JPMorgan Investment Funds - Japan Select Equity Fund

Reason for changes

The Board believes that re-focusing the sub-fund's main investment exposure towards Japanese sustainable companies with growth potential may improve the sub-fund's potential returns and is in the best interests of shareholders.

This will result in a number of changes to the sub-fund's description as set out in the prospectus and detailed below:

- the sub-fund's investment objective and policy will change from primarily investing in Japanese companies to primarily investing in Japanese sustainable companies as determined by the Investment Manager;
- the investment approach will be updated to reflect that the Investment Manager will adopt a high conviction approach to finding the best investment ideas and will seek to invest in high quality companies with growth potential;
- the Investment Manager will have more discretion to deviate from the benchmark's securities, weightings and risk characteristics and the benchmark resemblance statement will be changed to reflect this;
- the sub-fund will no longer engage in securities lending and the relevant reference will be removed;
- investment flexibility will be added to enable investment in small capitalisation companies and therefore smaller companies risk and liquidity risk will be added to the main risks.

The sub-fund will be re-named JPMorgan Investment Funds – Japan Sustainable Equity Fund to reflect the above and the investor profile of the sub-fund will be updated accordingly.

The portfolio of the sub-fund will be rebalanced following the changes and one-off costs associated with these changes will be borne by your sub-fund.

BEFORE

Sub-Fund's Name

JPMorgan Investment Funds - Japan Select Equity Fund

Objective

To achieve a return in excess of the Japanese equity market by investing primarily in Japanese companies.

Investment Approach

- Uses a fundamental, bottom-up security selection process.

Benchmark uses and resemblance

- Performance comparison.

The Sub-Fund is actively managed. The majority of the Sub-Fund's holdings (excluding derivatives) are likely to be components of the benchmark and it is managed within indicative risk parameters that typically limit the Investment Manager's discretion to deviate from its securities, weightings and risk characteristics.

AFTER

Sub-Fund's Name

JPMorgan Investment Funds - Japan ***Sustainable*** Equity Fund

Objective

To provide long-term capital growth by investing primarily in Japanese Sustainable Companies or companies that demonstrate improving sustainable characteristics. Sustainable Companies are those that the Investment Manager believes to have effective governance and superior management of environmental and social issues (sustainable characteristics).

Main Investment Exposure

At least 67% of assets invested in equities of companies that are domiciled, or carrying out the main part of their economic activity, in Japan.

Main Investment Exposure

At least 67% of assets invested in equities of Sustainable Companies or companies that demonstrate improving sustainable characteristics and that are domiciled, or carrying out the main part of their economic activity, in Japan. The remainder of assets may be invested in equities of companies considered less sustainable than those described above. Sustainable Companies and companies that demonstrate improving sustainable characteristics are selected through the use of proprietary research and third party data. Fundamental analysis is used to better understand sustainability risks and opportunities that may impact a company. This analysis is also an important driver behind active company engagement when seeking to positively influence business practices to improve sustainability. The Sub-Fund may invest in small capitalisation companies.
