

# A Message from Your Fund's Board

Dear Shareholder,

This is to notify you that the benchmark for JPMorgan Funds – Global Strategic Bond Fund, a sub-fund in which you own shares, will be changed. This change will not affect how your sub-fund is currently managed or its risk profile.

More detailed information about the change, including the timing, appears below. Please take a moment to review the important information below. If you still have questions, please contact us at the registered office or your local representative. **You have three options that are explained below.**

Jacques Elvinger *For and on behalf of the Board*

## Prospectus change – option to take action ends 31 December 2021 at 14.30 CET

**Reason for change** The benchmark reference rate for your share class, namely the Euro Overnight Index Average (EONIA), will be phased out from the end of 2021. This necessitates the adoption of a new reference rate in relation to your sub-fund benchmark. The Board has determined that the Euro Short-Term Rate (€STR) is an appropriate replacement benchmark. The European Central Bank calculated a spread between €STR and EONIA, on the basis of historic data, at €STR + 0.085%. This spread was used as the basis of a revised EONIA methodology from 2 October 2019 until EONIA is phased out. Rather than tie the new reference rate to this outdated EONIA methodology based on historic data, the Board has determined to adopt €STR without the spread. Further details on the benchmark reform linked to the LIBOR transition can be found on our website at [am.jpmorgan.com/lu/libor](http://am.jpmorgan.com/lu/libor).

From the effective date, the sub-fund's performance fee will accrue against the new benchmark according to the terms of the Prospectus. The change may result in a higher or lower performance fee accrual. The sub-fund's performance will also be compared against the new benchmark from the effective date.
