

A Message from Your Fund's Board

Dear Shareholder,

This is to notify you that the JPMorgan Funds – Systematic Alpha Fund in which you own shares will be merged into the JPMorgan Funds – Diversified Risk Fund.

The reason for the merger and your three options are explained below. Please take a moment to review the important information below. If you still have questions, please contact us at the registered office or your local representative.

Jacques Elvinger *For and on behalf of the Board*

Sub-Fund merger – option to take action ends 20 April 2021 at 14.30 CET

Reason for merger The sub-fund has experienced significant outflows and has limited prospects for future growth. The Board believes that the merger provides the benefit of investing in a sub-fund with better prospects for stronger growth in assets in the future and as such may potentially benefit from economies of scale.

YOUR OPTIONS

- 1 Take no action. Your shares will automatically be exchanged for shares of the receiving sub-fund.** Any shares of your sub-fund that you still own after the deadline will be exchanged for shares of the receiving sub-fund.
- 2 Switch your investment to another sub-fund.** We must receive your dealing instructions by the deadline shown in the right-hand column. Be sure to read the Key Investor Information Document (KIID) for any sub-fund you are considering switching into, and for further information, the prospectus.
- 3 Redeem your investment.** We must receive your dealing instructions by the deadline shown in the right-hand column.

You may want to review these options with your tax adviser and your financial adviser. All options could have tax consequences.

Regardless of which option you choose, you will not be charged any redemption or switch fees so long as we receive your dealing instructions before the deadline shown in the right hand column.

A merger statement will be mailed to you within 10 days of the merger date. Additional information, including the Fund auditor's merger report, KIID, prospectus and most recent financial reports of both sub-funds are available at www.jpmorganassetmanagement.lu or from the registered office. An electronic copy of this notice is available on the website: www.jpmorganassetmanagement.lu.

Merger timeline and impact

This section outlines key information relating to the merger. Further information is contained in the detailed sub-fund comparison that follows as well as in the relevant prospectus and KIIDs. We advise you to read carefully the KIID of the receiving sub-fund, which is enclosed to this letter.

Key Dates

When the merger transaction occurs, all assets, liabilities and any income in your sub-fund will be transferred to the receiving sub-fund, and your sub-fund will cease to exist.

All shares remaining in your sub-fund at the merger date are exchanged free of charge for shares in the equivalent share class of the receiving sub-fund. The exchange ratio is rounded to 7 decimal places and is based on the net asset value per share, exceptionally rounded for the purposes of the merger to 6 decimal places, in effect that day for both sub-funds. The calculation of the exchange ratio will be validated and documented in the merger report prepared by the company auditors that will be available to you upon request.

The total value of the shares you own in your sub-fund and the new shares you receive in the receiving sub-fund will be the same, subject to rounding adjustments, but you may receive a different number of shares.

Impact

Key differences in investment policy between your sub-fund and the receiving sub-fund	<ul style="list-style-type: none"> • While your sub-fund seeks to capture risk premia commonly associated with hedge fund strategies, the receiving sub-fund seeks to provide exposure to the value, quality, momentum and carry risk premia by investing across various traditional asset classes. • Your sub-fund's base currency is EUR and the receiving sub-fund's base currency is USD, however you will receive shares in the receiving sub-fund that are valued in the same currency as your current share class in your sub-fund.
Potential benefits	<ul style="list-style-type: none"> • The merger will give you the benefit of investing in a sub-fund that has prospects of stronger growth in assets in the future and as such may potentially benefit from economies of scale.
Potential drawbacks	<ul style="list-style-type: none"> • The receiving sub-fund is expected to be marginally more closely correlated to traditional asset classes. It will have marginally higher exposure, on average, to directional market risk in equity and fixed income which can result in higher volatility. • One-time expenses associated with transaction costs which are estimated to be around 0.73% will be borne by your sub-fund. • On the merger date, and during the two business days before that, you will not be able to subscribe for, switch or redeem shares in your sub-fund.
Other considerations	<ul style="list-style-type: none"> • Your sub-fund will not bear any additional legal, advisory or administrative costs associated with the merger. • The portfolio of your sub-fund somewhat resembles that of the receiving sub-fund, however, some rebalancing of the assets will be required and all or part of your sub-fund's assets may be held in cash for a short period in preparation for the merger resulting in your sub-fund having less market exposure which will have a positive or negative impact on performance. It is expected that such portfolio rebalancing will commence no earlier than 10 business days prior to the merger date. • Performance information for your sub-fund and the receiving sub-fund can be found in the relevant KIID or factsheet which is available from the document library at jpmorganassetmanagement.lu.

Sub-fund comparison

This table compares the relevant information for your sub-fund with that of the receiving sub-fund. Unless stated otherwise, terms in this table have the same meaning as in the relevant prospectus.

- **Information that appears in a box** is information that is particular to the sub-fund named at the top of that column.
- **Information that crosses both columns** is information that is the same for both sub-funds.

JPMorgan Funds – Systematic Alpha Fund

JPMorgan Funds – Diversified Risk Fund

Objective		
Investment Objective	To provide a total return in excess of its cash benchmark by exploiting behavioural patterns in financial markets, primarily through the use of derivatives.	To provide long-term capital growth by investing in multiple asset classes, globally, using a risk-weighted approach to asset allocation, using derivatives where appropriate.
Investment Process		
Investment approach	<ul style="list-style-type: none"> ▪ Systematic, rules based investment process, focuses on the bottom-up capture of alternative risk premia embedded within a number of hedge fund strategies. ▪ Captures the returns commonly associated with major hedge fund strategies such as Equity Market Neutral, Macro/Managed Futures, Convertible Bond Arbitrage and Event-Driven within a single portfolio, while reducing the manager specific risks associated with hedge fund investing due to its systematic approach. ▪ Aims to provide diversification benefits to a portfolio of traditional assets such as equities or bonds. 	<ul style="list-style-type: none"> ▪ Systematic approach that provides long/short exposure to a diversified range of risk premia, across asset classes. ▪ Portfolio targets equally weighted long-term risk exposures to various risk premia, grouped into four styles: quality, carry, momentum and value. ▪ Overall portfolio is constructed to maintain a low correlation to traditional markets.
