not that taxable profits will be available against which those timing differences can be utilised.

Deferred tax is measured at the tax rate which is expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates that have been enacted or substantively enacted at the balance sheet date and is measured on an undiscounted basis.

(i) Value Added Tax ('VAT')

Expenses are disclosed inclusive of the related irrecoverable VAT. Recoverable VAT is calculated using the partial exemption method based on the proportion of zero rated supplies to total supplies.

1. Accounting policies *continued*

(j) Foreign currency

The Company is required to identify its functional currency, being the currency of the primary economic environment in which the Company operates.

The Board, having regard to the currency of the Company's share capital and the predominant currency in which its shareholders operate, has determined that sterling is the functional currency. Sterling is also the currency in which the financial statements are presented.

Transactions denominated in foreign currencies are converted at actual exchange rates at the date of the transaction. Monetary assets, liabilities and equity investments held at fair value, denominated in foreign currencies at the year end are translated at the rates of exchange prevailing at the year end.

Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included in the Statement of Comprehensive Income as an exchange gain or loss in revenue or capital, depending on whether the gain or loss is of a revenue or capital nature.

(k) Dividends payable

Dividends are included in the financial statements in the year in which they are approved by shareholders.

(l) Performance fee

Any performance fee falling due for payment immediately is included in 'Creditors: amounts falling due within one year'.

Amounts which are carried forward for payment in future years but are subject to reduction by any future underperformance are included in 'Provisions for liabilities and charges', and dealt with in capital reserves within the 'unrealised reserve'.

(m) Repurchase of shares into Treasury

The cost of repurchasing ordinary shares including the related stamp duty and transactions costs is charged to capital reserves and dealt with in the Statement of Changes in Equity. Share repurchase transactions are accounted for on a trade date basis. Where shares held in Treasury are subsequently cancelled, the nominal value of those shares is transferred out of called up share capital and into the capital redemption reserve.

Should shares held in Treasury be reissued, the sales proceeds will be treated as a realised capital profit up to the amount of the purchase price of those shares and will be transferred to capital reserves. The excess of the sales proceeds over the purchase price will be transferred to share premium.

2. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements on occasion requires the Directors to make judgements, estimates and assumptions that affect the reported amounts in the primary financial statements and the accompanying disclosures. These assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in the current and future periods, depending on circumstance.

The Directors do not believe that any significant accounting judgements or estimates have been applied to this set of financial statements, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

3. Gains on investments held at fair value through profit or loss

	2018 £'000	2017 £'000
Gains on investments held at fair value through profit or loss based on historical cost	44,378	59,814
Amounts recognised in investment holding gains and losses in the previous year in respect of investments sold during the year	(34,281)	(20,830)
Gains on sales of investments based on the carrying value at the previous balance sheet date	10,097	38,984
Net movement in investment holding gains and losses	17,325	45,060
Other capital charges	(20)	(29)

8. Taxation

(a) Analysis of tax charge in the year

	Revenue £'000	2018 Capital £'000	Total £'000	Revenue £'000	2017 Capital £'000	Total £'000
Overseas withholding tax	599	–	599	684	–	684
Total tax charge for the year	599	–	599	684	–	684

(b) Factors affecting total tax charge for the year

The total tax charge for the year is lower (2017: lower) than the UK corporation tax rate applicable for the year of 19.00% (2017: 19.75%). The factors affecting the current tax charge for the year are as follows:

	Revenue £'000	2018 Capital £'000	Total £'000	Revenue £'000	2017 Capital £'000	Total £'000
Net return on ordinary activities before taxation	5,941	25,413	31,354	5,308	81,808	87,116
Net return on ordinary activities before taxation multiplied by the applicable rate of corporation tax of 19.00% (2017: 19.75%)	1,129	4,828	5,957	1,048	16,157	17,205
Effects of:						
Non taxable capital gains	–	(4,836)	(4,836)	–	(16,801)	(16,801)
Non taxable UK dividends	(152)	–	(152)	(221)	–	(221)
Non taxable overseas dividends	(1,219)	–	(1,219)	(1,080)	–	(1,080)
Overseas withholding tax	599	–	599	684	–	684
Income taxed in different years	(35)	–	(35)	(4)	–	(4)
DTR expensed	(2)	–	(2)	(12)	–	(12)
Unrelieved expenses	279	8	287	269	644	913
Total tax charge for the year	599	–	599	684	–	684

(c) Deferred taxation

The Company has an unrecognised deferred tax asset of £4,706,000 (2017: £4,411,000) based on a prospective corporation tax rate of 17% (2017: 17%). The UK corporation tax rate is enacted to fall to 17% effective on 1st April 2020. The deferred tax asset has arisen due to the cumulative excess of deductible expenses over taxable income. Given the composition of the Company's portfolio, it is not likely that this asset will be utilised in the foreseeable future and therefore no asset has been recognised in the financial statements.

Given the Company's status as an investment trust company and the intention to continue meeting the conditions required to obtain approval, the Company has not provided for deferred tax on any capital gains or losses arising on the revaluation or disposal of investments.

9. Return per share

	2018 £'000	2017 £'000
Revenue return	5,342	4,624
Capital return	25,413	81,808
Total return	30,755	86,432
Weighted average number of shares in issue	126,044,353	123,661,285
Revenue return per share	4.24p	3.74p
Capital return per share	20.16p	66.15p
Total return per share	24.40p	69.89p

10. Dividends
(a) Dividends paid and declared

	2018 £'000	2017 £'000
Dividends paid		
Unclaimed dividends refunded to the Company	(21)	–
2017 third interim dividend of 2.20p (2016 final: 3.20p)	2,721	3,957
2018 first interim dividend of 3.04p (2017: 2.20p)	3,765	2,721
2018 second interim dividend of 3.04p (2017: 2.20p)	3,798	2,721
2018 third interim dividend of 3.04p	3,891	–
Total dividends paid in the year	14,154	9,399
Dividend declared		
2018 fourth interim dividend of 3.04p (2017 third interim: 2.20p)	3,922	2,721

The fourth interim dividend of 3.04p has been declared and was paid on 6th July 2018 for the financial year ending 30th June 2018. In accordance with the accounting policy of the Company, this dividend will be reflected in the financial statements for the year ending 30th June 2019.

(b) Dividend for the purposes of Section 1158 of the Corporation Tax Act 2010 ('Section 1158')

The requirements of Section 1158 are considered on the basis of dividends declared in respect of the financial year, shown below. The revenue available for distribution by way of dividend for the year is £5,342,000 (2017: £4,624,000). The revenue reserve after payment of the fourth interim dividend (2017: third interim) will amount to £nil (2017: £9,674,000) and the remaining amount has been drawn from the capital reserve.

	2018 £'000	2017 £'000
2018 first interim dividend of 3.04p (2017: 2.20p)	3,765	2,721
2018 second interim dividend of 3.04p (2017: 2.20p)	3,798	2,721
2018 third interim dividend of 3.04p (2017: 2.20p)	3,891	2,721
2018 fourth interim dividend of 3.04p	3,922	–
	15,376	8,163

All dividends paid in the period have been funded from the revenue reserve. The dividend proposed at the year end will be funded from both the revenue and capital reserves.

