JPM US Smaller Companies Fund

Reason for changes The ACD has decided to re-name the Fund to better reflect its existing investment universe. In addition, the investment objective and policy of the Fund will be updated to provide greater clarity with respect to the focus of the existing investment strategy, in particular to highlight that the Fund primarily invests in a growth style biased portfolio of small capitalisation US companies. The Fund targets equity securities of companies which are expected to grow at an above-average rate relative to the market. In addition, the profile of the typical investor will be updated to be consistent with the name and investment objective of the Fund.

These amendments do not alter the way in which the Fund is currently being managed or the risk profile of the Fund.
