Reason for change

We have reviewed the share classes available to investors and have decided to convert your holding(s) to a share class with a lower annual management fee and better prospects for asset growth which can lead to economies of scale with the potential for lower share class expenses.

The total value of the A shares you own and the new B shares you receive after the conversion will be the same, subject to rounding adjustments, but you will receive a different number of shares. You will receive confirmation of the number of B shares in your next quarterly statement.

These changes do not alter the way in which the fund(s) is currently being managed or the risk profile of the fund(s).

Risk/reward level: Unchanged