11. Investments

	2018 £'000	2017 £'000
Investments listed on a recognised stock exchange	431,001	400,972
Opening book cost	327,407	259,990
Opening investment holding gains	73,565	49,335
Opening valuation	400,972	309,325
Movements in the year:		
Purchases at cost	300,548	287,802
Sales proceeds	(297,941)	(280,199)
Gains on sales of investments based on the carrying value at the previous balance sheet date	10,097	38,984
Net movement in investment holding gains and losses	17,325	45,060
	431,001	400,972
Closing book cost	374,392	327,407
Closing investment holding gains	56,609	73,565
Total investments held at fair value through profit or loss	431,001	400,972

Transaction costs on purchases during the year amounted to £318,000 (2017: £399,000) and on sales during the year amounted to £157,000 (2017: £179,000). These costs comprise mainly brokerage commission.

During the year, prior year investment holding gains amounting to £34,281,000 have been transferred to gains on sales of investments as disclosed in note 17.

12. Current assets

	2018 £'000	2017 £'000
Derivative financial assets		
Forward foreign currency contracts	4,156	2,037
	2018 £'000	2017 £'000
Debtors		
Securities sold awaiting settlement	322	1,323
Dividends and interest receivable	540	695
Overseas withholding tax recoverable	291	194
Other debtors	199	38
	1,352	2,250

The Directors consider that the carrying amount of debtors approximates to their fair value.

Cash and cash equivalents

Cash and cash equivalents comprise bank balances, short term deposits and liquidity funds. The carrying amount of these represents their fair value.

13. Current liabilities

	2018 £'000	2017 £'000
Creditors: amounts falling due within one year		
Securities purchased awaiting settlement	248	1,577
Loan interest payable	417	66
Other creditors and accruals	167	153
	832	1,796

The Directors consider that the carrying amount of creditors falling due within one year approximates to their fair value.

	2018 £'000	2017 £'000
Derivative financial liabilities		
Forward foreign currency contracts	1,629	4,863

14. Creditors: amounts falling due after more than one year

	2018 £'000	2017 £'000
£30 million 2.93% unsecured loan notes	29,820	–
£200,000 4.5% perpetual debenture	200	200
Bank loan	–	25,000
	30,020	25,200

On 9th January 2018, the Company issued £30 million fixed rate 30 year unsecured loan notes at an annual coupon of 2.93% which will expire on 9th January 2048. This replaced the £25 million three year revolving credit facility with NAB which expired on 10th July 2018.

The debenture is redeemable and secured by a floating charge over the assets of the Company.

15. Provisions for liabilities and charges

	2018 £'000	2017 £'000
Performance fee payable		
Opening balance	2,347	–
Performance fee (writeback)/charge for the year	(1,101)	2,347
Closing balance	1,246	2,347

Further details of the performance fee are given in the Director's Report on page 25.

16. Called up share capital

	2018 £'000	2017 £'000
Allotted and fully paid share capital:		
Ordinary shares		
Opening balance of 123,661,285 (2017: 123,661,285) Ordinary shares of 5p each excluding shares held in Treasury	6,184	6,184
Issue of 5,340,000 (2017: nil) shares from Treasury	267	–
Subtotal of 129,001,285 (2017: 123,661,285) Ordinary shares of 5p each excluding shares held in Treasury	6,451	6,184
25,904,215 (2017: 31,244,215) shares held in Treasury	1,295	1,562
Closing balance of 154,905,500 (2017: 154,905,500) Ordinary shares including shares held in Treasury	7,746	7,746

Further details of transactions in the Company's shares are given in the Business Review on page 20.

17. Capital and reserves

	Called up share capital £'000	Share premium £'000	Capital redemption reserve £'000	Capital reserves ¹			Revenue reserve ¹ £'000	Total £'000
				Gains and losses on sales of investments £'000	Investment holding gains and losses £'000	Unrealised reserve £'000		
Opening balance	7,746	46,670	27,401	214,580	73,565	(5,173)	12,395	377,184
Net losses on foreign currency transactions	–	–	–	(4,475)	–	–	–	(4,475)
Unrealised gains on foreign currency contracts	–	–	–	–	–	2,527	–	2,527
Unrealised losses on forward foreign currency contracts from prior period now realised	–	–	–	(2,826)	–	2,826	–	–
Gains on sales of investments based on the carrying value at the previous balance sheet date	–	–	–	10,097	–	–	–	10,097
Net movement in investment holding gains and losses	–	–	–	–	17,325	–	–	17,325
Transfer on disposal of investments	–	–	–	34,281	(34,281)	–	–	–
Performance fee writeback for the year	–	–	–	–	–	1,101	–	1,101
Issue of shares from Treasury	–	7,306	–	9,699	–	–	–	17,005
Management fee charged to capital	–	–	–	(832)	–	–	–	(832)
Finance cost charged to capital	–	–	–	(292)	–	–	–	(292)
Other capital administrative expenses	–	–	–	(18)	–	–	–	(18)
Other capital charges	–	–	–	(20)	–	–	–	(20)
Dividends paid in the year	–	–	–	–	–	–	(14,154)	(14,154)
Retained revenue for the year	–	–	–	–	–	–	5,342	5,342
Closing balance	7,746	53,976	27,401	260,194	56,609	1,281	3,583	410,790

¹ These reserves form the distributable reserves of the Company and may be used to fund distribution of profits to investors via dividend payments.

18. Net asset value per share

	2018	2017
Net assets (£'000)	410,790	377,184
Number of Ordinary shares in issue	129,001,285	123,661,285
Net asset value per share	318.4p	305.0p

19. Reconciliation of net return on ordinary activities before finance costs and taxation to net cash outflow from operations before dividends and interest

	2018	2017
Net return on ordinary activities before finance costs and taxation	31,938	87,440
Less: capital return on ordinary activities before finance costs and taxation	(25,705)	(81,970)
(Increase)/decrease in accrued income and other debtors	(6)	73
Increase in accrued expenses	–	42
Management fee charged to capital	(832)	(749)
Overseas withholding tax	(726)	(844)
Dividends received	(6,916)	(5,929)
Interest received	(83)	(45)
Realised gains on foreign exchange transactions	103	331
Net cash outflow from operations before dividends and interest	(2,227)	(1,651)

20. Contingent liabilities and capital commitments

At the balance sheet date there were no contingent liabilities or capital commitments (2017: nil). At the 2017 year end there was a contingent asset, InterOil Contingent Resource Payment ('CRP'), which was part of the consideration for the acquisition of InterOil by ExxonMobil in February 2017. On 22nd September 2017 ExxonMobil issued a letter to shareholders stating that CRP holders will receive US\$5.01 per share of InterOil. The Company held 178,413 shares and was thus entitled to US\$895,000. The Company received this payment on 27th September 2017. This equated to £669,000.

21. Transactions with the Manager and related parties

Details of the management contract are set out in the Directors' Report on page 25. The management fee payable to the Manager for the year was £1,664,000 (2017: £1,498,000) of which £nil (2017: £nil) was outstanding at the year end.

A performance fee writeback of £1,101,000 (2017: £2,347,000 charge) is applicable for the year and £nil (2017: £nil) is immediately payable. An amount £1,246,000 (2017: £2,347,000) is carried forward and will either be paid or absorbed by underperformance in subsequent years.

During the year £19,000 (2017: £75,000) was payable to the Manager for administration of savings scheme products, of which £27,000 (2017: £21,000) was outstanding at the year end.

Included in administration expenses in note 6 on page 54 are safe custody fees amounting to £25,000 (2017: £23,000) payable to JPMorgan Chase Bank, N.A. of which £9,000 (2017: £6,000) was outstanding at the year end.

The Manager may carry out some of its dealing transactions through group subsidiaries. These transactions are carried out at arm's length. Commission amounting to £1,000 (2017: £17,000) was payable to JPMorgan Securities Limited for the year of which £nil (2017: £nil) was outstanding at the year end.

