Dear Shareholder,

This is to notify you of some changes to the JPM Global Corporate Bond Fund, a fund in which you own shares. The investment policy will be updated to provide the Investment Manager with increased flexibility to invest up to 20% in below investment grade debt securities and up to 10% in contingent convertible bonds.

The Financial Conduct Authority (the "FCA") has confirmed that the changes will not affect the ongoing authorisation of the Fund.

More detailed information about the changes, including their timing, is provided in the section Reasons for changes. If you still have questions, please contact your usual J.P. Morgan Asset Management representative or call our UK-based Investor Services team on the numbers given below. **You have three options that are explained below.**

Reason for changes The high yield market has significantly increased in size, particularly over the last 10 years, increasing its diversity and liquidity profile. Similarly, the contingent convertible bond market has matured, particularly over the last 10 years, and become one of the most liquid segments of credit markets. In addition, contingent convertible bonds demonstrated robust performance during the most recent market downturn. The Investment Manager has identified high yield and contingent convertible bonds as high conviction investment opportunities and is accordingly increasing its flexibility to invest in these markets from 10% to 20% and 5% to 10% respectively of the Sub-Fund's assets.

These changes do not alter the risk profile of the Fund.
