

A Message from Your Fund's Board

Dear Shareholder,

This is to notify you that the JPMorgan Investment Funds – Global Opportunistic Convertibles Income Fund (“Merging Sub-Fund”) in which you own shares will be merged into the JPMorgan Investment Funds – Global Convertibles Conservative Fund (“Receiving Sub-Fund”).

The reason for the merger and your three options are explained below. Please take a moment to review the important information below. If you still have questions, please contact us at the registered office or your local representative.

Jacques Elvinger *For and on behalf of the Board*

Sub-fund merger – option to take action ends 1st March 2022 at 14.30 CET

Reason for merger As stated in the prospectus, when the opportunity for your Sub-Fund to invest in securities trading below par value due to temporary market dislocations is reduced, it is expected to merge into another sub-fund.

The Board now believes the opportunity has reduced and your Sub-Fund will be merged into the Receiving Sub-Fund.

YOUR OPTIONS

- 1 Take no action. Your shares will automatically be exchanged for shares of the Receiving Sub-Fund.** Any shares of your Sub-Fund that you still own after the deadline will be exchanged for shares of the Receiving Sub-Fund.
- 2 Switch your investment to another Sub-Fund.** We must receive your dealing instructions by the deadline shown in the right-hand column. Be sure to read the Key Investor Information Document (KIID) for any Sub-Fund you are considering switching into, and for further information, the prospectus.
- 3 Redeem your investment.** We must receive your dealing instructions by the deadline shown in the right-hand column.

You may want to review these options with your tax adviser and your financial adviser. All options may have tax consequences.

Regardless of which option you choose, you will not be charged any redemption or switch fees as long as we receive your dealing instructions before the deadline shown in the right-hand column. All other switch and redemption conditions in the prospectus still apply.

4th March 2022 Merger occurs; shares exchanged.

7th March 2022

All shares remaining in your Sub-Fund at the merger date are exchanged free of charge for shares in the equivalent share class of the Receiving Sub-Fund. The exchange ratio is rounded to 7 decimal places and is based on the net asset value per share, exceptionally rounded for the purposes of the merger to 6 decimal places, in effect that day for both Sub-Funds. The calculation of the exchange ratio will be validated and documented in the merger report prepared by the company auditors that will be available to you upon request.

The total value of the shares you own in your Sub-Fund and the new shares you receive in the Receiving Sub-Fund will be the same, subject to rounding adjustments, but you may receive a different number of shares.

Impact

Key differences in investment policy between your Sub-Fund and the Receiving Sub-Fund

- Your Sub-Fund is an opportunistic fund that seeks to invest in convertible securities trading below par value due to temporary market dislocations.
- The objective of your Sub-Fund is to provide regular income for Investors that seek income and potential for capital growth, whereas the Receiving Sub-Fund does not have an income objective.
- The Receiving Sub-Fund has a less concentrated portfolio than your Sub-Fund and is conservatively constructed.
- The Receiving Sub-Fund uses the Refinitiv Global Focus Convertible Bond Index (Total Return Gross) Hedged to USD for its benchmark as a performance comparator which is a different benchmark used in your Sub-Fund.
- The Receiving Sub-Fund promotes Environmental and / or social characteristics and invests at least 51% of its assets in companies with positive environmental and/or social characteristics that follow good governance practices and applies values and norms based screening to implement exclusions, whereas your Sub-Fund does not and only has a ESG integrated approach where there is a systematic inclusion of ESG issues in investment analysis and investment decisions.

Potential benefits

- Shareholders will benefit from continuing to remain invested in a convertible bond strategy that offers similar investment exposure and main risks as the opportunity in their Sub-Fund has reduced.

Potential drawbacks

- One-time expenses associated with transaction costs which are estimated to be around 0.97% will be borne by your Sub-Fund.
- On the merger date, and during the two business days before that, you will not be able to subscribe for, switch or redeem shares in your Sub-Fund.

Other considerations

- The assets in your Sub-Fund are primarily denominated in USD whereas the Receiving Sub-Fund's assets may be denominated in any currency.
- Your Sub-Fund may invest in China and certain type of debt securities such as below investment grade and unrated convertible securities, which the Receiving Sub-Fund is not expected to invest in.
- The Receiving Sub-Fund has the same SRRI as your Sub-Fund.
- Any transaction costs, stamp duty or financial transaction taxes associated with the changes to the Receiving Sub-Fund will not be borne by the Merging Sub-Fund.
- Your Sub-Fund will not bear any additional legal, advisory or administrative costs associated with the merger.
- The portfolio of your Sub-Fund does not resemble that of the Receiving Sub-Fund, therefore, rebalancing of the assets will be required in preparation for the merger and all or part of your Sub-Fund's assets may be held in cash for a short period in preparation for the merger resulting in your Sub-Fund having less market exposure which will have a positive or negative impact on performance. It is expected that such portfolio rebalancing will commence no earlier than 10 business days prior to the merger date.
- Performance information for your Sub-Fund and the Receiving Sub-Fund can be found in the relevant KIID or factsheet which is available from the document library at www.jpmorganassetmanagement.lu.

Sub-fund comparison

This table compares the relevant information for your Sub-Fund with that of the Receiving Sub-Fund. Unless stated otherwise, terms in this table have the same meaning as in the relevant prospectus.

- **Information that appears in a box** is information that is particular to the sub-fund named at the top of that column.
- **Information that crosses both columns** is information that is the same for both sub-funds.

The Board believes that Shareholders would benefit from more representative delta range that is reflective of how the Receiving Sub-Fund is currently being managed.

Investment approach	<ul style="list-style-type: none"> ▪ Globally diversified convertible bond strategy. ▪ Fundamental approach that focuses on convertible issuers across geographies, sectors and issuers where temporary market dislocations result in the relevant securities trading below par value. ▪ The opportunity to invest in convertible securities trading below par value is expected to reduce over time, accordingly the prices of the securities are expected to return to par value and the income they generate will converge with that of other convertible securities. ▪ When the opportunity to invest in securities trading below par value due to temporary market dislocations is reduced and securities within the portfolio begin to return to par value, the Sub-Fund is expected to merge into a Sub-Fund with similar investment exposures and main risks, subject to regulatory approval and applicable UCITS rules.