Handling charges on dealing transactions amounting to £19,000 (2017: £29,000) were payable to JPMorgan Chase Bank, N.A. during the year of which £6,000 (2017: £10,000) was outstanding at the year end.

The Company holds investments in trusts managed by JPMF. At 30th June 2018 these were valued at £6.3 million (2017: £5.9 million) and represented 1.5% (2017: 1.5%) of the Company's investment portfolio. During the year, the Company made £nil

(2017: £nil) purchases of these investments and £nil (2017: £69,000) sales. Income amounting to £nil (2017: £nil) was receivable from these investments during the year of which £nil (2017: £nil) was outstanding at the year end.

The Company also holds cash in the JPMorgan Sterling Liquidity Fund, which is managed by JPMF. At the year end this was valued at £7.2 million (2017: £5.8 million). Interest amounting to £85,000 (2017: £45,000) was receivable during the year of which £nil (2017: £nil) was outstanding at the year end.

Fees amounting to £28,000 (2017: £20,000) were receivable from stock lending transactions during the year. JPMorgan Chase Bank, N.A. commissions in respect of such transactions amounted to £5,000 (2017: £3,000).

At the year end, total cash of £764,000 (2017: £287,000) was held with JPMorgan Chase Bank, N.A. A net amount of interest of £2,306 (2017: £309) was receivable by the Company during the year of which £7 (2017: £13) was outstanding at the year end.

Full details of Directors' remuneration and shareholdings can be found on page 35 and in note 6 on page 54.

22. Disclosures regarding financial instruments measured at fair value

The fair value hierarchy disclosures required by FRS 102 are given below.

The Company's financial instruments within the scope of FRS 102 that are held at fair value comprise its investment portfolio.

The investments are categorised into a hierarchy consisting of the following three levels:

(1) The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date

The best evidence of fair value is a quoted price for an identical asset in an active market. Quoted in an active market in this context means quoted prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted price is usually the current bid price.

(2) Inputs other than quoted prices included within Level 1 that are observable (i.e.: developed using market data) for the asset or liability, either directly or indirectly

When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the entity can demonstrate that the last transaction price is not a good estimate of fair value (e.g. because it reflects the amount that an entity would receive or pay in a forced transaction, involuntary liquidation or distress sale), that price is adjusted.

(3) Inputs are unobservable (i.e.: for which market data is unavailable) for the asset or liability

If the market for the asset is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, an entity estimates the fair value by using a valuation technique. The objective of using a valuation technique is to estimate what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Categorisation within the hierarchy has been determined on the basis of the lowest level input that is significant to the fair value measurement of the relevant asset.

Details of the valuation techniques used by the Company are given in note 1(b) on page 50.

The following table sets out the fair value measurements using the FRS 102 hierarchy at 30th June.

	2018		2017	
	Assets £'000	Liabilities £'000	Assets £'000	Liabilities £'000
Level 1	431,001	–	400,972	–
Level 2 ¹	4,156	(1,629)	2,037	(4,863)
Total	435,157	(1,629)	403,009	(4,863)

¹ Forward foreign currency contracts.

There were no transfers between Level 1, 2 or 3 during the year (2017: nil).

23. Financial instruments' exposure to risk and risk management policies

As an investment trust, the Company invests in equities and other securities for the long term in order to secure its investment objective stated on the 'Features' page. In pursuing this objective, the Company is exposed to a variety of financial risks that could result in a reduction in the Company's net assets or a reduction in the profits available for dividends.

These financial risks include market risk (comprising currency risk, interest rate risk and other price risk), liquidity risk and credit risk.

The Directors' policy for managing these risks is set out below. The Company Secretary, in close cooperation with the Board and the Manager, coordinates the Company's risk management policy.

The objectives, policies and processes for managing the risks and the methods used to measure the risks that are set out below, have not changed from those applying in the comparative year.

The Company's classes of financial instruments are as follows:

- investments in equity shares of overseas companies, which are held in accordance with the Company's investment objective;
- cash held within a liquidity fund;
- short term debtors, creditors and cash arising directly from its operations;
- forward currency contracts which are bought and sold pursuant to the Company's passive currency hedging strategy; and
- a fixed rate debenture and fixed rate loan notes issued by the Company.

(a) Market risk

The fair value or future cash flows of a financial instrument held by the Company may fluctuate because of changes in market prices. This market risk comprises three elements - currency risk, interest rate risk and other price risk. Information to enable an evaluation of the nature and extent of these three elements of market risk is given in parts (i) to (iii) of this note, together with sensitivity analyses where appropriate. The Board reviews and agrees policies for managing these risks and these policies have remained unchanged from those applying in the comparative year. The Manager assesses the exposure to market risk when making each investment decision and monitors the overall level of market risk on the whole of the investment portfolio on an ongoing basis.

(i) Currency risk

Certain of the Company's assets, liabilities and income are denominated in currencies other than sterling which is the Company's functional currency and presentation currency. As a result, movements in exchange rates may affect the sterling value of those items.

Management of currency risk

Since November 2009, the Company has engaged in a passive currency hedging strategy, the aim of which is to eliminate currency risk arising from active stock positions in the portfolio relative to the Benchmark. The Company may also use short term forward currency contracts to manage working capital requirements. Income receivable denominated in foreign currency is converted into sterling on receipt.

Foreign currency exposure

The fair value of the Company's monetary items that have foreign currency exposure at 30th June are shown below. Where the Company's equity investments (which are not monetary items) are priced in foreign currency, they have been included separately in the analysis so as to show the overall level of exposure.

NOTES TO THE FINANCIAL STATEMENTS

	2018						
	US \$ £'000	Euro £'000	Yen £'000	Hong Kong \$ £'000	Canadian \$ £'000	Other £'000	Total £'000
Current assets	45,239	9,524	7,935	11,357	7,177	20,507	101,739
Creditors	(31,529)	(48,849)	(2,970)	(5,035)	(810)	(16,343)	(105,536)
Foreign currency exposure on net monetary items	13,710	(39,325)	4,965	6,322	6,367	4,164	(3,797)
Investments held at fair value through profit or loss	234,954	77,660	24,242	9,554	6,282	29,803	382,495
Total net foreign currency exposure	248,664	38,335	29,207	15,876	12,649	33,967	378,698
	2017						
	US \$ £'000	Euro £'000	Yen £'000	Hong Kong \$ £'000	Canadian \$ £'000	Other £'000	Total £'000
Current assets	128,744	64,445	15,889	14,429	1,484	40,435	265,426
Creditors	(80,214)	(107,026)	(20,440)	(11,604)	(714)	(36,838)	(256,836)
Foreign currency exposure on net monetary items	48,530	(42,581)	(4,551)	2,825	770	3,597	8,590
Investments held at fair value through profit or loss	182,511	76,721	31,015	10,177	9,794	29,663	339,881
Total net foreign currency exposure	231,041	34,140	26,464	13,002	10,564	33,260	348,471

In the opinion of the Directors, the above year end amounts are broadly representative of the exposure to foreign currency risk during the year.

Foreign currency sensitivity

The following table illustrates the sensitivity of return after taxation for the year and net assets with regard to the Company's monetary financial assets and financial liabilities and exchange rates. The sensitivity analysis is based on the Company's monetary currency financial instruments held at each balance sheet date and the income receivable in foreign currency and assumes a 10% (2017: 10%) appreciation or depreciation in sterling against the US\$, Euro, Yen, Hong Kong dollars, Canadian dollars and other currencies to which the Company is exposed, which is considered to be a reasonable illustration based on the volatility of exchange rates during the year.

	2018		2017	
	If sterling strengthens by 10% £'000	If sterling weakens by 10% £'000	If sterling strengthens by 10% £'000	If sterling weakens by 10% £'000
Statement of Comprehensive Income - return after taxation				
Revenue return	(669)	669	(560)	560
Capital return	380	(380)	(859)	859
Total return after taxation	(289)	289	(1,419)	1,419
Net assets	(289)	289	(1,419)	1,419

In the opinion of the Directors, the above sensitivity analysis is broadly representative of the whole year.

23. Financial instruments' exposure to risk and risk management policies *continued*
(a) Market risk *continued*
Foreign currency sensitivity *continued*
(ii) Interest rate risk

Interest rate movements may affect the level of income receivable on cash deposits and the interest payable on variable rate borrowings when interest rates are reset.

Management of interest rate risk

The Company does not normally hold significant cash balances. Short term borrowings are used when required.

The Company may finance part of its activities through borrowings at levels approved and monitored by the Board. The possible effects on cash flows that could arise as a result of changes in interest rates are taken into account when the Company borrows on the loan facility. However, amounts drawn down on this facility are for short term periods and therefore exposure to interest rate risk is not significant.

Interest rate exposure

The exposure of financial assets and liabilities to floating interest rates, giving cash flow interest rate risk when rates are reset, is shown below. The £200,000 debenture in issue, and the £30 million loan notes, both carry a fixed rate of interest and therefore have no exposure to interest rate movements.

	2018 £'000	2017 £'000
Exposure to floating interest rates:		
Cash and cash equivalents	764	287
JPMorgan Sterling Liquidity Fund	7,244	5,844
Bank loan	–	(25,000)
Total exposure	8,008	(18,869)

Interest receivable on cash balances, or paid on overdrafts, is at a margin below or above LIBOR respectively (2017: same).

The target interest earned on the JPMorgan Sterling Liquidity Fund is the 7 day sterling London Interbank Bid Rate.

Details of the bank loan are given in note 14 on page 58.

(ii) Interest rate risk
Interest rate sensitivity

The following table illustrates the sensitivity of the return after taxation for the year and net assets to a 1% (2017: 1%) increase or decrease in interest rates in regards to the Company's monetary financial assets and financial liabilities. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's monetary financial instruments held at the balance sheet date with all other variables held constant.

	2018		2017	
	1% increase in rate £'000	1% decrease in rate £'000	1% increase in rate £'000	1% decrease in rate £'000
Statement of Comprehensive Income - return after taxation				
Revenue return	80	(80)	(64)	64
Capital return	–	–	(125)	125
Net assets	80	(80)	(189)	189

In the opinion of the Directors, this sensitivity analysis may not be representative of the Company's future exposure to interest rate changes due to fluctuations in the level of cash balances, cash held in the liquidity fund and amounts drawn down on the Company's loan facility.

(iii) Other price risk

Other price risk includes changes in market prices, other than those arising from interest rate risk or currency risk, which may affect the value of investments.

Management of other price risk

The Board meets on at least four occasions each year to consider the asset allocation of the portfolio and the risk associated with particular industry sectors. The investment management team has responsibility for monitoring the portfolio, which is selected in accordance with the Company's investment objectives and seeks to ensure that individual stocks meet an acceptable risk/reward profile.

Other price risk exposure

The Company's exposure to changes in market prices at 30th June comprises its holding in equity investments as follows:

	2018 £'000	2017 £'000
Investments held at fair value through profit or loss	431,001	400,972

The above data is broadly representative of the exposure to other price risk during the current and comparative year.

Concentration of exposure to other price risk

An analysis of the Company's investments is given on pages 11 to 15. This shows that the investments' value is in a broad spread of countries with the highest proportion in the United States. Accordingly there is a concentration of exposure to that country. However, it should be noted that an investment may not be wholly exposed to the economic conditions in its country of domicile or of listing.

Other price risk sensitivity

The following table illustrates the sensitivity of the return after taxation for the year and net assets to an increase or decrease of 10% (2017: 10%) in the fair value of the Company's equities. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's equities and adjusting for change in the management fee, but with all other variables held constant.

	2018		2017	
	10% increase in fair value £'000	10% decrease in fair value £'000	10% increase in fair value £'000	10% decrease in fair value £'000
Statement of Comprehensive Income - return after taxation				
Revenue return	(85)	85	(79)	79
Capital return	43,015	(43,015)	40,018	(40,018)
Total return after taxation for the year	42,930	(42,930)	39,939	(39,939)
Net assets	42,930	(42,930)	39,939	(39,939)

23. Financial instruments' exposure to risk and risk management policies *continued*
(b) Liquidity risk

This is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management of the risk

Liquidity risk is not significant as the Company's assets comprise readily realisable securities, which can be sold to meet funding requirements if necessary. Short term flexibility is achieved through the use of overdraft facilities.

The Board's policy is for the Company to remain fully invested in normal market conditions and that short term borrowings be used to manage short term liabilities and working capital requirements and to gear the Company as appropriate. Details of the current loan facility are given in note 14 on page 58.

Liquidity risk exposure

Contractual maturities of the financial liabilities at the year end, based on the earliest date on which payment can be required are as follows:

	Within one year £'000	2018 More than one year £'000	Total £'000
Creditors:			
Securities purchased awaiting settlement	248	–	248
£30 million 2.93% unsecured loan notes	1,296	55,091	56,387
Other creditors and accruals	167	–	167
Derivative financial liabilities	1,629	–	1,629
Performance fee payable	–	1,246	1,246
Perpetual debenture stock	–	200	200
	3,340	56,537	59,877

The liabilities shown above represent future contractual payments and therefore may differ from the amounts shown in the Statement of Financial Position.

	Within one year £'000	2017 More than one year £'000	Total £'000
Creditors:			
Securities purchased awaiting settlement	1,577	–	1,577
Bank loan, including interest	299	25,008	25,307
Other creditors and accruals	153	–	153
Derivative financial liabilities	4,863	–	4,863
Performance fee payable	–	2,347	2,347
Perpetual debenture stock	–	200	200
	6,892	27,555	34,447

The liabilities shown above represent future contractual payments and therefore may differ from the amounts shown in the Statement of Financial Position.

(c) Credit risk

Credit risk is the risk that the counterparty to a transaction fails to discharge its obligations under that transaction which could result in loss to the Company.

Management of credit risk

Portfolio dealing

The Company invests in markets that operate Delivery Versus Payments (“DVP”) settlement. The process of DVP mitigates the risk of losing the principal of a trade during the settlement process. The Manager continuously monitors dealing activity to ensure best execution, a process that involves measuring various indicators including the quality of trade settlement and incidence of failed trades. Counterparty lists are maintained and adjusted accordingly.

Cash and cash equivalents

Counterparties are subject to regular credit analysis by the Manager and deposits can only be placed with counterparties that have been approved by JPMAM’s Counterparty Risk Group. The Board regularly reviews the counterparties used by the Manager.

Exposure to JPMorgan Chase

JPMorgan Chase Bank, N.A. is the custodian of the Company’s assets. The Company’s assets are segregated from JPMorgan Chase’s own trading assets. Therefore these assets are designed to be protected from creditors in the event that JPMorgan Chase were to cease trading.

The Depository, Bank of New York Mellon (International) Limited, is responsible for the safekeeping of all custodial assets of the Company and for verifying and maintaining a record of all other assets of the Company. However, no absolute guarantee can be given on the protection of all the assets of the Company.

Credit risk exposure

The amounts shown in the Statement of Financial Position under derivative financial assets, debtors and cash and cash equivalents represent the maximum exposure to credit risk at the current and comparative year ends.

The aggregate value of securities on loan at 30th June 2018 amounted to £14.2 million (2017: £8.5 million). The highest value of securities on loan during the year ended 30th June 2018 amounted to £7.3 million (2017: £15.8 million) based on month end data. Collateral is called in on a daily basis to a value of 102% of the value of the securities on loan if that collateral is denominated in the same currency as the securities on loan and 105% if it is denominated in a different currency. The Depository monitors and is responsible for collateral.

(d) Fair values of financial assets and financial liabilities

All financial assets and liabilities are either included in the Statement of Financial Position at fair value or the carrying amount in the Statement of Financial Position is a reasonable approximation of fair value except for the debenture disclosed below. The fair value of the £200,000 debenture and the fair value of the £30 million 2.93% unsecured loan notes issued by the Company have been calculated using discounted cash flow techniques using the yield on a long dated gilt plus a margin based on the five year average for the AA Barclays Corporate Bond.

	Accounts value		Fair value	
	2018 £'000	2017 £'000	2018 £'000	2017 £'000
£200,000 4.5% perpetual debenture stock	200.0	200.0	377.9	348.4
£30 million 2.93% unsecured loan notes	29,820.0	–	32,831.1	–
Total	30,020.0	200.0	33,209.0	348.4

24. Capital management policies and procedures

The Company's debt and capital structure comprises the following:

	2018 £'000	2017 £'000
Debt:		
£30 million 2.93% unsecured loan notes	29,820	–
£200,000 4.5% perpetual debenture stock	200	200
Bank loan	–	25,000
	30,020	25,200
Equity:		
Called up share capital	7,746	7,746
Reserves	403,044	369,438
	410,790	377,184
Total Debt and Equity	440,810	402,384

The Company's capital management objectives are to ensure that it will continue as a going concern and to maximise the income and capital return to its equity shareholders through an appropriate level of gearing.

The Board's policy is to limit gearing within the range of 5% net cash to 20% geared in normal market conditions.

	2018 £'000	2017 £'000
Investments held at fair value through profit or loss	431,001	400,972
Net assets	410,790	377,184
Gearing	4.9%	6.3%

The Board, with the assistance of the Manager, monitors and reviews the broad structure of the Company's capital on an ongoing basis. This review includes:

- the planned level of gearing, which takes into account the Manager's views on the market;
- the need to buy back equity shares, either for cancellation or to hold in Treasury, which takes into account the share price discount or premium; and
- the opportunity for issues of new shares, including issues from Treasury.

25. Subsequent events

The Directors have evaluated the period since the year end and have not noted any subsequent events.

Regulatory Disclosures

ALTERNATIVE INVESTMENT FUND MANAGERS DIRECTIVE ('AIFMD') DISCLOSURES (UNAUDITED)

Leverage

For the purposes of the Alternative Investment Fund Managers Directive ('AIFMD'), leverage is any method which increases the Company's exposure, including the borrowing of cash and the use of derivatives. It is expressed as a ratio between the Company's exposure and its net asset value and is calculated on a gross and a commitment method in accordance with AIFMD. Under the gross method, exposure represents the sum of the Company's positions without taking into account any hedging and netting arrangements. Under the commitment method, exposure is calculated after certain hedging and netting positions are offset against each other.

The Company's maximum and actual leverage levels at 30th June 2018 are shown below:

	Gross Method	Commitment Method
Leverage Exposure		
Maximum limit	300%	200%
Actual	158%	117%

JPMorgan Funds Limited (the '**Management Company**') is the authorised manager of JPMorgan Global Growth & Income plc (the '**Company**') and is part of the J.P. Morgan Chase & Co. group of companies. In this section, the terms 'J.P. Morgan' or 'Firm' refer to that group, and each of the entities in that group globally, unless otherwise specified.

This section of the annual report has been prepared in accordance with the Alternative Investment Fund Managers' Directive (the 'AIFMD'), the European Commission Delegated Regulation supplementing the AIFMD, and the 'Guidelines on sound remuneration policies' issued by the European Securities and Markets Authority under the AIFMD.

This section has also been prepared in accordance with the relevant provisions of the Financial Conduct Authority Handbook (FUND 3.3.5).

Remuneration Policy

A summary of the Remuneration Policy currently applying to the Management Company (the '**Remuneration Policy Statement**') can be found at <https://am.jpmorgan.com/gb/en/asset-management/gim/per/legal/emea-remuneration-policy>. This Remuneration Policy Statement includes details of how remuneration and benefits are calculated, including the financial and non-financial criteria used to evaluate performance, the responsibilities and composition of the Firm's Compensation and Management Development Committee, and the measures adopted to avoid or manage conflicts of interest. A copy of this policy can be requested free of charge from the Management Company.

The Remuneration Policy applies to all employees of the Management Company, including individuals whose professional activities may have a material impact on the risk profile of the Management Company or the Alternative Investment Funds it manages ('**AIFMD Identified Staff**'). The AIFMD Identified Staff include members of the Board of the Management Company (the '**Board**'), senior management, the heads of relevant Control Functions, and holders of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

The Board reviews and adopts the Remuneration Policy on an annual basis, and oversees its implementation, including the classification of AIFMD Identified Staff. As at 31st December 2017, the Board last reviewed and adopted the Remuneration Policy in June 2017 with no material changes and was satisfied with its implementation.

Quantitative Disclosures

The table below provides an overview of the aggregate 2017 total remuneration paid to staff of the Management Company and the number of beneficiaries. These figures include the remuneration of all staff of JP Morgan Asset Management (UK) Ltd (the relevant employing entity) and the number of beneficiaries, both apportioned to the Management Company on an AUM weighted basis.

Due to the Firm's operational structure, the information needed to provide a further breakdown of remuneration attributable to the Company is not readily available and would not be relevant or reliable. However, for context, the Management Company manages 32 Alternative Investment Funds and 2 UCITS (with 38 sub-funds), with a combined AUM as at 31st December 2017 of £13,204 million and £15,004 million respectively.

	Fixed remuneration	Variable remuneration	Total remuneration	Number of beneficiaries
All staff (\$'000s)	14,845	9,801	24,646	117

The aggregate 2017 total remuneration paid to AIFMD Identified Staff was USD 65,309,308, of which USD 7,505,126 relates to Senior Management and USD 57,804,181 relates to other Identified Staff.

SECURITIES FINANCING TRANSACTIONS REGULATION ('SFTR') DISCLOSURES (UNAUDITED)

The Company engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the Company's involvement in and exposures related to SFT for the accounting period ended 30th June 2018 are detailed below.

Global Data

Amount of securities on loan

The total value of securities on loan as a proportion of the Company's total lendable assets, as at the balance sheet date, is 8.19%. Total lendable assets represents the aggregate value of assets types forming part of the Company's securities lending programme.

Amount of assets engaged in securities lending

The following table represents the total value of assets engaged in securities lending:

	Value £'000	% of AUM
Securities lending	14,151	3.47%

Collateral is held in respect of the above position. This collateral is either received as cash or non-cash. See further details below.

Concentration Data

Collateral issuers

The following table lists the issuers by value of non-cash collateral received by the Company by way of title transfer collateral arrangement across securities lending transactions, as at the balance sheet date:

Issuer	Collateral Value £'000
United Kingdom Treasury	3,213
United States of America Treasury	3,046
Federal Republic of Germany	1,662
French Republic Government	755
Kingdom of Belgium Government	718
Republic of Austria Government	373
Kingdom of Netherlands Government	205
Total	9,972

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

Counterparties

The following table provides details of the counterparties (based on gross volume of outstanding transactions with exposure on a gross absolute basis) in respect of securities lending as at the balance sheet date:

Counterparty	Value £'000
UBS	5,441
Goldman Sachs	4,531
Total	9,972

Aggregate transaction data

Type, quality and currency of collateral

The following table provides an analysis of the type, quality and currency of collateral received by the Company in respect of securities lending transactions as at the balance sheet date.

Type	Quality	Currency	Value £'000
Sovereign Debt	Investment Grade	EUR	3,714
Sovereign Debt	Investment Grade	GBP	3,212
Treasury Notes	Investment Grade	USD	3,025
Treasury Bills	Investment Grade	USD	21
Total			9,972

Maturity tenor of collateral

The following table provides an analysis of the maturity tenor of collateral received in relation to securities lending transactions as at the balance sheet date.

Maturity	Value £'000
Less than 1 day	–
1 day to 1 week	–
1 to 4 weeks	–
1 to 3 months	21
3 to 12 months	433
more than 1 year	9,518
Total	9,972

Maturity tenor of Security lending transactions

The Company's securities lending transactions have open maturity.

Country in which counterparties are established.

Counterparty	Country of incorporation
Goldman Sachs	United Kingdom
UBS	United Kingdom

Settlement and clearing

The Company's securities lending transactions including related collaterals are settled and cleared either bi-laterally, tri-party or through a central counterparty.

Re-use of collateral

Share of collateral received that is reused and reinvestment return.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

REGULATORY DISCLOSURES

Cash collateral received in the context of securities lending transactions may be reused in accordance with the provisions contained within the Prospectus, however the Company does not currently reinvest cash collateral received in respect of securities lending transactions.

Counterparty	Quality	Maturity Date	Value £'000
Société Générale	Investment Grade	02 July 2018	5,242

Safekeeping of collateral

All collateral received as securities (£9,972,000) by the Company in respect of securities lending transactions as at the balance sheet date is held by the Depository.

Return and cost

JPMorgan Chase Bank, N.A (JPMCB), the lending agent, receives a fee of 15% of the gross revenue for its services related to the Stock Lending Transactions. The remainder of the revenue, 85%, is received by the Company i.e. for the benefit of Shareholders.

Shareholder Information

NOTICE OF ANNUAL GENERAL MEETING

Notice is hereby given that the one hundred and thirty-first Annual General Meeting of JPMorgan Global Growth & Income plc will be held at 60 Victoria Embankment, London EC4Y 0JP on Wednesday, 31st October 2018 at 2.30 p.m. for the following purposes:

1. To receive the Directors' Report, the Annual Financial Statements and the Auditors' Report for the year ended 30th June 2018.
2. To approve the Directors' Remuneration Policy.
3. To approve the Directors' Remuneration Report for the year ended 30th June 2018.
4. To reappoint Jonathan Carey as a Director of the Company.
5. To reappoint Nigel Wightman as a Director of the Company.
6. To reappoint Gay Collins as a Director of the Company.
7. To reappoint Tristan Hillgarth as a Director of the Company.
8. To reappoint PricewaterhouseCoopers LLP as Auditors to the Company and to authorise the Directors to determine their remuneration.

Special Business

To consider the following resolutions:

Authority to increase the maximum aggregate Directors' fees – Ordinary resolution

9. THAT in accordance with Article 99 of the Company's Articles of Association, the maximum aggregate Directors' fees payable be increased from £150,000 to £200,000 per annum with immediate effect.

Authority to allot new shares – Ordinary Resolution

10. THAT the Directors of the Company be and they are hereby generally and unconditionally authorised in substitution of any authorities previously granted to the Directors pursuant to Section 551 of the Companies Act 2006 (the 'Act') to exercise all the powers for the Company to allot relevant securities (within the meaning of Section 551 of the Act) up to an aggregate nominal amount of £645,006, representing approximately 10% of the Company's issued Ordinary share capital as at the date of this notice and shall expire at the conclusion of the Annual General Meeting of the Company to be held in 2019 unless renewed at a general meeting prior to such time, save that the Company may before such expiry make offers, agreements or arrangements which would or might require relevant securities to be allotted after such expiry and so that the Directors of the Company may allot relevant securities in pursuance of such offers, agreements or arrangements as if the authority conferred hereby had not expired.

Authority to disapply pre-emption rights – Special Resolution

11. THAT subject to the passing of Resolution 10 set out above, the Directors of the Company be and they are hereby empowered pursuant to Sections 570, 571 and 572 of the Companies Act 2006 (the 'Act') to allot equity securities (within the meaning of Section 560 of the Act) pursuant to the authority conferred by Resolution 10 or by way of sale of Treasury shares as if Section 561(1) of the Act did not apply to any such allotment, provided that this power shall be limited to the allotment of equity securities for cash up to an aggregate nominal amount of £645,006, representing approximately 10% of the total Ordinary share capital as at the date of this notice at a price of not less than the net asset value per share and shall expire at the conclusion of the Annual General Meeting of the Company to be held in 2019 unless renewed at a general meeting prior to such time, save that the Company may before such expiry make offers, agreements or arrangements which would or might require equity securities to be allotted after such expiry and so that the Directors of the Company may allot equity securities in pursuance of such offers, agreements or arrangements as if the power conferred hereby had not expired.

Authority to repurchase shares – Special Resolution

12. THAT the Company be generally and subject as hereinafter appears unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the 'Act') to make market purchases (within the meaning of Section 693 of the Act) of its issued Ordinary shares in the capital of the Company,

PROVIDED ALWAYS THAT

- (i) the maximum number of Ordinary shares hereby authorised to be purchased shall be 19,337,292, or if less, that number of Ordinary shares which is equal to 14.99% of the Company's issued share capital as at the date of the passing of this resolution;
- (ii) the minimum price which may be paid for an Ordinary share shall be 5 pence;
- (iii) the maximum price which may be paid for a share, shall be an amount equal to: (a) 105% of the average of the middle market quotations for an Ordinary share, taken from and calculated by reference to the London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the share is purchased; or (b) the price of the last independent trade; or (c) the highest current independent bid;

- (iv) any purchase of ordinary shares will be made in the market for cash at prices below the prevailing NAV per share (as determined by the Directors);
- (v) the authority hereby conferred shall expire on 30th April 2020 unless the authority is renewed at the Company's Annual General Meeting in 2019 or at any other general meeting prior to such time; and
- (vi) the Company may make a contract to purchase ordinary shares under the authority hereby conferred prior to the expiry of such authority and may make a purchase of shares pursuant to any such contract notwithstanding such expiry.

By order of the Board
Divya Amin, for and on behalf of
JPMorgan Funds Limited,
Secretary

21st September 2018

Notes

These notes should be read in conjunction with the notes on the reverse of the proxy form.

1. A member entitled to attend and vote at the Meeting may appoint another person(s) (who need not be a member of the Company) to exercise all or any of his rights to attend, speak and vote at the Meeting. A member can appoint more than one proxy in relation to the Meeting, provided that each proxy is appointed to exercise the rights attaching to different shares held by him.
2. A proxy does not need to be a member of the Company but must attend the Meeting to represent you. Your proxy could be the Chairman, another Director of the Company or another person who has agreed to attend to represent you. Details of how to appoint the Chairman or another person(s) as your proxy or proxies using the proxy form are set out in the notes to the proxy form. If a voting box on the proxy form is left blank, the proxy or proxies will exercise his/their discretion both as to how to vote and whether he/they abstain(s) from voting. Your proxy must attend the Meeting for your vote to count. Appointing a proxy or proxies does not preclude you from attending the Meeting and voting in person.
3. Any instrument appointing a proxy, to be valid, must be lodged in accordance with the instructions given on the proxy form no later than 2.30 p.m. two business days prior to the Meeting (i.e. excluding weekends and bank holidays).
4. You may change your proxy instructions by returning a new proxy appointment. The deadline for receipt of proxy appointments also applies in relation to amended instructions. Any attempt to terminate or amend a proxy appointment received after the relevant deadline will be disregarded. Where two or more valid separate appointments of proxy are received in respect of the same share in respect of the same Meeting, the one which is last received (regardless of its date or the date of its signature) shall be treated as replacing and revoking the other or others as regards that share; if the Company is unable to determine which was last received, none of them shall be treated as valid in respect of that share.
5. To be entitled to attend and vote at the Meeting (and for the purpose of the determination by the Company of the number of votes they may cast), members must be entered on the Company's register of members as at 6.30 p.m. two business days prior to the Meeting (the 'specified time'). If the Meeting is adjourned to a time not more than 48 hours after the specified time applicable to the original Meeting, that time will also apply for the purpose of determining the entitlement of members to attend and vote (and for the purpose of determining the number of votes they may cast) at the adjourned Meeting. If, however, the Meeting is adjourned for a longer period then, to be so entitled, members must be entered on the Company's register of members as at 6.30 p.m. two business days prior to the adjourned Meeting or, if the Company gives notice of the adjourned Meeting, at the time specified in that notice. Changes to entries on the register after this time shall be disregarded in determining the rights of persons to attend or vote at the Meeting or adjourned Meeting.
6. Entry to the Meeting will be restricted to shareholders and their proxy or proxies, with guests admitted only by prior arrangement.

NOTICE OF ANNUAL GENERAL MEETING

7. A corporation, which is a shareholder, may appoint an individual(s) to act as its representative(s) and to vote in person at the Meeting (see instructions given on the proxy form). In accordance with the provisions of the Companies Act 2006, each such representative may exercise (on behalf of the corporation) the same powers as the corporation could exercise if it were an individual member of the Company, provided that they do not do so in relation to the same shares. It is therefore no longer necessary to nominate a designated corporate representative.

Representatives should bring to the Meeting evidence of their appointment, including any authority under which it is signed.
8. Members that satisfy the thresholds in Section 527 of the Companies Act 2006 can require the Company to publish a statement on its website setting out any matter relating to: (a) the audit of the Company's accounts (including the Auditors' report and the conduct of the audit) that are to be laid before the AGM; or (b) any circumstances connected with Auditors of the Company ceasing to hold office since the previous AGM, which the members propose to raise at the Meeting. The Company cannot require the members requesting the publication to pay its expenses. Any statement placed on the website must also be sent to the Company's Auditors no later than the time it makes its statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required to publish on its website pursuant to this right.
9. Pursuant to Section 319A of the Companies Act 2006, the Company must cause to be answered at the AGM any question relating to the business being dealt with at the AGM which is put by a member attending the Meeting except in certain circumstances, including if it is undesirable in the interests of the Company or the good order of the Meeting or if it would involve the disclosure of confidential information.
10. Under Sections 338 and 338A of the 2006 Act, members meeting the threshold requirements in those sections have the right to require the Company: (i) to give, to members of the Company entitled to receive notice of the Meeting, notice of a resolution which those members intend to move (and which may properly be moved) at the Meeting; and/or (ii) to include in the business to be dealt with at the Meeting any matter (other than a proposed resolution) which may properly be included in the business at the Meeting. A resolution may properly be moved, or a matter properly included in the business unless: (a) (in the case of a resolution only) it would, if passed, be ineffective (whether by reason of any inconsistency with any enactment or the Company's constitution or otherwise); (b) it is defamatory of any person; or (c) it is frivolous or vexatious. A request made pursuant to this right may be in hard copy or electronic form, must identify the resolution of which notice is to be given or the matter to be included in the business, must be accompanied by a statement setting out the grounds for the request, must be authenticated by the person(s) making it and must be received by the Company not later than the date that is six clear weeks before the Meeting, and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.
11. A copy of this notice has been sent for information only to persons who have been nominated by a member to enjoy information rights under Section 146 of the Companies Act 2006 (a 'Nominated Person'). The rights to appoint a proxy can not be exercised by a Nominated Person: they can only be exercised by the member. However, a Nominated Person may have a right under an agreement between him and the member by whom he was nominated to be appointed as a proxy for the Meeting or to have someone else so appointed. If a Nominated Person does not have such a right or does not wish to exercise it, he may have a right under such an agreement to give instructions to the member as to the exercise of voting rights.
12. In accordance with Section 311A of the Companies Act 2006, the contents of this notice of meeting, details of the total number of shares in respect of which members are entitled to exercise voting rights at the AGM, the total voting rights members are entitled to exercise at the AGM and, if applicable, any members' statements, members' resolutions or members' matters of business received by the Company after the date of this notice will be available on the Company's website www.jpmglobalgrowthandincome.co.uk.
13. The register of interests of the Directors and connected persons in the share capital of the Company and the Directors' letters of appointment are available for inspection at the Company's registered office during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted). It will also be available for inspection at the Annual General Meeting. No Director has any contract of service with the Company.
14. You may not use any electronic address provided in this Notice of Meeting to communicate with the Company for any purposes other than those expressly stated.
15. As an alternative to completing a hard copy Form of Proxy/Voting Instruction Form, you can appoint a proxy or proxies electronically by visiting www.sharevote.co.uk You will need your Voting ID, Task ID and Shareholder Reference Number (this is the series of numbers printed under your name on the Form of Proxy/Voting Direction Form). Alternatively, if you have already registered with Equiniti Limited's online portfolio service, Shareview, you can submit your Form of Proxy at www.shareview.co.uk Full instructions are given on both websites.
16. As at 17th September 2018 (being the latest business day prior to the publication of this Notice), the Company's issued share capital consists of 129,001,285 Ordinary shares (excluding 25,904,215 shares held in treasury), carrying one vote for every share held. Therefore, the total voting rights in the Company are 129,001,285.

Electronic appointment – CREST members

CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so for the Meeting and any adjournment(s) thereof by using the procedures described in the CREST Manual. See further instructions on the proxy form.

Return to Shareholders (APM)

Total return to the shareholder, on a last traded price to last traded price basis, assuming that all dividends received were reinvested, without transaction costs, into the shares of the Company at the time the shares were quoted ex-dividend.

Total return calculation	Page	2018	2017	
Opening share price as at 30th June (p)	5	299.8	205.5	
Closing share price as at 30th June (p)	5	319.0	299.8	(a)
Total dividend adjustment factor ¹		1.038646	1.036210	(b)
Adjusted closing share price (c = a x b)		331.3	310.7	(c)
Total return to shareholder (%)		+10.5	+51.2	

¹ The dividend adjustment factor is calculated on the assumption that the dividends paid out by the Company are reinvested into the shares of the Company at the last traded price quoted at the ex-dividend date.

Return on Net Assets (APM)

Total return on net asset value ('NAV') per share, on a bid value to bid value basis, assuming that all dividends paid out by the Company were reinvested, into the shares of the Company at the NAV per share at the time the shares were quoted ex-dividend.

Total return calculation	Page	2018	2017	
Opening cum-income NAV per share with debt at par value as at 30th June (p)	5	305.0	242.7	
(-) 2017 3rd interim dividend of 2.2p (2016: nil) declared but not paid pre year end date		(2.2)	–	
Adjusted opening cum-income NAV per share with debt at par value as at 30th June (p)		302.8	242.7	
Closing cum-income NAV per share with debt at par value as at 30th June (p)	5	318.4	305.0	
(-) 2018 4th interim dividend of 3.04p (2017 3rd interim dividend: 2.2p) declared but not paid pre-year end date		(3.04)	(2.2)	
Adjusted closing cum-income NAV per share with debt at par value as at 30th June (p)		315.36	302.8	(a)
Total dividend adjustment factor ²		1.039475	1.033875	(b)
Adjusted closing cum-income NAV per share (c = a x b)		327.7	313.1	(c)
Total return on net assets with debt at par value (%)		+8.2	+29.0	

² The dividend adjustment factor is calculated on the assumption that the dividends paid out by the Company are reinvested into the shares of the Company at the cum-income NAV at the ex-dividend date.

Net Assets with Debt at Fair Value (APM)

The Company's debts (debentures) are valued in the Statement of Financial Position (on page 48) at amortised cost, £30,020,000, which are materially equivalent to the repayment value of the debts on the assumption that they are held to maturity. They are often referred to as 'Debt at Par Value'. The current replacement or market value of the debts, which assume they are repaid and renegotiated under current market conditions, are often referred to as the 'Debt at Fair Value'. The difference between fair and par value of the debts is subtracted from the NAV to derive the NAV with debt at fair value. The fair value of the £200,000 debenture and the fair value of the £30 million loan notes issued by the Company have been calculated using discounted cash flow techniques, using the yield from a similar dated gilt plus a margin based on the five year average for the AA Barclays Sterling Corporate Bond spread. As at 30th June 2018, the cum-income NAV with debt at fair value was £407,601,000 (2017: £377,036,000) or 316.0p (2017: 304.9p) per share.

Benchmark return

Total return on the benchmark, on a closing-market value to closing-market value basis, assuming that all dividends received were reinvested in the shares of the underlying companies at the time the shares were quoted ex-dividend.

The benchmark is a recognised index of stocks which should not be taken as wholly representative of the Company's investment universe. The Company's investment strategy does not follow or 'track' this index and consequently, there may be some divergence between the Company's performance and that of the benchmark.

Gearing/Net Cash (APM)

Gearing represents the excess amount above shareholder's funds of total investments, expressed as a percentage of the shareholders' funds. If the amount calculated is negative, this is shown as a 'net cash' position.

Gearing calculation	Page	2018 £'000	2017 £'000	
Investments held at fair value through profit or loss	48	431,001	400,972	(a)
Net assets	48	410,790	377,184	(b)
Gearing (c = a/(b - 1))		4.9%	6.3%	(c)

Ongoing Charges (APM)

The ongoing charges represent the Company's management fee and all other operating expenses excluding finance costs payable, expressed as a percentage of the average of the daily cum-income net assets during the year and is calculated in accordance with guidance issued by the Association of Investment Companies.

Ongoing charges calculation	Page	2018 £'000	2017 £'000	
Management fee	46	1,664	1,498	
Other administrative expenses	46	551	561	
Total management fee and other administrative expenses		2,215	2,059	(a)
Current year performance fee payable		–	–	
Total management fee, other administrative expenses and performance fee payable		2,215	2,059	(b)
Average daily cum-income net assets		395,629	358,683	(c)
Ongoing Charges excluding performance fee payable (d = a / c)		0.56%	0.57%	(d)
Ongoing Charges, including performance fee payable (e = b / c)		0.56%	0.57%	(e)

Share Price Discount/Premium to Net Asset Value ('NAV') per Share (APM)

If the share price of an investment trust is lower than the NAV per share, the shares are said to be trading at a discount, meaning there are more sellers than buyers. The discount is shown as a percentage of the NAV per share (see page 5).

The opposite of a discount is a premium. It is more common for an investment trust's shares to trade at a discount than at a premium.

Performance attribution

Analysis of how the Company achieved its recorded performance relative to its benchmark.

Performance Attribution Definitions:

Stock/Sector selection

Measures the effect of investing in securities/sectors to a greater or lesser extent than their weighting in the benchmark, or of investing in securities which are not included in the benchmark.

Gearing/Net Cash

Measures the impact on returns of borrowings or cash balances on the Company's relative performance.

Management fee/Other expenses

The payment of fees and expenses reduces the level of total assets, and therefore has a negative effect on relative performance.

You can invest in a J.P. Morgan investment trust through the following:

1. Directly from J.P. Morgan

Investment Account

The Company's shares are available in the J.P. Morgan Investment Account, which facilitates both regular monthly investments and occasional lump sum investments in the Company's ordinary shares. Shareholders who would like information on the Investment Account should call J.P. Morgan Asset Management free on 0800 20 40 20 or visit its website at am.jpmorgan.co.uk/investor

Stocks & Shares Individual Savings Accounts (ISA)

The Company's shares are eligible investments within a J.P. Morgan ISA. For the 2018/19 tax year, from 6th April 2018 and ending 5th April 2019, the total ISA allowance is £20,000. The shares are also available in a J.P. Morgan Junior ISA. Details are available from J.P. Morgan Asset Management free on 0800 20 40 20 or via its website at am.jpmorgan.co.uk/investor

2. Via a third party provider

Third party providers include:

AJ Bell	Hargreaves Lansdown
Alliance Trust Savings	Interactive Investor
Barclays Stockbrokers	James Brearley
Bestinvest	James Hay
Charles Stanley Direct	Selftrade
FundsNetwork	The Share Centre

Please note this list is not exhaustive and the availability of individual trusts may vary depending on the provider. These websites are third party sites and J.P. Morgan Asset Management does not endorse or recommend any. Please observe each site's privacy and cookie policies as well as their platform charges structure.

3. Through a professional adviser

Professional advisers are usually able to access the products of all the companies in the market and can help you find an investment that suits your individual circumstances. An adviser will let you know the fee for their service before you go ahead. You can find an adviser at unbiased.co.uk

You may also buy investment trusts through stockbrokers, wealth managers and banks.

To familiarise yourself with the Financial Conduct Authority (FCA) adviser charging and commission rules, visit fca.org.uk

Be ScamSmart

Investment scams are designed to look like genuine investments

Spot the warning signs

Have you been:

- contacted out of the blue
- promised tempting returns and told the investment is safe
- called repeatedly, or
- told the offer is only available for a limited time?

If so, you might have been contacted by fraudsters.

Avoid investment fraud

1 Reject cold calls

If you've received unsolicited contact about an investment opportunity, chances are it's a high risk investment or a scam. You should treat the call with extreme caution. The safest thing to do is to hang up.

2 Check the FCA Warning List

The FCA Warning List is a list of firms and individuals we know are operating without our authorisation.

3 Get impartial advice

Think about getting impartial financial advice before you hand over any money. Seek advice from someone unconnected to the firm that has approached you.

Remember: if it sounds too good to be true, it probably is!

Report a Scam

If you suspect that you have been approached by fraudsters please tell the FCA using the reporting form at www.fca.org.uk/consumers/report-scam-unauthorised-firm. You can also call the FCA Consumer Helpline on **0800 111 6768**

If you have lost money to investment fraud, you should report it to Action Fraud on 0300 123 2040 or online at www.actionfraud.police.uk

Find out more at
www.fca.org.uk/scamsmart

FINANCIAL CALENDAR

Financial year end	30th June
Half year results announced	February
Final results announced	September
Interim dividends paid	January, April, July and October
